[DFARS Case 2001-D003]

**Defense Federal Acquisition Regulation Supplement; Geographic Use of the Term "United States"**

**AGENCY:** Department of Defense (DoD).  
**ACTION:** Final rule.

**SUMMARY:** DoD is amending the Defense Federal Acquisition Regulation Supplement (DFARS) to standardize the use of the term "United States" and associated geographic terms, in accordance with definitions found in the Federal Acquisition Regulation.

**EFFECTIVE DATE:** June 21, 2005.

**FOR FURTHER INFORMATION CONTACT:** Ms. Amy Williams, Defense Acquisition Regulations Council, OUSD (AT&L) DPAP (DAR), IMD 3C132, 3062 Defense Pentagon, Washington, DC 20301-3062. Telephone (703) 602-0328; facsimile (703) 602-0350. Please cite DFARS Case 2001-D003.

**SUPPLEMENTARY INFORMATION:**

**A. Background**

This final rule amends the DFARS to standardize the use of geographic terms, for consistency with the definitions of the following terms found in section 2.101 of the Federal Acquisition Regulation: "United States"; "contiguous United States"; "customs territory of the United States"; and "outlying areas".

DoD published a proposed rule at 69 FR 65121 on November 10, 2004. DoD received no comments on the proposed rule. DoD has adopted the proposed rule as a final rule, with the following exceptions:

- The proposed changes to DFARS 204.670-1 and 253.204-70 are not included in the final rule. These changes will be addressed in a separate DFARS case relating to the DD Form 350, Individual Contracting Action Report.
- The proposed change to DFARS 236.602-1(a)(i)(6)(A)(2) is not included in the final rule. This text was removed

from the DFARS in the final rule published at 69 FR 75000 on December 15, 2004.

The proposed revision to the clause at DFARS 252.225-7039, Restriction on Acquisition of Totally Enclosed Lifeboat Survival Systems, is not included in the final rule. This clause was proposed for deletion in the proposed rule published at 70 FR 14628 on March 23, 2005.

The final rule includes technical amendments at DFARS 247.571 to update cross-references.

The final rule includes changes to the clause at DFARS 252.212-7001, Contract Terms and Conditions Required to Implement Statutes or Executive Orders Applicable to Defense Acquisitions of Commercial Items, to update referenced clause dates.

The final rule reflects the revisions to DFARS 252.225-7003 and 252.225-7004, and the addition of DFARS 252.225-7006, included in the final rule published at 70 FR 20838 on April 22, 2005.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

**B. Regulatory Flexibility Act**

DoD certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the rule standardizes DFARS terminology, but makes no substantive change to policy.

**C. Paperwork Reduction Act**

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.

RIN 2700-AC60

#### Contractor Access to Sensitive Information

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

**SUMMARY:** This final rule adopts with changes the proposed rule published in the **Federal Register** on December 5, 2003 (68 FR 67995-67998). This final rule amends the NASA Federal Acquisition Regulation (FAR) Supplement (NFS) by providing policy and procedures on how NASA will acquire services to support management activities and administrative functions when performing those services requires the contractor to have access to sensitive information submitted by other contractors. NASA's increased use of contractors to support management activities and administrative functions, coupled with implementing Agency-wide electronic information systems, requires establishing consistent procedures for protecting sensitive information from unauthorized use or disclosure.

**EFFECTIVE DATE:** June 21, 2005.

**FOR FURTHER INFORMATION CONTACT:** David Forbes, NASA Headquarters, Contract Management Division, Washington, DC 20546, (202) 358-2051, e-mail: [David.P.Forbes@nasa.gov](mailto:David.P.Forbes@nasa.gov).

**SUPPLEMENTARY INFORMATION:**

#### A. Background

On December 5, 2003, NASA published in the **Federal Register** (68 FR 67995-67998) a proposed revision to the NFS prescribing policy, procedures, and clauses to address how NASA will acquire services to support

management activities and administrative functions when performing those services requires the service provider to have access to “confidential” information submitted by other contractors. One of the comments that NASA received in response to this publication relates to a fundamental concept and demands attention at the outset. As published, the proposed rule used the word “confidential” to describe the types of information that required special attention when turned over to a service provider. NASA intended this word to describe a general class of information, largely of a business or management nature, the value of which arose mostly from the fact that it was not readily known to the public. NASA never intended this word to refer to one of the standard classifications of information for national security purposes, as in “confidential-secret-top secret.”

Nevertheless, concerns have arisen that using the word might cause confusion with national security information. To avoid possible confusion, we have replaced the word “confidential” with the word “sensitive.” This revision should clarify that the proposed rule deals with business and management information, the value of which lies primarily in the fact that is not generally known to the public. The proposed rule does not implement or refer to the classification of information for national security purposes.

With regard to more general background information, NASA's essential procurement operations generate large amounts of “sensitive information,” both from offerors and contractors. Traditionally, NASA civil servants received, analyzed, and used this information to ensure that the Agency spent tax dollars in a responsible and consistent manner. The Trade Secrets Act and other statutes have for years imposed criminal liabilities on government employees who disclosed this type of information to unauthorized outside parties. Offerors and contractors have willingly provided sensitive information about their operations, costs, business practices, and other matters, knowing that NASA would not provide another contractor (“service provider”) access to this information without first ensuring that the parties had complied with FAR 9.505-4. As a condition to allowing a service provider access to another contractor's proprietary information, FAR 9.505-4 would require that the parties execute a satisfactory protection/use agreement. Central to this process were notice to the owner of the
