OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. WTO/DS-277]

WTO Dispute Settlement Proceeding Regarding Investigation of the International Trade Commission in Softwood Lumber From Canada

AGENCY: Office of the United States Trade Representative.

ACTION: Notice; request for comments.

SUMMARY: The Office of the United States Trade Representative (USTR) is providing notice that, at the request of Canada, the Dispute Settlement Body (DSB) of the World Trade Organization (WTO) has established a dispute settlement panel under the Marrakesh Agreement Establishing the WTO. The panel is to examine whether the United States has implemented the recommendations and rulings of the DSB in a dispute involving a U.S. International Trade Commission (ITC) injury investigation of certain softwood lumber products from Canada. On April 26, 2004, the DSB adopted the findings of the panel in that dispute, which found that "in light of the totality of the factors considered and the reasoning in the USITC's determination, [it could not] conclude that the finding of a likely imminent substantial increase in imports is one which could have been reached by an objective and unbiased investigating authority." In response to the DSB's recommendations and rulings, the ITC issued a new determination in November 2004, which found that "an industry in the United States is threatened with material injury by reason of imports of softwood lumber from Canada found to be subsidized and sold in the United States at less than fair value ('LTFV')." In December 2004, the U.S. antidumping and countervailing duty orders on softwood lumber from Canada were amended to reflect the new determination. Canada subsequently requested the establishment of a dispute settlement panel, alleging that the United States had failed to implement the DSB's recommendations and rulings. USTR invites written comments from the public concerning the issues raised in this dispute.

DATES: Although USTR will accept any comments received during the course of the dispute settlement proceedings, comments should be submitted on or before June 27, 2005, to be assured of timely consideration by USTR.

ADDRESSES: Comments should be submitted (i) electronically, to FR0062@ustr.gov, Attn: "Lumber Injury Dispute (DS277)" in the subject line, or

(ii) by fax, to Sandy McKinzy at 202-395-3640, with a confirmation copy sent electronically to the e-mail address above.

FOR FURTHER INFORMATION CONTACT: Theodore R. Posner, Associate General Counsel, Office of the United States Trade Representative, 600 17th Street, NW., Washington, DC 20508, (202) 395-3150.

SUPPLEMENTARY INFORMATION: Pursuant to the WTO Understanding on Rules and Procedures Governing the Settlement of Disputes (DSU), the panel, which will hold its meetings in Geneva, Switzerland, is expected to issue a report on its findings and recommendations in September 2005.

Prior WTO Proceedings

On April 26, 2004, the WTO DSB adopted the report of a dispute settlement panel in a dispute brought by Canada challenging the ITC's final threat of material injury determination in its investigation of softwood lumber imports from Canada. The panel rejected certain of Canada's claims but ultimately found that "in light of the totality of the factors considered and the reasoning in the USITC's determination, [it could not] conclude that the finding of a likely imminent substantial increase in imports is one which could have been reached by an objective and unbiased investigating authority." The dispute settlement panel report is publicly available in the USTR reading room and on the WTO Web site <http://www.wto.org>.

Article 21.5 Proceeding

Pursuant to the rules of the DSU, the United States and Canada agreed that the United States would have until January 26, 2005, to implement the recommendations and rulings of the DSB. To implement these recommendations and rulings, the ITC undertook a four-month process that involved reopening its administrative record in the *Softwood Lumber from Canada* investigation to gather additional information, holding a public hearing, providing interested parties three opportunities to submit written comments, and engaging in additional analysis. That process concluded with a new determination in November 2004, which found that "an industry in the United States is threatened with material injury by reason of imports of softwood lumber from Canada found to be subsidized and sold in the United States at less than fair value ('LTFV')." In December 2004, the U.S. antidumping and countervailing duty orders on softwood lumber from Canada

were amended to reflect the new determination. On February 14, 2005, Canada alleged that the United States had not properly implemented the recommendations and rulings and requested the establishment of a dispute settlement panel under Article 21.5 of the DSU to review this implementation. The panel was established on February 25, 2005.

In its request under Article 21.5, Canada alleges that the ITC failed to implement the recommendations and rulings of the DSB by (1) failing to make a determination of threat of material injury based on facts; (2) failing to demonstrate a causal relationship between allegedly dumped and subsidized imports of softwood lumber from Canada and threatened injury to the domestic industry; and (3) failing to examine in an unbiased and objective manner any and all known factors other than the allegedly dumped and subsidized imports that were injuring or threatening to injure the domestic industry.

The specific measures identified by Canada as inconsistent with U.S. WTO obligations under the AD Agreement and SCM Agreement are: (1) Section 129 Consistency Determination, Softwood Lumber from Canada, (24 Nov. 2004), Inv. Nos. 701-TA-414 and 731-TA-928; and (2) Notice of Amendment to Antidumping and Countervailing Duty Orders on Certain Softwood Lumber Products From Canada (20 Dec. 2004), 69 FR 75917 (Dep't. Commerce, December 20, 2004).

The European Communities and the People's Republic of China have indicated their interest to participate in the dispute as third parties.
