##### II. What Action is EPA taking?

In the *Federal Register* of March 11, 2005 (40 FR 12275), EPA issued a proposed rule to update its pesticide data requirements for conventional pesticide chemicals. This document extends the public comment period for that proposed rule. EPA received requests to extend the comment period by 90 days from four industry organizations: CropLife America (CLA), the Biocides Panel of the American Chemistry Council (ACC), the Consumer Specialty Products Association (CPSA), and the Chemical Producers and Distributors Association (CPDA). All four groups requested that EPA extend the comment period because of the length of the proposed rule and the complex legal, scientific, and policy issues in the rule.

The requesters also cited a desire for more outreach by EPA on the contents of the proposal. EPA has already provided numerous opportunities for the public to inform itself about the provisions of the proposed rule. Of particular note, EPA conducted a two-day public workshop on the proposed rule on May 3 - 4, 2005. EPA also met individually with CLA members on two occasions and provided an overview of the proposed rule at a workshop sponsored by CPDA on May 4, 2005. Thus, EPA believes that the extensive outreach activities with stakeholders to date are sufficient for the purpose and scope of this particular rulemaking.

To allow stakeholders additional time to assess the impact of the proposed revisions on their particular situations and prepare their comments, EPA is extending the comment period by an additional 90 days. The comment period, which was set to end on June 9, 2005, will now end on September 7, 2005.

##### III. Do Any Statutory and Executive Order Reviews Apply to this Action?

No. This action is not a rulemaking, it merely extends the date by which public comments on a proposed rule must be submitted to EPA on a proposed rule that previously published in the *Federal Register* of March 11, 2005 (70 FR 12275).
