

collected. These disclosures may be made on a case-by-case basis or, if the Department has complied with the computer matching requirements of the Act, under a computer matching agreement. Any disclosure of individually identifiable information from a record in this system must also comply with the requirements of section 183 of the ESRA (20 U.S.C. 9573) providing for confidentiality standards that apply to all collections, reporting and publication of data by IES.

(1) *Freedom of Information Act (FOIA) Advice Disclosure.* The Department may disclose records to the U.S. Department of Justice and the Office of Management and Budget if the Department concludes that disclosure is desirable or necessary in determining whether particular records are required to be disclosed under the FOIA.

(2) *Contract Disclosure.* If the Department contracts with an entity for the purposes of performing any function that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees. Before entering into such a contract, the Department shall require the contractor to maintain Privacy Act safeguards as required under 5 U.S.C. 552a(m) with respect to the records in the system.

(3) *Research Disclosure.* The Department may disclose records to a researcher if an appropriate official of the Department determines that the individual or organization to which the disclosure would be made is qualified to carry out specific research related to functions or purposes of this system of records. The researcher shall be required to maintain Privacy Act safeguards with respect to the disclosed records.

**DISCLOSURE TO CONSUMER REPORTING AGENCIES:**

Not applicable to this system notice.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

The Department maintains records on CD-ROM, and the contractor and subcontractor maintain data for this system on computers and in hard copy.

**RETRIEVABILITY:**

Records in this system are indexed by a number assigned to each individual that is cross referenced by the individual's name on a separate list.

**SAFEGUARDS:**

All physical access to the Department's site and to the sites of the Department's contractor and subcontractor, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need to know" basis, and controls individual users' ability to access and alter records within the system. The contractor, MDRC, and its subcontractor, AIR, have established similar sets of procedures at their sites to ensure confidentiality of data. Their systems ensure that information identifying individuals is in files physically separated from other research data. They will maintain security of the complete set of all master data files and documentation. Access to individually identifiable data will be strictly controlled. At each site all data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include password-protected accounts that authorize users to use the MDRC or AIR system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; e-mail passwords that authorize the user to access mail services and additional security features that the network administrators establish for projects as needed. The contractor and subcontractor employees who "maintain" (collect, maintain, use, or disseminate) data in this system shall comply with the requirements of the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

**RETENTION AND DISPOSAL:**

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules, Part 3, Items 2b and 5a.

**SYSTEM MANAGER AND ADDRESS:**

Associate Commissioner, Evaluation Division, National Center for Education Evaluation and Regional Assistance, Institute of Education Sciences, U.S. Department of Education, 555 New Jersey Avenue, NW., room 502D, Washington, DC 20208.
