Alabama: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Alabama has applied to EPA for final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to Alabama for RCRA Cluster XIII. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we get written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

SUPPLEMENTARY INFORMATION:

A. Background

This proposed rule revises procedures for use of Federal Supply Schedules and multiple award contracts to promote competition in the placement of orders for supplies or services. The proposed changes—

- Revise approval requirements for placement of noncompetitive orders exceeding \$100,000 under Federal Supply Schedules for consistency with those at FAR 8.405-6, and extend those requirements to orders under multiple award contracts;

- Apply the same ordering procedures to both supplies and services; and

- Make additional changes to DFARS Subpart 208.4 for consistency with the changes to FAR Subpart 8.4 published in Item V of Federal Acquisition Circular 2001-24 On June 18, 2004 (69 FR 34231).

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

This proposed rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed changes strengthen and clarify existing requirements for competition in the placement of orders under Federal Supply Schedules and multiple award contracts. Therefore, DoD has not performed an initial regulatory
