

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for profit.

Number of Respondents: 50.

Estimated Time Per Response: 0.7 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 35 hours.

Annual Cost Burden: \$6,000.

Privacy Act Impact Assessment: N/A.

Needs and Uses: This rule section requires that if airports have control towers or Federal Aviation Administration (FAA) flight service stations, and should more than one licensee want to have an automated aeronautical advisory station ("unicom"), the licensees must write an agreement outlining who will be responsible for the unicom's operation, sign the agreement, and keep a copy of the agreement with each licensee's station authorization. The information will be used by compliance personnel for enforcement purposes and by licensees to clarify responsibility in operating unicom.

OMB Control No.: 3060-0882.

Title: Section 95.833, Construction Requirements.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; business or other for profit.

Number of Respondents: 1,468.

Estimated Time Per Response: 1 hour.

Frequency of Response: Every 10 year reporting requirement.

Total Annual Burden: 1,468 hours.

Annual Cost Burden: N/A.

Privacy Act Impact Assessment: No.

Needs and Uses: Section 95.833 requires each 218-219 MHz service system license to file a report after ten years of the license grant to demonstrate that the licensee provides substantial service to its service areas. The information is used by Commission staff to assess compliance with 218-219 MHz service construction requirements, and to provide adequate spectrum for the service. This will facilitate spectrum efficiency and competition by the 218-219 MHz service licensees in the wireless marketplace. Without this information, the Commission would not be able to carry out its statutory responsibilities.

OMB Control No.: 3060-0987.

Title: 911 Callback Capability; Non-initialized Phones.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for profit, and state, local or tribal government.

Number of Respondents: 3,137.

Estimated Time Per Response: 1-3 hours.

Frequency of Response: One time reporting requirement and third party disclosure requirement.

Total Annual Burden: 4,885 hours.

Annual Cost Burden: \$661,125.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The labeling requirement, education requirement, and software/coding requirement are all needed to make all parties involved in emergency calls originating from non-initialized and "911 only" phones aware that the calling party cannot be reached for further information. This is necessary to advise the public and emergency workers of this limitation, and to advise them in using such phones in emergency situations to provide as much critical location information must be supplied to the Public Safety Answering Points (PSAPs) as quickly as possible in the originating call.

Federal Communications Commission.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

June 3, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility;

(b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before July 15, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments regarding this Paperwork Reduction Act submission to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., DC 20554 or via the Internet to *Judith-B.Herman@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at *Judith-B.Herman@fcc.gov*.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1080.

Title: Improving Public Safety Communications in the 800 MHz Band.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 2,500.

Estimated Time Per Response: 3-8 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 27,162 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is seeking extension (no change) to this information collection in order to obtain the full three year clearance from the OMB. This information collection contains reporting and third party disclosure requirements to resolve interference to public safety (e.g., police, fire, and other emergency first responders) communications in the 800 MHz band that are caused by Cellular Radiotelephone and Enhanced Specialized Mobile Radio (ESMR) operators. After exploring all possible technical remedies, the Commission adopted a two-prong approach to resolving interference.

In the short-term, the Commission's rules will abate interference to the

extent possible. The most important of these rules imposes responsibility on the interfering carriers to remedy interference in a timely manner.

In the long-term, the Commission concluded that the entire 800 MHz band must be restructured. Band restructuring or reconfiguration refers to spectrally segregating public safety and ESMR operators as far as technically possible. To this end, Nextel Communications Inc. (Nextel) will secure a \$2.5 billion letter (letters) of credit to pay for band reconfiguration. Without Nextel's support, public safety licensees could not afford the costs of relocating their systems. This information collection includes the following requirements: (1) Prior notification; (2) electronic database; (3) response to interference complaints; (4) clear and imminent danger; (5) relocation agreements; and (6) Transition Administrator.

The information collection requirements and third party disclosure requirements will be used by the Commission to ensure that Cellular/ESMR, Public Safety, Critical Infrastructure Industry (CII), and other 800 MHz licensees comply with interference mitigation and frequency relocation requirements in an orderly, timely, comprehensive fashion with no unnecessary delay.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

June 3, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Pub. L. No. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a)

Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 15, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554 or via the Internet to pra@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Cathy Williams at (202) 418-2918 or via the Internet at pra@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0707.

Title: Over-the-Air Reception Devices (OTARD).

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: State, local or tribal government.

Number of Respondents: 60.

Estimated Time per Response: 2-6 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 224 hours.

Total Annual Cost: \$9,050.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Petitions for waivers of Section 207 rules are used by the Commission to determine whether the state, local or non-governmental regulation or restriction is unique in a way that justifies waiver of our rules prohibiting restrictions to the use of the over-the-air reception devices.

Federal Communications Commission.

BILLING CODE 6712-10-P

FEDERAL COMMUNICATIONS COMMISSION

[WT Docket No. 02-55; DA 05-1546]

NPSPAC Regions Assigned to Wave 1 and Specific 800 MHz Reconfiguration Benchmark Compliance Dates

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: As part of the 800 MHz band reconfiguration process, the Commission stated that it would issue a public notice thirty days before reconfiguration is scheduled to start in each NPSPAC region. Each such public notice will specify a three-month voluntary negotiation period during which time identified licensees in the regions being reconfigured are encouraged to reach agreement with Nextel on the details of relocating. The voluntary negotiation period would be followed by a three-month mandatory negotiation period, if necessary. The Commission also stated that it would freeze the filing of certain 800 MHz applications for the regions being reconfigured when it issued a public notice announcing the date when voluntary negotiation of relocation agreements must be concluded. The Commission explained that this freeze is necessary in order to maintain a stable spectral landscape during the reconfiguration process in each region. Finally, the Commission noted that the start date for reconfiguration in the first NPSPAC region will also be the start date for computation of two interim reconfiguration benchmarks (eighteen and thirty months) and the start date for determining when reconfiguration must be completed (thirty-six months).

DATES: This notice announces that 800 MHz band reconfiguration shall commence on June 27, 2005.

FOR FURTHER INFORMATION CONTACT:

Roberto Mussenden, Roberto.Mussenden@FCC.gov, Public Safety and Critical Infrastructure Division, Wireless Telecommunications Bureau, (202) 418-0680, TTY (202) 418-7233.

SUPPLEMENTARY INFORMATION: This is a summary of a public notice released on May 27, 2005.

1. In July 2004, the Federal Communications Commission (FCC) adopted a *Report and Order* (69 FR 67823, November 22, 2004), which reconfigured the 800 MHz band to eliminate interference to public safety and other land mobile communication systems operating in the band. As specified in the *Report and Order*, the
