[CGD05-05-073]

RIN 1625-AA08

**Special Local Regulations for Marine Events; Manasquan River, Manasquan Inlet and Atlantic Ocean, Point Pleasant Beach to Bay Head, NJ**

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing temporary special local regulations for the "Point Pleasant OPA/NJ Offshore Grand Prix", a marine event to be held on the waters of the

Manasquan River, Manasquan Inlet and Atlantic Ocean between Point Pleasant Beach and Bay Head, New Jersey. These special local regulations are necessary to provide for the safety of life on navigable waters during the event. This action is intended to restrict vessel traffic in the regulated area during the event.

DATES: This rule is effective from 9:30 a.m. on August 12, 2005 to 3:30 p.m. on August 13, 2005.

ADDRESSES: Documents indicated in this preamble as being available in the docket, are part of docket CGD05-05-073 and are available for inspection or copying at Commander (oax), Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23704-5004, between 9 a.m. and 2 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:**

Chief Petty Officer George Kirk, Marine Events Coordinator, Commander, Coast Guard Sector Delaware Bay, at (609) 677-2215.

**SUPPLEMENTARY INFORMATION:****Regulatory Information**

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B) the Coast Guard finds that good cause exists for not publishing an NPRM. Publishing an NPRM would be contrary to public interest. The event will begin on August 12, 2005. Because of the danger posed by high-speed powerboats racing in a closed circuit, special local regulations are necessary to provide for the safety of event participants, spectator craft and other vessels transiting the event area. For the safety concerns noted, it is in the public interest to have these regulations in effect during the event.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date would be contrary to the public interest, since immediate action is needed to ensure the safety of the event participants, spectator craft and other vessels transiting the regulated area. However, advance notifications will be made to affected users of the river via marine information broadcasts and area newspapers.

**Background and Purpose**

On August 12, 2005, the Offshore Performance Association and the New Jersey Offshore Racing Association will sponsor the "Point Pleasant OPA/NJ Offshore Grand Prix". The event will consist of approximately 40 offshore powerboats racing in heats counter-clockwise around an oval racecourse on the waters of the Atlantic Ocean. A fleet of spectator vessels is expected to gather in the Atlantic Ocean near the event site to view the competition. To provide for the safety of participants, spectators and other transiting vessels, the Coast Guard will temporarily restrict vessel traffic in the event area during the races.

**Discussion of Rule**

The Coast Guard is establishing temporary special local regulations on specified waters of the Manasquan River, Manasquan Inlet and the Atlantic Ocean. The temporary special local regulations will be enforced from 9:30 a.m. until 3:30 p.m. on August 12, 2005. If the races are postponed due to weather, then the temporary special local regulations will be enforced during the same time period the next day. The

effect of the temporary special local regulations will be to restrict general navigation in the regulated area during the races. Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area. Non-participating vessels will be allowed to transit the regulated area between races, when the Coast Guard Patrol Commander determines it is safe to do so. These regulations are needed to control vessel traffic during the event to enhance the safety of participants, spectators and transiting vessels.

**Regulatory Evaluation**

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS).

We expect the economic impact of this temporary final rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary.

Although this regulation prevents traffic from transiting a portion of the Manasquan River, Manasquan Inlet and the Atlantic Ocean during the event, the effect of this regulation will not be significant due to the limited duration that the regulated area will be in effect and the extensive advance notifications that will be made to the maritime community via marine information broadcasts and area newspapers so mariners can adjust their plans accordingly.

**Small Entities**

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit the

Manasquan River, Manasquan Inlet or Atlantic Ocean during the event.

This rule will not have a significant economic impact on a substantial number of small entities for the following reasons. This rule will be in effect for only a short period. The Patrol Commander will allow non-participating vessels to transit the event area between races. Before the enforcement period, we will issue maritime advisories so mariners can adjust their plans accordingly.

**Assistance for Small Entities**

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the address listed under **ADDRESSES**.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247).

**Collection of Information**

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

**Federalism**

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

**Unfunded Mandates Reform Act**

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the

aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

#### Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

#### Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

#### Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and will not create an environmental risk to health or risk to safety that may disproportionately affect children.

#### Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial and direct effect on one or more Indian tribes, on the relationship between the Federal Governments and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

#### Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

#### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their

regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

#### Environment

We have analyzed this rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(h), of the Instruction, from further environmental documentation. Special local regulations issued in conjunction with a regatta or marine parade permit are specifically excluded from further analysis and documentation under those sections. Under figure 2–1, paragraph (34)(h), of the Instruction, an "Environmental Analysis Check List" and a "Categorical Exclusion Determination" are not required for this rule.

#### List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 100 as follows:

#### PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

■ 1. The authority citation for part 100 continues to read as follows:

**Authority:** 33 U.S.C. 1233, Department of Homeland Security Delegation No. 0170.1.

■ 2. Add a temporary § 100.35–T05–073 to read as follows:

#### § 100.35–T05–073 Manasquan River, Manasquan Inlet and Atlantic Ocean, Point Pleasant Beach to Bay Head, NJ.

(a) *Regulated area.* The regulated area is established for the waters of the Manasquan River from the New York

and Long Branch Railroad to Manasquan Inlet, together with all waters of the Atlantic Ocean bounded by a line drawn from the end of the South Manasquan Inlet Jetty, easterly to Manasquan Inlet Lighted Buoy "2M", then southerly to a position at latitude 40°04'26" N, longitude 074°01' 30" W, thence westerly to the shoreline. All coordinates reference Datum NAD 1983.

(b) *Definitions.* (1) *Coast Guard Patrol Commander* means a commissioned, warrant, or petty officer of the Coast Guard who has been designated by the Commander, Coast Guard Sector Delaware Bay.

(2) *Official Patrol* means any vessel assigned or approved by Commander, Coast Guard Sector Delaware Bay with a commissioned, warrant, or petty officer on board and displaying a Coast Guard ensign.

(3) *Sponsor* means an officer or agent of Offshore Performance Association, P.O. Box H385, Brick, NJ 08723.

(c) *Special local regulations:* (1) No person or vessel may enter or remain in the regulated area unless participating in the event or authorized by the Official Patrol. The Patrol Commander may intermittently authorize general navigation to pass through the regulated area. Notice of these opportunities will be given via marine safety radio broadcast on VHF–FM marine band radio, channel 22 (157.1 MHz).

(2) All persons or vessels not registered with the sponsor as participants or not part of the Official Patrol are considered spectators.

(3) The spectator fleet shall be held in a spectator anchorage area north of the regulated area, which shall be marked by sponsor provided patrol vessels flying pennants to aid in their identification.

(4) No vessel shall proceed at a speed greater than six (6) knots while in Manasquan Inlet during the effective period.

(5) All persons and vessels shall comply with the instructions of the Official Patrol. The operator of a vessel in the regulated area shall stop the vessel immediately when instructed to do so by the Official Patrol and then proceed as directed.

(d) *Enforcement period.* This section will be enforced from 9:30 a.m. to 3:30 p.m. on August 12, 2005. If the race is postponed due to weather, then the temporary special local regulations will be enforced during the same time period the next day.

Dated: June 26, 2005.

**Sally Brice-O'Hara,**

*Rear Admiral, U.S. Coast Guard, Commander,  
Fifth Coast Guard District.*

## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

#### 33 CFR Parts 110 and 165

[CGD05-04-035]

RIN 1625-AA00 and 1625-AA01

#### Anchorage Grounds and Safety Zone; Delaware River

**AGENCY:** Coast Guard, DHS.

**ACTION:** Final rule.

**SUMMARY:** The Coast Guard has established a permanent safety zone and modified certain anchorages in the area of the Marcus Hook Range when the U.S. Army Corps of Engineers (USACE) conducts its annual dredging operations. Annual dredging is necessary to maintain congressionally authorized channel depths. The safety zone and anchorage modifications are necessary to ensure safe vessel transits during the dredging operations. These regulations will alter the route of vessels transiting the channel and requirements for those vessels wishing to anchor during the dredging operations.

**DATES:** This rule is effective August 15, 2005.

**ADDRESSES:** Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket CGD05-04-035 and are available for inspection or copying at Coast Guard Marine Safety Office Philadelphia, One Washington Avenue, Philadelphia, Pennsylvania, 19147 between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Lieutenant Junior Grade Jill Bessetti or Ensign Otis Barrett, Coast Guard Marine Safety Office/Group Philadelphia, at (215) 271-4889.

#### SUPPLEMENTARY INFORMATION:

##### Regulatory Information

On December 15, 2004, we published a notice of proposed rulemaking (NPRM) entitled "Anchorage Grounds and Safety Zone; Delaware River" in the *Federal Register* (69 FR 240). We received one letter commenting on the proposed rule in reference to the recent oil spill. Dredging did not occur in

2004, and the comment was unrelated to the actions of this final rule. No public meeting was requested, and none was held.

##### Background and Purpose

USACE conducts annual dredging operations on the Delaware River in the vicinity of the Marcus Hook Range to maintain the forty-foot Federal navigation project depth. The dredging occurs between September 1 and December 31 of each year.

To reduce the hazards associated with dredging the channel, vessel traffic that would normally transit through the Marcus Hook Range will be diverted through part of Anchorage 7 during the dredging operations. Therefore, additional requirements and restrictions on the use of Anchorage 7 are necessary.

This final rule also places a permanent safety zone in waters within a 150-yard radius around vessels engaged in dredging operations, and places additional requirements and restrictions at Anchorage 7 and Anchorage 6.

In prior years, the Coast Guard had established a temporary safety zone within a 150-yard radius of the dredge performing dredging operations in Marcus Hook Range.

This permanent safety zone will protect mariners transiting the area from the potential hazards associated with dredging operations. Vessels transiting the Marcus Hook Range will have to divert from the main ship channel through Anchorage 7 and must operate at the minimum safe speed necessary to maintain steerage and reduce wake. No vessel will be allowed to enter the safety zone unless it receives permission from the Captain of the Port or his designated representative.

Additionally, the Coast Guard has established vessel requirements on vessels in the affected anchorages. Pursuant to 33 CFR 110.157(b)(2) vessels are allowed to anchor for up to 48 hours in the anchorage grounds listed in § 110.157(a), which includes Anchorage 7. However, because of the limited anchorage space available in Anchorage 7, the Coast Guard has added a paragraph in 33 CFR 110.157(b)(11) to provide additional requirements and restrictions on vessels utilizing Anchorage 7 during the USACE dredging. During the effective period, vessels desiring to use Marcus Hook Anchorage (Anchorage 7) must obtain permission from the Captain of the Port, Philadelphia, at least 24 hours in advance. The Captain of the Port will permit only one vessel at a time to anchor in Anchorage 7 and will grant permission on a "first come, first

served" basis. That vessel will be directed to a location within Anchorage 7 where it may anchor for a period not to exceed 12 hours.

The Coast Guard expects that vessels normally permitted to anchor in Anchorage 7 will use Anchorage 6 off Deepwater Point or Anchorage 9 near the entrance to Mantua Creek, because they are the next closest anchorage grounds. To control access to Anchorage 7, the Coast Guard requires a vessel desiring to anchor in Anchorage 7 to obtain advance permission from the Captain of the Port. To control access to Anchorages 6 and 9, the Coast Guard requires that any vessel 700 feet or greater in length to obtain advance permission from the Captain of the Port before anchoring.

The Coast Guard is also concerned that the holding grounds in Anchorages 6 and 9 are not as good as in Anchorage 7. Therefore, a vessel 700 to 750 feet in length is required to have one tug standing alongside while at anchor and a vessel over 750 feet in length will require two tugs standing alongside. The tug(s) is/are required to have sufficient horsepower to prevent the vessel they are attending from swinging into the channel.

##### Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS).

We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary.

Although this final rule requires certain vessels to have one or two tugs alongside while at anchor, the requirement only applies to vessels 700 feet or greater in length that choose to anchor in Anchorages 6 and 9. Alternate anchorage grounds such as Anchorage A (Breakwater & Big Stone Beach) off the entrance to the Mispillion River and Anchorage 1 (Bombay Hook) off Bombay Hook Point in Delaware Bay, are reasonably close and generally available. Vessels anchoring in Breakwater and Big Stone are not required to have tugs alongside, except when specifically directed to do so by the Captain of the Port because of a specific hazardous condition. The
