

submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket.

Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NESHP for Coke Oven Batteries (Renewal).

Abstract: The National Emissions Standards for Coke Oven Batteries were proposed on December 4, 1992, and promulgated on October 27, 1993. These standards apply to all coke oven batteries, whether existing, new, reconstructed, rebuilt or restarted. It also applies to all batteries using the conventional by-product recovery, the nonrecovery process, or any new recovery process. Under this rule, all existing batteries must choose a compliance track. Two compliance approaches are available under the rule: the "MACT (Maximum Achievable Control Technology) track," and the "LAER (Lowest Achievable Emission Rate) extension track," and straddling both tracks (until January 1, 1998). Applicability dates vary depending on the emission limitation the affected facility is subject to. This information is being collected to assure compliance with 40 CFR part 63, subpart L.

Owners or operators of coke oven batteries, whether existing, new, reconstructed, rebuilt or restarted, are required to comply with monitoring, recordkeeping and reporting requirements. Owners or operators of the affected facilities described must make one-time-only notifications to elect a compliance track and to certify initial compliance. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Monitoring

requirements specific to coke oven batteries provide information on the operation of the emissions control device and compliance with the visible emissions standard. Semiannual reports of compliance certifications are required. These notifications, reports, and records will be used by EPA and states to: (1) Identify batteries subject to the standards; (2) ensure that MACT and LAER are properly applied; and (3) ensure that daily monitoring and work practice requirements are implemented as required.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,754 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Plants with coke oven batteries using the conventional by-product recovery, the nonrecovery process, or any new recovery process.

Estimated Number of Respondents: 19.

Frequency of Response: Initial, semiannual, and on occasion.

Estimated Total Annual Hour Burden: 78,938 hours.

Estimated Annual Costs: \$6,302,094, which includes \$0 in Operations and Maintenance costs, \$0 in Capital Expense, and \$6,302,094 in Respondent Labor costs.

Changes in the Estimates: There is a decrease of 25,721 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in burden from the most recently approved ICR is due

to a decrease in the number of plants with coke oven batteries. However, there was an estimated cost increase due to an increase in labor rates. There were no capital/startup and operation and maintenance costs associated with continuous emission monitoring for the renewal of the ICR, therefore, there is no change in this burden category.

SUPPLEMENTARY INFORMATION:

I. General Information

This notice announces the first meeting of the Federal Advisory Committee on Detection and Quantitation Procedures and Uses in Clean Water Act Programs. The establishment of this committee was announced in a **Federal Register** notice published on July 13, 2005 (70 FR 25565.) The purpose of the committee is to evaluate and recommend detection and quantitation procedures for use in EPA's analytical methods programs for compliance monitoring under 40 CFR part 136. The committee will analyze and evaluate relevant scientific and statistical approaches, and protocols. The committee also will review data and interpretations of data using current and recommended approaches. The major objectives are to provide advice and recommendations to the EPA Administrator on policy issues related to detection and quantitation, and scientific and technical aspects of procedures for detection and quantitation. Proposed agenda items for the meeting include, but are not limited to, discussion of ground rules; process design; statements of interest by committee members; establishing a common base of information and identification of key policy questions; discussion of possible alternatives to current detection and quantitation

procedures; and composition of a Technical Work Group to assist the committee. This meeting is open to the public.

Information on Services for Individuals With Disabilities

For information on access or services for individuals with disabilities, please contact Ms. Marion Kelly at (202) 566-1045 or e-mail: kelly.marion@epa.gov to request accommodation of a disability, at least ten days prior to the meeting so that appropriate arrangements can be made to facilitate their participation.

A. How Can I Get Copies of Related Information?

1. *Docket.* EPA has established an official public docket for this committee under Docket ID NO. OW-2004-0041. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Documents in the official public docket are listed in the index in EPA's electronic public docket and comment system, EDOCKET. Documents are available either electronically or in hard copy. Electronic documents may be viewed through EDOCKET. Hard copies of the draft agendas may be viewed at the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OW Docket is (202) 566-2426.

2. *Electronic Access.* You may access this **Federal Register** document electronically through the EPA Internet under the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>. An electronic version of the public docket is available through EDOCKET. You may use EDOCKET at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number (OW-2004-0041).

For public commenters, it is important to note that EPA's policy is that comments, whether submitted electronically or on paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material,

confidential business information (CBI), or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks mailed or delivered to the docket will be transferred to EPA's electronic public docket. Written public comments mailed or delivered to the Docket will be scanned and placed in EPA's electronic public docket.

B. How and To Whom Do I Submit Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket identification number (OW-2004-0041) in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period.

1. *Electronically.* If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment, and it allows EPA to contact you if further information on the substance of the comment is needed or if your comment cannot be read due to technical difficulties. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EDOCKET.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EDOCKET at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. To access EPA's electronic public docket from the EPA Internet home page, <http://www.epa.gov>,

select "Information Sources," "Dockets," and "EDOCKET." Once in the system, select "search," and then key in Docket ID No. OW-2004-0041. The system is an anonymous access system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by electronic mail (e-mail) to OW.Docket@epa.gov, Attention Docket ID No. OW-2004-0041. In contrast to EPA's electronic public docket, EPA's e-mail system is not an anonymous access system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM mailed to the mailing address identified in section I.B.2 of this notice. These electronic submissions will be accepted in Word, WordPerfect or rich text files. Avoid the use of special characters and any form of encryption.

2. *By Mail.* Send your comments to: U.S. Environmental Protection Agency, OW Docket, EPA Docket Center (EPA/DC), Mailcode: 28221T, 1200 Pennsylvania Ave., NW., Washington, DC, 20460, Attention Docket ID No. OW-2004-0041.

3. *By Hand Delivery or Courier.* Deliver your comments to: EPA Docket Center (EPA/DC), Room B102, EPA West Building, 1301 Constitution Avenue, NW., Washington, DC, Attention Docket ID No. OW-2004-0041 (note: this is not a mailing address). Such deliveries are only accepted during the docket's normal hours of operation as identified in section I.A.1 of this notice.

Dated: May 18, 2005.

Richard Reding,

Designated Federal Officer.
