Petition to Remove 4,4'-Methylene Diphenyl Diisocyanate From the List of Hazardous Air Pollutants**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of receipt of a complete petition to delist 4,4'-methylene diphenyl diisocyanate from the list of hazardous air pollutants.

SUMMARY: The EPA is announcing the receipt of a complete petition from the Diisocyanates Panel of the American Chemistry Council (ACC) requesting EPA to remove the chemical 4,4'-methylene diphenyl diisocyanate (MDI) (Chemical Abstract Service No. 101-68-8) from the list of hazardous air pollutants (HAP) contained in section 112(b)(1) of the Clean Air Act (CAA). We have determined that the ACC's original petition dated December 23, 2002, and the addenda provided by the ACC through March 7, 2005, will support an assessment of the human health impacts associated with people living in the vicinity of facilities emitting MDI. In addition, the data submitted by the ACC will support an assessment of the environmental impacts associated with emissions of MDI to the ambient air and deposited onto soil or water. Consequently, we have concluded that ACC's petition is complete as of March 7, 2005, the date that the last addendum was received, and is ready for public comment and the technical review phase of our delisting procedure.

The EPA invites the public to comment on the petition and to provide additional data, beyond that filed in the petition, on sources, emissions, exposure, health effects and environmental impacts associated with MDI that may be relevant to our technical review. The petition is available through Docket ID OAR-2005-0085.
