## DEPARTMENT OF EDUCATION

### Grants to States To Improve Management of Drug and Violence Prevention Programs

**AGENCY:** Office of Safe and Drug-Free Schools, Department of Education.

**ACTION:** Notice of final priorities and requirements.

**SUMMARY:** The Assistant Deputy Secretary for Safe and Drug-Free Schools announces priorities and requirements under the Safe and Drug-Free Schools and Communities Act (SDFSCA) National Programs for Grants to States to Improve Management of

Drug and Violence Prevention Programs. We may use one or more of these priorities and requirements for competitions in fiscal year (FY) 2005 and later years. We take this action to focus Federal financial assistance on an identified national need. We intend the priorities and requirements to facilitate the development, enhancement, or expansion of the capacity of States and other entities that receive SDFSCA State Grants program funds to collect, analyze, and use data to improve the management of drug and violence prevention programs.

**DATES:** Effective Date: These priorities and requirements are effective July 13, 2005.

#### FOR FURTHER INFORMATION CONTACT:

Maria Worthen, U.S. Department of Education, 400 Maryland Avenue, SW., room 3E234, Washington, DC 20202–6450. Telephone: (202) 205–5632 or via Internet: [maria.worthen@ed.gov](mailto:maria.worthen@ed.gov).

If you use a telecommunications device for the deaf (TDD), you may call the Federal Relay Service (FRS) at 1–800–877–8339.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

**SUPPLEMENTARY INFORMATION:** States and their local communities are implementing a variety of programs, activities, and strategies designed to prevent youth drug use and violence in schools. Just as policymakers, education professionals, and parents seek reliable information about student academic progress, stakeholders also need sufficient information and data to assess the nature of youth drug and violence prevention problems in their communities, select research-based approaches to preventing these problems, and determine whether these prevention efforts are successful.

The U.S. Department of Education currently requires States to collect and report data on youth drug and violence prevention problems and prevention efforts through a uniform management information and reporting system (UMIRS) that States must establish under section 4112(c)(3) of the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001 (ESEA) (20 U.S.C. 7112(c)(3)). States also need to use objective data about school safety to meet the Unsafe School Choice Option (USCO) requirements in section 9532 of the ESEA.

States and local communities face several challenges in implementing these requirements and, in turn, operating and managing effective drug and violence prevention programs. These challenges may include:

- Lack of standardized collection instruments and definitions both within and across States;
- Lack of expertise related to collecting data about youth drug use and violence;
- Lack of time and other resources to support high-quality data collection and analysis in these areas;
- Unfavorable community and media reaction to high rates of youth drug use and violence that discourages full and accurate reporting; and
- Negative consequences for administrators whose schools have high rates of drug use or violent incidents.

The Department proposed the priorities and requirements announced in this notice to provide support to States to explore strategies that help them address each of these challenges so that they can enhance their capacity to collect and use data to assess and improve implementation of their drug and violence prevention programs.

We published a notice of proposed priorities and requirements for this program in the **Federal Register** on March 9, 2005 (70 FR 11623).

Except for minor technical revisions, and a change to the requirements described in the *Analysis of Comments and Changes* section, there are no differences between the notice of proposed priorities and requirements and this notice of final priorities and requirements.

#### Analysis of Comments and Changes

In response to our invitation in the notice of proposed priorities and requirements, three parties submitted comments on the proposed priorities and requirements. An analysis of the comments and of any changes in the priorities and requirements since publication of the notice of proposed priorities and requirements follows.

Generally, we do not address technical and other minor changes or any suggested changes that the Secretary is not authorized to make under the applicable statutory authority.

*Comment:* One commenter recommended that Federal agencies, including the U.S. Department of Education and the Substance Abuse and Mental Health Services Administration (SAMHSA) in the U.S. Department of Health and Human Services, that share common program goals should develop a common set of outcome measures for drug and violence prevention programs
