

Average Burden Per Response: 5 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION: All survey questionnaires are carefully selected to minimize undue burden on the public and are subject to internal controls and pre-testing before actual use.

Duplication is avoided by close coordination with state and local agencies as well as other Federal agencies and, whenever possible, participation in joint data collection efforts. Most of the Corps of Engineers civil works survey information is collected for very unique circumstances, such as visitor information at Corps recreation areas or flood damage information related to the Corps evaluation procedures. Much of this information is required to be very current and must be updated every one to two years.

[Project No. 2183]

Grand River Dam Authority; Notice of Authorization for Continued Project Operation

June 13, 2005.

On June 2, 2003, the Grand River Dam Authority, licensee for the Markham Ferry Project No. 2183, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations. Project No. 2183 is located on the Grand River in Mayes County, Oklahoma.

The license for Project No. 2183 was issued for a period ending May 31, 2005. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year to year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on Section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.
