## DEPARTMENT OF LABOR

### Bureau of Labor Statistics

#### Proposed Collection; Comment Request

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed new collection of the "Current Population Survey (CPS) Disability Questions Test," to be conducted in February 2006. A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before September 16, 2005.

**ADDRESSES:** Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, telephone number (202) 691-7628. (This is not a toll free number.)

**FOR FURTHER INFORMATION CONTACT:** Amy A. Hobby, BLS Clearance Officer, telephone number (202) 691-7628. (See **ADDRESSES** section.)

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The February 2006 CPS Disability Questions Test will be conducted by the Bureau of Labor Statistics (BLS). The Test will gather information on the disability status of CPS respondents. The BLS will use the data to assess the effectiveness of new questions designed to identify persons with disabilities within the context of the CPS. Additionally, the BLS will be able to evaluate the effect that adding these questions to the CPS on a monthly basis will have on that survey's response rates. Other groups who may find these data to be of interest include veterans groups, educational associations, and disability advocacy groups.

Because the Disability Questions Test is part of the CPS, the same detailed demographic information collected in the CPS will be available on respondents to the Test. Data concerning disabled persons will be possible across characteristics such as sex, race, age, and educational attainment of the respondent.

##### II. Current Action

Office of Management and Budget clearance is being sought for the CPS Disability Questions Test.

for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Introduction**

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an Order pursuant to section 274f of the Atomic Energy Act that would modify an existing Order for Envirocare of Utah, Inc. (Envirocare). The existing order exempts Envirocare from certain NRC regulations and permits Envirocare, under specified conditions, to possess waste containing special nuclear material (SNM), in greater quantities than those specified in 10 CFR part 150, at Envirocare's low-level waste (LLW) disposal facility located in Clive, Utah, without obtaining an NRC license pursuant to 10 CFR part 70. The NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The modified Order will be issued following the publication of this notice.

##### **II. Environmental Assessment**

###### *Background*

The NRC is considering issuance of an Order pursuant to section 274f of the Atomic Energy Act that would modify an existing Order for Envirocare. The existing order exempts Envirocare from certain NRC regulations and permits Envirocare, under specified conditions, to possess waste containing SNM, in greater quantities than those specified in 10 CFR part 150, at Envirocare's LLW disposal facility located in Clive, Utah, without obtaining an NRC license pursuant to 10 CFR part 70. Published in the **Federal Register** on May 21, 1999 (64 FR 27826), the original Order was modified subsequently on January 30, 2003, at the request of Envirocare and published in the **Federal Register** on February 13, 2003 (68 FR 7399).

Envirocare is licensed by the State of Utah, an NRC Agreement State, under a 10 CFR part 61 equivalent license for the disposal of LLW. Envirocare also is licensed by Utah to dispose of mixed waste, hazardous waste, and 11e.(2) byproduct material (as defined under section 11e.(2) of the Atomic Energy Act of 1954, as amended).

By letter dated July 8, 2003, Envirocare proposed that the NRC amend the January 30, 2003, Order. The NRC staff has evaluated this request in two phases. In the first phase, the NRC staff evaluated the following requested revisions: (1) Modify the table in Condition 1 to include limits for uranium and plutonium in waste without magnesium oxide; (2) modify the units of the table from picocuries of SNM per gram of waste material to gram of SNM per gram of waste material; and (3) revise the language of Condition 5 to be consistent with the revised units in the table in Condition 1. The NRC staff approved these revisions and published a modified Order in the **Federal Register** on December 29, 2003 (68 FR 74986). In the second phase, which is the subject of this EA, the NRC staff has evaluated the remaining revisions requested by Envirocare (the proposed action).

###### *Review Scope*

The purpose of this EA is to assess the environmental impacts of Envirocare's requested modification to its December 2003 Order. This EA does not approve or deny the requested action. A separate Safety Evaluation Report (SER) also will be issued in support of the approval or denial of the requested action. This EA will determine whether to issue or prepare an Environmental Impact Statement (EIS). Should the NRC issue a FONSI, no EIS will be prepared.

###### *Proposed Action*

Envirocare proposes that the NRC amend the December 29, 2003, Order to: (1) Modify the table in Condition 1 to include criticality-based limits for uranium-233 and plutonium isotopes in waste containing up to 20 percent of materials listed in Condition 2 (e.g., magnesium oxide); (2) include criticality-based limits in the table in Condition 1 for plutonium isotopes in waste with unlimited materials in Condition 2, and in waste with unlimited quantities of materials in Conditions 2 and 3 (e.g., beryllium); (3) provide criticality-based limits for uranium-235 as a function of enrichment in waste containing up to 20 percent of materials listed in Condition 2 and in waste containing none of the materials listed in Condition 2; and (4) include additional mixed waste treatment technologies.

###### *Need for the Proposed Action*

In its July 8, 2003, request, Envirocare states that it is currently at a competitive disadvantage with another waste disposal company. Envirocare would like to expand its capabilities to
