[Docket No. CP05-364-000]

#### **ANR Pipeline Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Wisconsin 2006 Expansion Project and Request for Comments on Environmental Issues**

June 22, 2005.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Wisconsin 2006 Expansion Project involving construction and operation of facilities by ANR Pipeline Company (ANR) in Rock, Outagamie, Marinette, Dane, Marathon, and Columbia Counties, Wisconsin.<sup>1</sup> ANR's project purpose is to create about 168,241 decatherms per day of incremental firm capacity on its pipeline system to accommodate growth in demand from all market segments in Wisconsin. In general these facilities would consist of about 6.86 miles of various diameter pipeline, addition of compression at 2 compressor stations, and minor upgrades at 5 existing meter stations. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice ANR provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's

<sup>1</sup> ANR's application was filed with the Commission under section 7 of the Natural Gas Act and part 157 of the Commission's regulations.
