**SUMMARY:** Under Section 10(a)(2) of Public Law 92-423, The Federal Advisory Committee Act, notice is hereby given for a meeting of a subgroup of the National Drinking Water Advisory Council (NDWAC or Council). This Council was authorized by the Safe Drinking Water Act in 1974 (42 U.S.C. 300f *et seq.*) to support the Environmental Protection Agency in performing its responsibilities related to the national drinking water program. In June 2005, the Council established a subgroup to develop recommendations for EPA to move drinking water program measures from outputs to outcomes in three steps. Step 1 will be to recommend changes to the current performance measures that move them toward outcomes. Step 2 will be to recommend new performance measures that can capture some public health outcomes and be included in EPA's next strategic plan. Step 3 will be to identify future performance measures that need additional development. The subgroup will report to the NDWAC by mid-September 2005.

**DATES:** The face-to-face meeting of the subgroup will be held on Thursday, July 21, 2005, from 8:30 to 5 p.m., and Friday, July 22, 2005, 8:30 a.m. to noon, eastern daylight time.

**Request for Public Comment on Proposed Settlement Agreement Involving Pesticides and the Endangered Species Act****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of availability; request for public comments

**SUMMARY:** EPA is making available for comment a proposed Settlement Agreement that would establish a series of deadlines for the Agency to make "effects determinations" on pesticides containing any of six active ingredients to determine their potential effects on the Barton Springs Salamander, *Eurycea sosorum*, or its designated critical habitat. If the Agency determines a pesticide "may affect and is likely to adversely affect" the listed species, the Agency will initiate formal consultation with the U.S. Fish and Wildlife Service (FWS). EPA will evaluate all comments received during the public comment period to determine whether all or part of the proposed Settlement Agreement warrants reconsideration. This proposed Settlement Agreement, if entered by the Court, would resolve a lawsuit brought against EPA by the Center for Biological Diversity and the Save Our Springs Alliance (jointly, plaintiffs).

**DATES:** Comments must be received on or before July 27, 2005.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number OPP-2005-0191, by one of the following methods:
