

effective December 24, 2001 (66 FR 53728, October 24, 2001). We reserve the amendment of 40 CFR part 272, subpart P for the codification of Indiana's program changes until a later date.

K. Statutory and Executive Order Reviews

This proposed rule only authorizes hazardous waste requirements pursuant to RCRA 3006 and imposes requirements other than those imposed by State law (see **SUPPLEMENTARY INFORMATION**, Section A. Why are Revisions to State Programs Necessary?). Therefore this rule complies with applicable executive orders and statutory provisions as follows:

1. Executive Order 12866: Regulatory Planning Review

The Office of Management and Budget has exempted this rule from its review under Executive Order 12866 (58 FR 51735, October 4, 1993).

2. Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

3. Regulatory Flexibility Act

After considering the economic impacts of today's rule on small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), I certify that this rule will not have a significant economic impact on a substantial number of small entities.

4. Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

5. Executive Order 13132: Federalism

Executive Order 13132 (64 FR 43255, August 10, 1999) does not apply to this rule because it will not have federalism implications (*i.e.*, substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government).

6. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

Executive Order 13175 (65 FR 67249, November 9, 2000) does not apply to

this rule because it will not have tribal implications (*i.e.*, substantial direct effects on one or more Indian Tribes, or on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.)

7. Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

This rule is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it is not based on environmental health or safety risks.

8. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

This rule is not subject to Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not a significant regulatory action as defined in Executive Order 12866.

9. National Technology Transfer Advancement Act

EPA approves State programs as long as they meet criteria required by RCRA, so it would be inconsistent with applicable law for EPA, in its review of a State program, to require the use of any particular voluntary consensus standard in place of another standard that meets requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply to this rule.

10. Executive Order 12988

As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct.

11. Executive Order 12630: Evaluation of Risk and Avoidance of Unanticipated Takings

EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings issued under the executive order.

12. Congressional Review Act

EPA will submit a report containing this rule and other information required by the Congressional Review Act (5 U.S.C. 801 *et seq.*) To the U.S. Senate,

the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Initial Paperwork Reduction Act of 1995 Analysis

This document contains modified information collection requirements. The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public to comment on the information collection requirements contained in this *NPRM* as required by the Paperwork Reduction Act of 1995, Public Law 104-13. Public and agency comments are due August 29, 2005. Comments should address: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. In addition, pursuant to the Small Business Paperwork Relief Act of 2002, Pub. Law 107-198, *see* 44 U.S.C. 3506(c)(4), we seek specific comment on how we might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

Title: Application for Consent to Assignment of Broadcast Station Construction Permit or License; Application for Consent to Transfer Control of Entity Holding Broadcast Station Construction Permit or License; § 73.3580, Local Public Notice of Filing of Broadcast Applications.

Form Number: FCC Form 314 and FCC Form 315.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 4,510.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Estimated Time Per Response: 1 hour to 6 hours.

Total Annual Burden: 15,890 hours.

Total Annual Costs: \$33,349,150.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On January 10, 2005, the Commission adopted a *Notice of Proposed Rulemaking (NPRM)*. In the Matter of the Revision of the Public Notice Requirements of § 73.3580, MB Docket No. 05-6, FCC 05-10. The *NPRM* proposes to revise 47 CFR 73.3580(c) to

add the requirement for newspaper publication to non-commercial educational (NCE) stations and stations that are the only operating station in their broadcast service in their community of license. Currently, these stations are exempt from this requirement.

The *NPRM* also proposes to revise the § 73.3580(d) requirement that an applicant give notice of the filing of a application for renewal of the station's license or permit in a newspaper as described in 47 CFR 73.3580(c). The *NPRM* proposes that the notice must now appear in a specific text as described in the proposed revision of 47 CFR 73.3580(d)(3)(i).

Synopsis of the Notice of Propose Rule Making

1. This *NPRM* requests comment on whether we should modify the notice that radio and television station buyers and sellers are required to provide to the public in connection with proposed assignments and transfers of control.

2. This *NPRM* also seeks comment on whether to eliminate the newspaper publication exemption for non-commercial educational ("NCE") stations and stations that are the only operating station in their broadcast service in their community of license.

Initial Regulatory Flexibility Analysis

3. Compliance requirements will naturally vary depending on the Commission's final decision in this proceeding. If the Commission decides at the final rules stage of this proceeding to modify the public notice regulations as proposed, applicants for consent to assignment of a construction permit or license for an AM, FM, or TV station or for consent to transfer control of an entity holding a construction permit or license for an AM, FM, or TV station would have to broadcast and publish public notice using the template proposed for inclusion in § 73.3580(d) of the Commission's rules (found in paragraph 5 of the *NPRM*). Additionally, if the Commission ultimately eliminates the current § 73.3580(e) exemption from the public notice requirements offered to noncommercial educational stations and stations that are the only operating station in their broadcast service in their community of license, applicants in these categories who file for assignment or transfer of a broadcast license would need to publish local notice of action in a newspaper of general circulation in the community to which the station is licensed. The Commission seeks comment on these proposals and their impact on small entities and on other ways to enhance the transparency of,

and public participation in, the sales application review and licensing process.

Filing of Comments and Reply Comments

5. Pursuant to applicable procedures set forth in §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415 and 1.419, interested parties may file comments August 1, 2005, and reply comments August 15, 2005. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. See Electronic Filing of Documents in Rulemaking Proceedings, 63 FR 24121 (1998).

6. Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/e-file/ecfs.html>. Generally, only one copy of an electronic submission must be filed. If multiple docket or rulemaking numbers appear in the caption of this proceeding, however, commenters must transmit one electronic copy of the comments to each docket or rulemaking number referenced in the caption. In completing the transmittal screen, commenters should include their full name, U.S. Postal Service mailing address, and the applicable docket or rulemaking number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, commenters should send an e-mail to ecfs@fcc.gov, and should include the following words in the body of the message, "get form <your e-mail address>." A sample form and directions will be sent in reply.

7. Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, commenters must submit two additional copies for each additional docket or rulemaking number.

Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments August 1, 2005, and reply comments August 15, 2005. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. See Electronic Filing of Documents in Rulemaking Proceedings, 63 FR 24121 (1998).

Parties should submit diskettes to Stephen Svab, Media Bureau, 445 12th Street SW., Room 2-B418, Washington, DC 20554. Such a submission should be on a 3.5-inch diskette formatted in an IBM compatible form using MS DOS 5.0 and Microsoft Word, or compatible software. The diskette should be accompanied by a cover letter and should be submitted in "read only" mode. The diskette should be clearly labeled with the party's name, proceeding (including the lead docket number in this case (MB Docket No. 05-6), type of pleading (comments or reply comments), date of submission, and the name of the electronic file on the diskette. The label should also include the following phrase "Disk Copy—Not an Original." Each diskette should contain only one party's pleadings, referable in a single electronic file. In addition, commenters must send diskette copies to the Commission's copy contractor, Best Copy and Printing, Inc., Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554.

RIN 2127-AI66

Federal Motor Vehicle Safety Standards; Child Restraint Systems

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: Federal Motor Vehicle Safety Standard (FMVSS) No. 213, "Child restraint systems," requires that the webbing of child restraints must not lose more than a specified percentage of its original breaking strength as a result of being exposed to certain adverse conditions. The standard currently does not specify a minimum breaking strength for the unexposed webbing. This document proposes such a minimum, as well as a minimum breaking strength requirement for the exposed webbing. It also makes clearer in the text of FMVSS No. 213 that the heavier of two weights specified in the standard is used to abrade the webbing used to attach child restraint systems to the child restraint anchorages located in a vehicle.

SUPPLEMENTARY INFORMATION:

Introduction

FMVSS No. 213 regulates child restraint systems used in motor vehicles and aircraft (49 CFR 571.213). This NPRM concerns the standard's strength requirements for belt webbing, set forth in S5.4.1 of FMVSS No. 213. Among other things, that section states that the webbing of belts provided with a child restraint system and used to attach the system to the vehicle, or to restrain the child within the system, shall meet certain strength requirements after being subjected to abrasion (S5.4.1(a)), light exposure (S5.4.1(b)), and micro-organisms (S5.4.1(b)).¹

Each of these strength requirements is expressed in the form of a percentage of

¹ S5.4.1(a) and (b) reference FMVSS No. 209, 49 CFR 571.209, "Seat belt assemblies," which specifies requirements for seat belt assemblies.
