

identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 24 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Permitted municipal and non-municipal point source dischargers and sewage sludge facilities, and States and Territories authorized to administer and implement the NPDES permit program.

**Estimated Number of Respondents:** 81,988.

**Frequency of Response:** annually and other.

**Estimated Total Annual Hour Burden:** 14,164,582.

**Estimated Total Annual Cost:** \$5,131,000 includes \$0 annualized capital or O&M costs.

**Changes in the Estimates:** There is a decrease of 57,375 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to adjustments to the estimates.

Dated: May 17, 2005.

## ENVIRONMENTAL PROTECTION AGENCY

[OW-2004-0025; FRL-7918-4]

### Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Minimum Monitoring Requirements for Direct and Indirect Discharging Mills in the Bleached Papergrade Kraft and Soda Subcategory and the Papergrade Sulfite Subcategory of the Pulp, Paper and Paperboard Point Source Category (Renewal), EPA ICR Number 1878.02, OMB Control Number 2040-0243

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on May 31, 2005. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

**DATES:** Additional comments may be submitted on or before June 27, 2005.

**ADDRESSES:** Submit your comments, referencing docket ID number OW-2004-0025, to (1) EPA online using EDOCKET (our preferred method), by e-mail to [OW-Docket@epa.gov](mailto:OW-Docket@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Water Docket, 4101T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Jack Faulk, Office of Wastewater Management, 4203M, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-0768; fax number: (202) 501-2399; e-mail address: [faulk.jack@epa.gov](mailto:faulk.jack@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 30, 2004 (69 FR 52883), EPA sought comments on this ICR pursuant

to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OW-2004-0025, which is available for public viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

**Title:** Minimum Monitoring Requirements for Direct and Indirect Discharging Mills in the Bleached Papergrade Kraft and Soda Subcategory and the Papergrade Sulfite Subcategory of the Pulp, Paper and Paperboard Manufacturing Category (Renewal).

**Abstract:** The Environmental Protection Agency (EPA) imposed minimum monitoring requirements on bleached papergrade kraft and soda (subpart B) and papergrade sulfite

(subpart E) mills under 40 CFR part 430 as part of the effluent limitations guidelines and standards promulgated on April 15, 1998. As a result, the permitting and pretreatment control authority requires applicable facilities subject to subparts B or E to monitor their effluent for adsorbable organic halides (AOX), 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD), 2,3,7,8-tetrachlorodibenzofuran (TCDF), chloroform, and 12 chlorinated phenolics at specified frequencies. See 40 CFR 430.02. Under 40 CFR 122.41(e)(4), the discharger must then report these monitoring results to the permitting or pretreatment control authority using either Discharge Monitoring Reports (DMRs) or Periodic Compliance Reports (PCRs). These minimum monitoring requirements and corresponding reporting requirements are necessary to demonstrate compliance with the effluent limitations guidelines and standards promulgated at 40 CFR part 430, subparts B and E.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 361 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Operations that chemically pulp wood fiber using kraft or soda methods to produce bleached papergrade pulp, paperboard, coarse paper, tissue paper, fine paper, and/or paperboard; and those operations that chemically pump wood fiber using papergrade sulfite methods to produce pulp and/or paper.

**Estimated Number of Respondents:** 138.

**Frequency of Response:** No less than annually for direct dischargers and no less than twice annually for indirect dischargers.

**Estimated Total Annual Hour Burden:** 37,544.

**Estimated Total Annual Cost:** \$15,086,000, which includes \$0 annual capital/startup costs, \$13,819,000 annual O&M costs and \$1,267,000 annual labor costs.

**Changes in the Estimates:** There is slight increase in the burden hours currently identified in the OMB Inventory of Approved ICR Burdens which is due to an adjustment in the number of respondents. There is a decrease in the annual cost due to the fact that the one-time capital costs incurred under the original ICR are not included in this renewal ICR.

Dated: May 18, 2005.

## ENVIRONMENTAL PROTECTION AGENCY

[R08-OAR-2005-UT-0005; FRL-7916-9]

### Adequacy Determination for the Ogden City Area Carbon Monoxide Maintenance State Implementation Plan for Transportation Conformity Purposes; State of Utah

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of adequacy.

**SUMMARY:** In this document, EPA is notifying the public that we have found that the motor vehicle emissions budget for 2021 in the Ogden, Utah Carbon Monoxide Maintenance Plan, that was submitted by Utah Governor Olene S. Walker on November 29, 2004, is adequate for transportation conformity purposes. 40 CFR 93.118(e)(2) requires that EPA declare an implementation plan submission's motor vehicle emissions budget adequate for conformity purposes prior to the budget being used to satisfy the conformity requirements of 40 CFR part 93. As a result of our finding, the Wasatch Front Regional Council of Governments, the Utah Department of Transportation and the U.S. Department of Transportation are required to use the motor vehicle emissions budget from this submitted maintenance plan for future transportation conformity determinations.

**DATES:** This finding is effective June 10, 2005.

**FOR FURTHER INFORMATION CONTACT:**

Jeffrey Kimes, Air & Radiation Program (8P-AR), United States Environmental Protection Agency, Region 8, 999 18th Street, Suite 300, Denver, Colorado 80202-2466, (303) 312-6445, [kimes.jeffrey@epa.gov](mailto:kimes.jeffrey@epa.gov).

The letter documenting our finding is available at EPA's conformity Web site: <http://www.epa.gov/otaq/transp/conform/adequacy.htm>.

**SUPPLEMENTARY INFORMATION:**

Throughout this document "we", "us", or "our" are used to mean EPA.

This action is simply an announcement of a finding that we have already made. We sent a letter to the Utah Division of Air Quality on May 2, 2005, stating that the motor vehicle emission budget in the submitted Ogden, Utah Carbon Monoxide Maintenance Plan is adequate. This finding has also been announced on our conformity Web site at <http://www.epa.gov/otaq/transp/conform/adequacy.htm>.

Transportation conformity is required by section 176(c) of the Clean Air Act. Our conformity rule requires that transportation plans, programs, and projects conform to SIPs and establishes the criteria and procedures for determining whether or not they demonstrate conformity. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from our completeness review, and it also should not be used to prejudge our ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved, and vice versa.

The process for determining the adequacy of a transportation conformity budget is described at 40 CFR 93.118(f).

For the reader's ease, we have excerpted the motor vehicle emission budget from the Ogden, Utah Carbon Monoxide Maintenance Plan and it is as follows: Motor vehicle emissions budget for the year 2021 is 73.02 tons per day of CO. 40 CFR 93.118(e)(1) requires that previously approved budgets for years other than 2021 must still be used in any conformity determination until the maintenance plan is fully approved by EPA.
