

Procurement List for production by the nonprofit agencies listed:

Products

Bag, Urine Collection

NSN: 6530-00-NSH-0029—Medium, enhanced bag, no options

NSN: 6530-00-NSH-0028—Large, enhanced bag, no options

NSN: 6530-00-NSH-0031—Large, w/ inlet extension option

NSN: 6530-00-NSH-0037—Medium, w/moleskin option

NSN: 6530-00-NSH-0033—Large, w/ moleskin & inlet extension

NSN: 6530-00-NSH-0030—Large, w/ moleskin backing option

NSN: 6530-00-NSH-0035—Large, w/ inlet & drain extension

NSN: 6530-00-NSH-0032—Large, w/ drain extension

NSN: 6530-00-NSH-0039—Medium, w/drain extension

NSN: 6530-00-NSH-0038—Medium, w/inlet extension

NSN: 6530-00-NSH-0034—Large, w/ moleskin & drain extension

NSN: 6530-00-NSH-0040—Medium, w/moleskin & inlet extension

NSN: 6530-00-NSH-0041—Medium, w/moleskin & drain extension

NSN: 6530-00-NSH-0042—Medium, w/inlet & drain extension

NSN: 6530-00-NSH-0043—Medium, w/inlet, drain extension & moleskin

NSN: 6530-00-NSH-0036—Large, w/ inlet, drain extension & moleskin

NPA: Work, Incorporated, North Quincy, Massachusetts

Contracting Activity: Veterans Affairs National Acquisition Center, Hines, Illinois

Paper, Xerographic

NSN: 7530-01-503-8441—8½" x 11" (For Stockton California Depot Only)

NSN: 7530-01-503-8453—11" x 17"

NSN: 7530-01-503-8449—8½" x 14"

NSN: 7530-01-503-8445—8½" x 11", 3-hole punched

NPA: Louisiana Association for the Blind, Shreveport, Louisiana

Contracting Activity: Office Supplies & Paper Products Acquisition Center, New York, NY

Services

Service Type/Location: Custodial Services, U.S. Post Office—Brooklyn, 271 Cadman Plaza East, Brooklyn, New York

NPA: NYSARC, Inc., NYC Chapter, New York, New York

Contracting Activity: GSA, Property Management Center, New York, New York.

Service Type/Location: Warehouse Operation, (At the following

locations at Fort Hood, Texas): 89th Quartermaster Co Class III, II & 14, 289th Supply Support Activity Map Depot, 13th COSCOM, 289th Supply Support Activity Weapons Warehouse, 13th COSCOM, 602nd Supply Support Activity, 13th COSCOM, 62nd Supply Support Activity Main, Yard 26th III Corp Major End Items Class VII, Fort Hood, Texas

NPA: Professional Contract Services, Inc., Austin, Texas

Contracting Activity: III Corps and Fort Hood Contracting Command, Fort Hood, Texas

Deletions

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action may result in additional reporting, recordkeeping or other compliance requirements for small entities.

2. If approved, the action may result in authorizing small entities to furnish the services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the services proposed for deletion from the Procurement List.

End of Certification

The following services are proposed for deletion from the Procurement List:

Services

Service Type/Location: Janitorial/Custodial, Eastman Lake, Madera County, California

NPA: None currently authorized.

Contracting Activity: Department of the Army.

Service Type/Location: Janitorial/Custodial, Lake Mead National Recreation Area, Boulder City, Nevada

NPA: Opportunity Village Association for Retarded Citizens, Las Vegas, Nevada

Contracting Activity: Department of Interior, Reston, Virginia

Service Type/Location: Painting Service, Family Quarters, Fort Sam Houston, Texas

NPA: Goodwill Industries of San Antonio, San Antonio, Texas

Contracting Activity: Department of the Army.

Sheryl D. Kennerly,

Director, Information Management.

BILLING CODE 6353-01-P

DEPARTMENT OF COMMERCE

International Trade Administration

[A–122–840]

Notice of Final Results of Antidumping Duty Changed Circumstances Review: Carbon and Certain Alloy Steel Wire Rod from Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has determined that Mittal Canada Inc. (Mittal) is the successor-in-interest to Ispat Sidebec Inc. (Ispat) and, as a result, should be accorded the same treatment previously accorded to Ispat in regard to the antidumping order on steel wire rod from Canada as of the date of publication of this notice in the **Federal Register**.

EFFECTIVE DATE: July 8, 2005.

FOR FURTHER INFORMATION CONTACT:

Daniel O'Brien or Ashleigh Batton, at (202) 482–1376 or (202) 482–6309, respectively; AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On January 14, 2005, Mittal requested that the Department determine that it had become the successor-in-interest of Ispat, pursuant to section 751(b) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.216 and 351.221(c)(3). On March 9, 2005, the Department initiated this administrative review. See *Notice of Initiation of Changed Circumstances Antidumping Duty Administrative Review: Carbon and Certain Alloy Steel Wire Rod from Canada*, 70 FR 11612 (*Initiation Notice*). On March 25, 2005, the Department issued Ispat/Mittal a questionnaire requesting further details on Mittal's successor-in-interest claims. The company's response was received by the Department on April 1, 2005.

On May 3, 2005, the Department published the preliminary results of this changed circumstances review and

preliminarily determined that Mittal is the successor-in-interest to Ispat and should receive Ispat's cash deposit rate of 3.86 percent. *See Preliminary Results of Changed Circumstances*

Antidumping Duty Administrative Review: Carbon and Certain Alloy Steel Wire Rod from Canada, 70 FR 22845 (May 3, 2005) (*Preliminary Results*). In the *Preliminary Results*, we stated that interested parties could request a hearing or submit case briefs and/or written comments to the Department no later than 30 days after publication of the *Preliminary Results* notice in the **Federal Register**, and submit rebuttal briefs, limited to the issues raised in the case briefs, seven days subsequent to the due date of the case briefs. We did not receive any hearing requests or comments on the *Preliminary Results*.

Scope of the Order

The merchandise subject to this order is certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, 5.00 mm or more, but less than 19.00 mm, in solid cross-sectional diameter.

Specifically excluded are steel products possessing the above-noted physical characteristics and meeting the HTSUS definitions for (a) Stainless steel; (b) tool steel; (c) high nickel steel; (d) ball bearing steel; and (e) concrete reinforcing bars and rods. Also excluded are (f) free machining steel products (*i.e.*, products that contain by weight one or more of the following elements: 0.03 percent or more of lead, 0.05 percent or more of bismuth, 0.08 percent or more of sulfur, more than 0.04 percent of phosphorus, more than 0.05 percent of selenium, or more than 0.01 percent of tellurium).

Also excluded from the scope are 1080 grade tire cord quality wire rod and 1080 grade tire bead quality wire rod. This grade 1080 tire cord quality rod is defined as: (i) Grade 1080 tire cord quality wire rod measuring 5.0 mm or more but not more than 6.0 mm in cross-sectional diameter; (ii) with an average partial decarburization of no more than 70 microns in depth (maximum individual 200 microns); (iii) having no non-deformable inclusions greater than 20 microns and no deformable inclusions greater than 35 microns; (iv) having a carbon segregation per heat average of 3.0 or better using European Method NFA 04-114; (v) having a surface quality with no surface defects of a length greater than 0.15 mm; (vi) capable of being drawn to a diameter of 0.30 mm or less with 3 or fewer breaks per ton, and (vii) containing by weight the following elements in the proportions shown: (1)

0.78 percent or more of carbon, (2) less than 0.01 percent of aluminum, (3) 0.040 percent or less, in the aggregate, of phosphorus and sulfur, (4) 0.006 percent or less of nitrogen, and (5) not more than 0.15 percent, in the aggregate, of copper, nickel and chromium.

This grade 1080 tire bead quality rod is defined as: (i) Grade 1080 tire bead quality wire rod measuring 5.5 mm or more but not more than 7.0 mm in cross-sectional diameter; (ii) with an average partial decarburization of no more than 70 microns in depth (maximum individual 200 microns); (iii) having no non-deformable inclusions greater than 20 microns and no deformable inclusions greater than 35 microns; (iv) having a carbon segregation per heat average of 3.0 or better using European Method NFA 04-114; (v) having a surface quality with no surface defects of a length greater than 0.2 mm; (vi) capable of being drawn to a diameter of 0.78 mm or larger with 0.5 or fewer breaks per ton; and (vii) containing by weight the following elements in the proportions shown: (1) 0.78 percent or more of carbon, (2) less than 0.01 percent of soluble aluminum, (3) 0.040 percent or less, in the aggregate, of phosphorus and sulfur, (4) 0.008 percent or less of nitrogen, and (5) either not more than 0.15 percent, in the aggregate, of copper, nickel and chromium (if chromium is not specified), or not more than 0.10 percent in the aggregate of copper and nickel and a chromium content of 0.24 to 0.30 percent (if chromium is specified).

For purposes of the grade 1080 tire cord quality wire rod and the grade 1080 tire bead quality wire rod, an inclusion will be considered to be deformable if its ratio of length (measured along the axis - that is, the direction of rolling - of the rod) over thickness (measured on the same inclusion in a direction perpendicular to the axis of the rod) is equal to or greater than three. The size of an inclusion for purposes of the 20 microns and 35 microns limitations is the measurement of the largest dimension observed on a longitudinal section measured in a direction perpendicular to the axis of the rod. This measurement methodology applies only to inclusions on certain grade 1080 tire cord quality wire rod and certain grade 1080 tire bead quality wire rod that are entered, or withdrawn from warehouse, for consumption on or after July 24, 2003.

The designation of the products as "tire cord quality" or "tire bead quality" indicates the acceptability of the product for use in the production of tire cord, tire bead, or wire for use in other rubber reinforcement applications such

as hose wire. These quality designations are presumed to indicate that these products are being used in tire cord, tire bead, and other rubber reinforcement applications, and such merchandise intended for the tire cord, tire bead, or other rubber reinforcement applications is not included in the scope. However, should petitioners or other interested parties provide a reasonable basis to believe or suspect that there exists a pattern of importation of such products for other than those applications, end-use certification for the importation of such products may be required. Under such circumstances, only the importers of record would normally be required to certify the end use of the imported merchandise.

All products meeting the physical description of subject merchandise that are not specifically excluded are included in this scope.

The products under the order are currently classifiable under subheadings 7213.91.3010, 7213.91.3090, 7213.91.4510, 7213.91.4590, 7213.91.6010, 7213.91.6090, 7213.99.0031, 7213.99.0038, 7213.99.0090, 7227.20.0010, 7227.20.0020, 7227.20.0090, 7227.20.0095, 7227.90.6051, 7227.90.6053, 7227.90.6058, and 7227.90.6059 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the order is dispositive.

Final Results of Changed Circumstances Review

Based on the information provided by Mittal, and the fact that the Department did not receive any comments during the comment period following the preliminary results of this review, the Department hereby determines Mittal is the successor-in-interest to Ispat for antidumping duty cash deposit purposes.

Instructions to the U.S. Customs and Border Protection

The Department will instruct U.S. Customs and Border Protection (CBP) to suspend liquidation of all shipments of the subject merchandise produced and exported by Mittal entered, or withdrawn from warehouse, for consumption, on or after the publication date of this notice at 3.86 percent (*i.e.* Ispat's cash deposit rate). This deposit rate shall remain in effect until publication of the final results of the ongoing administrative review, in which Mittal/Ispat is participating.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their

responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is in accordance with sections 751(b) and 777(i)(1) of the Act, and section 351.216(e) of the Department's regulations.

Dated: June 24, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Certain Carbon Steel Butt-Weld Pipe Fittings from Brazil, Taiwan, Japan, Thailand, and the People's Republic of China; Final Results of the Expedited Sunset Reviews of the Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 1, 2004, the Department of Commerce ("the Department") initiated sunset reviews of the antidumping duty orders on certain carbon steel butt-weld pipe fittings ("pipe fittings") from Brazil, Taiwan, Japan, Thailand, and the People's Republic of China pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate and adequate substantive responses filed on behalf of domestic interested parties and inadequate response from respondent interested parties, the Department conducted expedited (120-day) sunset reviews. As a result of these sunset reviews, the Department finds that revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping. The dumping margins are identified in the *Final Results of Review* section of this notice.

EFFECTIVE DATE: July 8, 2005.

FOR FURTHER INFORMATION CONTACT:

Hilary E. Sadler, Esq., Office of Policy for Import Administration, International

Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4340.

SUPPLEMENTARY INFORMATION:

Background:

On December 1, 2004, the Department published the notice of initiation of the second sunset reviews of the antidumping duty orders on pipe fittings from Brazil, Taiwan, Japan, Thailand, and the People's Republic of China pursuant to section 751(c) of the Act. *See Initiation of Five-Year ("Sunset") Reviews*, 69 FR 69891 (December 1, 2004). The Department received the Notice of Intent to Participate from Trinity Industries, Inc.¹ ("Trinity"); Weldbend Corp. ("Weldbend"); Tubing Forgings of America, Inc.; and Mills Iron Works, Inc. ("TFA/Mills Iron") (collectively "the domestic interested parties"), within the deadline specified in section 351.218(d)(1)(i) of the Department's Regulations ("Sunset Regulations"). The domestic interested parties claimed interested party status under section 771(9)(C) of the Act, as manufacturers of a domestic-like product in the United States. We received complete substantive responses from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no responses from the respondent interested parties. As a result, pursuant to section 751(c)(5)(A) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted an expedited (120-day) sunset review of this order.

Scope of the Orders:

The products covered by these orders are pipe fittings from Brazil, Taiwan, Japan, Thailand, and China. Pipe fittings from Brazil, Taiwan, and Japan are defined as carbon steel butt-weld pipe fittings, other than couplings, under 14 inches in diameter, whether finished or unfinished form, that have been formed in the shape of elbows, tees, reducer, caps, etc., and, if forged, have been advanced after forging. These advancements may include any one or more of the following: coining, heat treatment, shot blasting, grinding, die stamping or painting. Such merchandise was classifiable under Tariff Schedules of the United States Annotated

¹ Ladish Co., Inc. was a petitioner in the investigation. Trinity acquired the assets of Ladish relating to the production of carbon steel butt-weld pipe fittings in 1997. See Notice of Intent to Participate from Trinity Industries (December 17, 2004).

("TSUSA") item number 610.8800. These imports are currently classifiable under the Harmonized Tariff Schedule of the United States ("HTSUS") item number 7307.93.30.

Pipe fittings from Thailand and China are defined as carbon steel butt-weld pipe fittings, having an inside diameter of less than 14 inches, imported in either finished or unfinished form. These formed or forged pipe fittings are used to join section in piping systems where conditions require permanent, welded connections, as distinguished from fittings based on other fastening methods (e.g., threaded grooved, or bolted fittings). These imports are currently classifiable under the HTSUS item number 7307.93.30.

The TSUSA and HTSUS subheadings are provided for convenience and customs purposes. The written description remains dispositive as to the scope of the product coverage for each of the orders.

Analysis of Comments Received

All issues raised in these reviews are addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Edward Yang, Senior Director, China/NME Office, Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated June 29, 2005, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the orders were to be revoked. Parties can find a complete discussion of all issues raised in these reviews and the corresponding recommendations in this public memorandum which is on file in room B-099 of the main Commerce Building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "July 2005." The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Reviews

We determine that revocation of the antidumping duty orders on pipe fittings from Brazil, Taiwan, Japan, Thailand, and the People's Republic of China would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:
