Description: The Migrant and Seasonal Agricultural Worker Protection Act (MSPA), 29 U.S.C. 1801 *et seq.*, section 201(c) requires any farm labor contractor, agricultural employer or agricultural association providing housing to any migrant agricultural worker to post in a conspicuous place, or present to the migrant worker, a statement of any housing occupancy terms and conditions. In addition, MSPA section 201(g) requires a farm labor contractor, agricultural employer or agricultural association providing housing to any migrant agricultural worker to give such information in English, or as necessary and reasonable, in a language common to the worker and that the Department of Labor (DOL) makes forms available to provide such information. The implementing regulations for the MSPA set forth, at 29 CFR 500.75(f) and (g), the housing terms that a farm labor contractor, agricultural employer or agricultural association providing housing to any migrant agricultural worker must post or give in a written statement to the worker. Regulation 29 CFR 500.1(i)(2) provides for Form WH-521 that a farm labor contractor, agricultural employer or agricultural association may use, at its option, to satisfy MSPA requirements. Form WH-521 is an optional form that a farm labor contractor, agricultural employer or agricultural association may post or present to a migrant agricultural worker to list the housing terms and conditions. While use of the Form WH-521 is optional, the MSPA requires disclosure of the information.

Century Moulding Company Hood River, OR; Notice of Revised Determination on Reconsideration

By letter dated June 10, 2005 a company official requested administrative reconsideration regarding the Department's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to the workers of the subject firm.

The initial investigation resulted in a negative determination signed on May 24, 2005, was based on the finding that imports of picture frames did not contribute importantly to worker separations at the subject plant and no shift of production to a foreign source occurred. The denial notice will soon be published in the **Federal Register**.

To support the request for reconsideration, the company official supplied additional information. Upon further review and contact with the subject firm's major customer, it was revealed that the customer significantly increased its import purchases of picture frames while decreasing its purchases from the subject firm during the relevant period. The imports accounted for a meaningful portion of the subject plant's lost sales and production. The investigation further revealed that production and employment at the subject firm declined during the relevant time period.

In accordance with section 246 the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor herein presents the results of its investigation regarding certification of eligibility to apply for alternative trade adjustment assistance (ATAA) for older workers.

In order for the Department to issue a certification of eligibility to apply for ATAA, the group eligibility requirements of Section 246 of the Trade Act must be met. The Department has determined in this case that the requirements of section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of
