

2. With respect to the '930 patent, provide your claim construction of the phrase "path length," including an analysis of any intrinsic evidence upon which you rely.

3. With respect to the Lead Frame Patents, provide your claim construction of the phrase "starting from," including an analysis of any intrinsic and/or extrinsic evidence upon which you rely.

4. With respect to the Lead Frame Patents, given that the ALJ construed the term "lead frame" to exclude glue dots, can the glue dot at issue in the accused device be considered part of the alleged equivalent in assessing infringement under the doctrine of equivalents?

5. Assuming the answer to the previous question is "yes," are the three ground leads plus the glue dot at issue in the accused device equivalent to the claimed external connections, especially with respect to the limitation "starting from said chip carrier part run toward the outside in a stellate form?" (You should discuss the "function, way, result" test in your analysis.)

In connection with the final disposition of this investigation, the Commission may (1) issue an order that could result in the exclusion of the subject articles from entry into the United States, and/or (2) issue one or more cease and desist orders that could result in the respondent being required to cease and desist from engaging in unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in receiving written submissions that address the form of remedy, if any, that should be ordered. If a party seeks exclusion of an article from entry into the United States for purposes other than entry for consumption, the party should so indicate and provide information establishing that activities involving other types of entry either are adversely affecting it or likely to do so. For background, see *In the Matter of Certain Devices for Connecting Computers via Telephone Lines*, Inv. No. 337-TA-360, USITC Pub. No. 2843 (December 1994) (Commission Opinion).

If the Commission contemplates some form of remedy, it must consider the effects of that remedy upon the public interest. The factors the Commission will consider include the effect that an exclusion order and/or cease and desist orders would have on (1) the public health and welfare, (2) competitive conditions in the U.S. economy, (3) U.S. production of articles that are like or directly competitive with those that are subject to investigation, and (4) U.S. consumers. The Commission is

therefore interested in receiving written submissions that address the aforementioned public interest factors in the context of this investigation.

If the Commission orders some form of remedy, the President has 60 days to approve or disapprove the Commission's action. During this period, the subject articles would be entitled to enter the United States under bond, in an amount determined by the Commission and prescribed by the Secretary of the Treasury. The Commission is therefore interested in receiving submissions concerning the amount of the bond that should be imposed.

*Written Submissions:* The parties to the investigation are requested to file written submissions on the issues identified in this notice. The written submissions should be concise and should thoroughly reference the record. Parties to the investigation, interested government agencies, and any other interested parties are encouraged to file written submissions on the issues of remedy, the public interest, and bonding. Such submissions should address the May 10, 2005, recommended determination by the ALJ on remedy and bonding. Complainants and the Commission investigative attorney are also requested to submit proposed remedial orders for the Commission's consideration. Complainants are also requested to state the dates that the patents expire and the HTSUS numbers under which the accused products are imported. The written submissions and proposed remedial orders must be filed no later than close of business on July 8, 2005. Reply submissions must be filed no later than the close of business on July 15, 2005. No further submissions on these issues will be permitted unless otherwise ordered by the Commission.

Persons filing written submissions must file the original document and 12 true copies thereof on or before the deadlines stated above with the office of the Secretary. Any person desiring to submit a document to the Commission in confidence must request confidential treatment unless the information has already been granted such treatment during the proceedings. All such requests should be directed to the Secretary of the Commission and must include a full statement of the reasons why the Commission should grant such treatment. See 19 CFR 210.6. Documents for which confidential treatment by the Commission is sought will be treated accordingly. All nonconfidential written submissions will be available for public inspection at the Office of the Secretary.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in section 210.42-46 of the Commission's Rules of Practice and Procedure (19 CFR 210.42-46).

By order of the Commission.

Issued: June 24, 2005.
