The North Carolina Zoological Park is authorized to use four individual, captive-bred, non-releaseable shortnose sturgeons for an educational display exhibit. This project of displaying endangered captive bred shortnose sturgeon responds directly to a recommendation of the NMFS recovery outline for this species. This display educates the public on shortnose sturgeon life history and the reason for its declining numbers. This modification will extend the permit through July 31, 2006.

Issuance of this modification, as required by the ESA was based on a finding that this permit modification: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of this permit; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
