

of ballot choices for verification purposes. Voter verified paper audit trails do not provide independent verification because the printer prints from the same data source that produces the DRE summary screen display.

- Appendix E contains the NASED Voting System Standards Board Technical Guide #1 on color and contrast adjustment for individuals with low vision or color blindness.

Volume II Summary: Volume II, the Voting System National Certification Testing Guidelines, is a complementary document to Volume I. Volume II provides an overview and specific detail of the national certification testing process, which is performed by independent voting system test labs accredited by the EAC. It is intended principally for use by vendors, test labs, and election officials who certify, procure, and accept voting systems. This volume contains the following sections:

- Section 1 presents an overview of the testing guidelines and the national certification testing process.

- Section 2 provides a description of the Technical Data Package that vendors are required to submit with their system for certification testing.

- Section 3 describes the basic functionality testing requirements.

- Sections 4 through 6 define the requirements for hardware, software and system integration testing.

- Section 7 describes the required examination of vendor quality assurance and configuration management practices.

- Appendix A provides the requirements for the National Certification Test Plan that is prepared by the voting system test lab and provided to the EAC for review.

- Appendix B describes the scope and content of the National Certification Test Report which is prepared by the test lab and delivered to the EAC along with a recommendation for certification.

- Appendix C describes the guiding principles used to design the voting system certification testing process. It also contains a revised section on testing system error rates.

The format of the Guidelines is intended to facilitate ease of identifying new information and comparison with the 2002 Voting Systems Standards. New material is indicated by a gray-shaded header with the words "NEW MATERIAL," and includes line numbers. Material essentially carried forward in its entirety from the 2002 Voting Systems Standards remains in its original format and does not include line numbers. Selected portions of this material have been revised to reflect the

EAC process for voting system certification, specifically Volume I, Section 1.6.1, and Volume II Section 1. Updates have been made throughout to include new terminology introduced by HAVA.

Comments: The Voluntary Voting System Guidelines is provided for comment by the public for the next 90 days. All comments must be received by EAC on or before 5 p.m. EDT on September 30, 2005. All comments will be posted on the EAC Web site. The EAC is provided several alternative methods for submitting comments.

- On-line electronic comment form at <http://www.eac.gov>.

- By e-mail to votingsystemguidelines@eac.gov.

- By mail to Voting System Guidelines Comments, U.S. Election Assistance Commission, 1225 New York Ave, NW., Suite 1100, Washington, DC 20005.

- By fax to Voting System Guidelines Comments at (202) 566-3127.

EAC requests that comments be provided according to the following specifications:

(1) Comments regarding a particular section should be designed by the page, line (if included) and section number to which the comment refers.

(2) Comments regarding a term that is included or that should be added to the glossary should reference the term and page number to which the comment refers.

(3) General comments regarding the entire document or comments that refer to more than one section should be made as specifically as possible so that EAC can clearly understand to which portion(s) of the documents the comment refers.

(4) To the extent that a comment suggests a change in the wording of a requirement or section of the Guidelines, please provide proposed language for the suggested change.

To obtain a copy of the voluntary voting system guidelines: Due to the fact that the Voluntary Voting System Guidelines is more than 250 pages in length, the entire documents has not been attached to this notice. A complete copy of the Voluntary Voting System Guidelines is available from EAC in electronic or hard copy format. [Docket No. QF05-99-000]

Apex Power, LLC; Notice of Amendment of Filing

June 20, 2005.

Take notice that on June 17, 2005, Apex Power, LLC (Apex Power), filed an amendment to its petition for certification as a qualifying cogeneration facility filed on April 29, 2005, in the above-referenced proceeding.

Any person desiring to intervene or to protest in the above proceeding must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies
