Needs and Use: Consumers file FCC Form 475 to register their complaints about common carrier services and practices. By providing a concise, standardized format, the form helps consumers to provide the Commission with the necessary and relevant information it needs to assess the practices of common carriers and to resolve any informal complaints filed by consumers. FCC Form 475 is also important in the investigative work performed by Federal and State law enforcement agencies to monitor common carrier practices and to promote compliance with Federal and State regulations and other legal requirements, *i.e.*, in some instances, data on FCC Form 475 may become the basis for enforcement actions and/or rulemaking proceedings, as appropriate.

The Commission is developing a new form, FCC Form 475-B, Obscene, Profane, and Indecent Material Complaint Form, to provide consumers with a standardized form, designed specifically to collect detailed data about obscene, profane, and indecent programming. The Commission believes that providing a form specifically for these purposes will allow consumers to register their complaints about the nature of the aired material(s) more clearly and concisely, thereby reducing the uncertainty, confusion, frustration, and apprehension that consumers may otherwise experience when trying to express their objections to programming. The Commission also believes that such a standardized format as FCC Form 475-B can strengthen the effectiveness of its rules and improve its efforts to move forward quickly with enforcement actions to resolve these programming complaints, thus ridding the public airways of obscene, profane, and indecent content and programming.

Form 475-B will include these fields: (1) Complainant's contact information—name, address, e-mail address, and telephone number; (2) name of the station broadcasting the alleged obscene, profane, and/or indecent material, including the call sign, channel, and frequency; (3) name of the program or song, including host or personality/DJ; (4) broadcast time, the

time zone, and the date of the broadcast; and (5) description of the incident—providing sufficient details about the specific words, languages, and images, to help the Commission determine whether the material was in fact obscene, profane, or indecent. The Commission may use the data as the basis for an enforcement action and/or rulemaking proceeding(s), as appropriate.
