SUPPLEMENTARY INFORMATION: A notice was published in the **Federal Register**, March 11, 2005 (70 FR 12174), requesting comments on the possible revisions of the United States Standards for Grades of Persian (Tahiti) Limes. The proposed revisions would simplify the color and juice requirements of the standards which are complex and difficult to apply. Additionally, the Agricultural Marketing Service (AMS) is seeking comments regarding any other revisions that may be necessary to better serve the industry. The comment period ended May 10, 2005.

Three comments were received from industry associations representing Persian (Tahiti) lime handlers, expressing the need for additional time to comment on the possible revisions. The associations requested the comment period be extended to allow the associations an opportunity to meet further with their members to discuss the possible revisions.

After reviewing the request, AMS is reopening and extending the comment period in order to allow sufficient time for interested persons, including the association, to file comments.

United States Standards for Grades of Snap Beans

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; withdrawal.

SUMMARY: The Agricultural Marketing Service (AMS) is withdrawing the notice soliciting comments on its proposal to amend the voluntary United States Standards for Grades of Snap Beans. After reviewing and considering the comments received, the Agency has decided not to proceed with this action.

DATES: Effective Date: June 22, 2005.

David.Priester@usda.gov. The United States Standards for Grades of Snap Beans are available either through the address cited above or by accessing the Fresh Products Branch Web site at: <http://www.ams.usda.gov/standards/stanfrfv.htm>.

Background

At a 2003 meeting with the Fruit and Vegetable Industry Advisory Committee, AMS was asked to review all the fresh fruit and vegetable grade standards for their usefulness in serving the industry. AMS had identified the United States Standards for Grades of Snap Beans for a possible revision. The United States Standards for Grades of Snap Beans were last amended July 5, 1990.

On March 11, 2005, a notice requesting comments on the possible revision of the standards by allowing percentages to be determined by count and not weight as well as other changes was published in the **Federal Register** (70 FR 12175) with the comment period ending May 10, 2005.

Three comments were received during the official period for comment. One comment from an industry member

supported the proposed revision. Two comments from industry groups did not support revising the standard. Both of the comments not supporting the revision noted concerns over the accuracy or representative nature of a count-based inspection. The industry groups also noted that size variation of the individual bean as well as foreign material or debris in the sample could affect the inspection in a different manner if inspected on a count and not a weight basis. In view of the concerns from the industry, the proposed changes are not warranted at this time, thus the notice is being withdrawn. This withdrawal will provide industry representatives with an opportunity for further discussions in the areas of concern.

After reviewing and considering the comments received, the Agency has decided not to proceed with the action. Therefore, the notice published March 11, 2005, (70 FR 12172) is withdrawn.

Authority: 7 U.S.C. 1621-1627.

Dated: June 16, 2005.

SUPPLEMENTARY INFORMATION:

Purposed and Need for Action

Nine companies have applied to the Forest Service for ten year permits to outfit and guide on the Methow Valley, Chelan and/or Tonasket Ranger District of the Okanogan and Wenatchee National Forests. North Cascade Safari, Cascade Wilderness Outfitters, North Cascade Outfitters, Rocking Horse Ranch, and Backcountry Burros have operated under five-year term special use permits in the past, but these permits expired in 2000. The companies have been operating under short-term permits since then. Each of these companies have operated for at least 20 years on the Okanogan and Wenatchee National Forests. Deli-Llamas and Pasayten Llamas have operated under short-term permits since 1993. Sawtooth Outfitters has operated under short-term permits since 1993. Early Winters Outfitting's term permit expired in 2004.

In order for an outfitter-guide business to be successful, and justify financial commitments, such as purchasing and caring for stock animals, and hiring experienced guides, these businesses need multi-year permits. Multi-year permits are needed to respond to the applications, and continue the professional relationship that has been established with these companies to provide service to the public.

The Forest Service has identified a need for outfitting and guiding services on these Districts to access to the Wilderness and backcountry. The "Assessment for Need For Outfitting/ Guiding Assistance, Okanogan National Forest, Chelan Ranger District Portion of Wenatchee National Forest North of Lake Chelan" (the Needs Assessment) was completed by the Okanogan and Wenatchee National Forests in 1996. That document provides overall guidance relating to issuing permits.
