

likelihood of selecting appropriate practitioners; and the roster is a systematic and efficient way to identify practitioners.

The roster and the referral system provide an efficient, credible and user-friendly source from which to systematically identify experienced environmental neutral professionals; increase the use of collaborative processes by providing a useful tool for locating appropriate practitioners; and provide users with a detailed Practitioner Profiles, reflecting information contained in the application, to be used as a helpful first step in the process of selecting an appropriate neutral.

E. Burden Statement

The application compiles data available from the resumes of dispute resolution and consensus building professionals into a format that is standardized for efficient and fair eligibility review, database searches, and retrievals. A professional needs to complete the form only one time. Once the application is approved, the roster member has continual access to his or her on-line account to update information, on a voluntary basis. The burden includes time spent to review instructions, review resume information, and enter the information in the form.

Likely Respondents: Environmental dispute resolution and consensus building professionals (new respondents); existing roster members (for updating)

Proposed Frequency of Response: One, with voluntary updates approximately once per year.

Estimated Number of New Respondents (first extension year): 30.

Estimated Number of Existing Respondents—for updating (first extension year): 125.

Estimated Number of New Respondents (per year for succeeding year): 30.

Estimated Number of Existing Respondents—for updating (per year for succeeding year): 125.

Respondent Time Burden Estimates:

Estimated Time per New Response: 150 minutes (2.5 hours).

Estimated Number of Updates (per year): 1, for 125 existing respondents.

Estimated Time for Update: 15 minutes.

Estimated Total First Extension Year Burden: 4500 minutes (75 hours) (30 new respondents); 1875 minutes (31.25 hours) (125 updates).

Estimated Total Subsequent Year Annual Burden: 4500 minutes (75

hours) (30 new respondents); 1875 minutes (31.25 hours) (125 updates).

Respondent Cost Burden Estimates (at \$150 per hour): No capital or start-up costs.

Estimated Cost per Respondent (first extension year): \$375 (new respondents); \$38 (updates).

Estimated Cost per Respondent (subsequent year): \$375 (new respondents); \$38 (updates).

Estimated Total First Extension Year Burden: \$11,250 (new respondents); \$4,750 (updates).

Estimated Total Subsequent Year Annual Burden: \$11,250 (new respondents); \$4,750 (updates).

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information and transmitting information.

(Authority: 20 U.S.C. 5601–5609)

Dated the 14th day of June 2005.

Christopher L. Helms,

Executive Director, Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation, and Federal Register Liaison Officer.

BILLING CODE 6820–FN–P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Pub. L. 104–13. This is the second notice for the public comment; the first was published in the **Federal Register** at 70 FR 18430, and one comment was received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725—17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703–292–7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Comment: On April 11, 2005, we published in the Federal Register (70 FR 18430) a 60-day notice of our intent to request renewal of this information collection authority from OMB. In that notice, we solicited public comments for 60 days ending June 10, 2005. On comment was received from the public notice. The comment came from B. Sachau of Floram Park, NJ, via e-mail on April 18, 2005. Ms. Sachau objected to the information collection. Ms. Sachau suggested that NSF discontinue funding education-related projects and leave education to the state and local authorities and possibly to the Department of Education. Ms. Sachau had no specific suggestions for altering the data collection plans other than to discontinue or “sunset” them entirely.

Response: We responded to Ms. Sachau on April 27, 2005, stating that we could not comment on the political issues raised in her e-mail. We described the program and noted that NSF takes seriously its mission as

directed by Congress and the Office of Management and Budget (OMB) to monitor and evaluate awards made under the Math and Science Partnership (MSP) program. On April 28, 2005 we received a reply from Ms. Sachau requesting her "comments stand for the public record. NSF believes that because the comment does not pertain to the collection of information on the required forms for which NSF is seeking OMB approval, NSF is proceeding with the clearance request.

Title: The Evaluation of NSF's Math and Science Partnerships (MSP) Program.

OMB Control Number: 3145-0199.

Abstract

This document has been prepared to support the clearance of data collection instruments to be used in the evaluation of the Math and Science Partnership (MSP) Program. The goals for the program are to (1) ensure that all K-12 students have access to, are prepared for, and are encouraged to participate and succeed in challenging curricula and advanced mathematics and science courses; (2) enhance the quality, quantity, and diversity of the K-12 mathematics and science teacher workforce; and (3) develop evidence-based outcomes that contribute to our understanding of how students effectively learn mathematics and science. The motivational force for realizing these goals is the formation of partnerships between institutions of higher education (IHEs) and K-12 school districts. The role of IHE content faculty is the cornerstone of this intervention. In fact, it is the rigorous involvement of science, mathematics, and engineering faculty—and the expectation that both IHEs and K-12 school systems will be transformed—that distinguishes MSP from other education reform efforts.

The components of the overall MSP portfolio include active projects whose initial awards were made in prior MSP competitions, as well as those to be awarded in the current MSP competition: (1) Comprehensive Partnerships that implement change in mathematics and/or science educational practices in both higher education institutions and in schools and school districts, resulting in improved student achievement across the K-12 continuum; (2) Targeted Partnerships that focus on improved K-12 student achievement in a narrower grade range or disciplinary focus within mathematics or science; (3) Institute Partnerships: Teacher Institutes for the 21st Century that focus on the development of mathematics and

science teachers as school-and district-based intellectual leaders and master teachers; and (4) Research, Evaluation and Technical Assistance (RETA) projects that build and enhance large-scale research and evaluation capacity for all MSP awardees and provide them with tools and assistance in the implementation and evaluation of their work.

The MSP online monitoring system, comprised of four web-based surveys, will collect a common core of data about each component of MSP. The web application for MSP will be developed with a modular design that incorporates templates and self-contained code modules for rapid development and ease of modification. A downloadable version will also be available for respondents who prefer a paper version that they can mail or fax to Westat. Information from the system will be used to document the Partnerships' annual progress toward meeting the Key features of MSP projects, such as developing partnerships between IHEs and local school districts, increasing teacher quality, quantity, and diversity, providing challenging courses and curricula, utilizing evidence-based design and outcome measures, and implementing institutional change and sustainability.

Expected Respondents

The expected respondents are principal investigators of all projects; STEM and education faculty members and administrators who participated in MSP; school districts and IHEs that are partners in an MSP project.

Burden on the Public

We estimate that the total number of annual respondents will be 1,848. The estimated annual response burden is 34,382.

Dated: June 15, 2005.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-454, STN 50-455, STN 50-456, and STN 50-457]

Exelon Generation Company, LLC; Notice of Issuance of Amendments to Facility Operating Licenses; Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Issuance; correction.

SUMMARY: This document corrects a notice appearing in the **Federal Register** on June 7, 2005 (70 FR 33222), that incorrectly stated the date of issuance of amendments deleting the technical specification requirements related to hydrogen recombiners as May 19, 2005. The correct date of issuance of the amendments is May 26, 2005.

FOR FURTHER INFORMATION CONTACT:

George F. Dick, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone (301) 415-3019, e-mail: GFD@nrc.gov.

SUPPLEMENTARY INFORMATION: On page 33222, in the second column, in the entry for Exelon Generation Company, LLC, Docket Nos. STN 50-454 and STN 50-455, Byron Station, Unit Nos. 1 and 2, Ogle County, Illinois; Docket Nos. STN 50-456 and STN 50-457, Braidwood Station, Unit Nos. 1 and 2, Will County, Illinois, the date of issuance is corrected to read from "May 19, 2005" to "May 26, 2005".

Dated in Rockville, Maryland, this 9th day of June 2005.

For the Nuclear Regulatory Commission.

George F. Dick, Sr.,

Project Manager, Section 2, Project Directorate III, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-3103]

Safety Evaluation Report for the Proposed National Enrichment Facility in Lea County, NM, NUREG-1827; Notice of Availability

AGENCY: United States Nuclear Regulatory Commission.

ACTION: Notice of availability of Safety Evaluation Report.

SUMMARY: Notice is hereby given that the Nuclear Regulatory Commission (NRC) has issued a Safety Evaluation Report (SER) for the Louisiana Energy Services (LES) license application, dated December 12, 2003, docketed on January 30, 2004, and as revised by letters dated February 27, 2004, July 30, 2004, September 30, 2004, April 22, 2005, April 29, 2005, and May 25, 2005, for the possession and use of source, byproduct, and special nuclear materials at its proposed National Enrichment Facility (NEF) in Lea County, New Mexico.

The SER discusses the results of the safety review performed by NRC staff in
