

Pursuant to Kiswok Industries Pvt. Ltd. v. United States, Slip Op. 04–54 (CIT May 20, 2004) (*Remand Determination*). No party submitted comments regarding the Department's *Remand Determination*.

On June 16, 2005, the CIT affirmed the Department's findings in the *Remand Determination*. See *Kiswok Industries Pvt. Ltd. and Calcutta Ferrous Ltd. v. United States*, Slip Op. 05–73 (CIT June 16, 2005).

Suspension of Liquidation

The CAFC, in *Timken*, held that the Department must publish notice of a decision of the CIT or the CAFC which is not "in harmony" with the Department's final determination or results. Publication of this notice fulfills that obligation. The CAFC also held that the Department must suspend liquidation of the subject merchandise until there is a "conclusive" decision in the case. Therefore, pursuant to *Timken*, the Department must continue to suspend liquidation pending the expiration of the period to appeal the CIT's June 16, 2005, decision or, if that decision is appealed, pending a final decision by the CAFC. The Department will publish an amended final results and liquidate relevant entries covering the subject merchandise, in the event that the CIT's ruling is not appealed, or if it is appealed and upheld by the CAFC.

Dated: July 13, 2005.

Susan H. Kuhbach,

Acting Assistant Secretary for Import Administration.

[I.D. 071405D]

Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene a joint meeting of its Standing and Special Reef Fish Scientific and Statistical Committees (SSCs) in New Orleans, LA.

DATES: The meeting will be held Monday, August 1, 2005, from 10 a.m. to 4 p.m.

ADDRESSES: The meeting will be held at the Ramada Inn & Suites, New Orleans Airport, 110 James Drive East, Saint Rose, LA 70087.

Council address: Gulf of Mexico Fishery Management Council, 2203 North Lois Avenue, Suite 1100, Tampa, FL 33607.

FOR FURTHER INFORMATION CONTACT: Steven Atran, Population Dynamics Statistician, Gulf of Mexico Fishery Management Council; telephone: (813) 348–1630.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico Fishery Management Council will convene a meeting of its Standing and Special Reef Fish Scientific and Statistical Committee, to review a Red Snapper Advisory Report prepared by the NMFS and approved by the Southeast Data, Assessment and Review (SEDAR) Assessment Workshop committee. The advisory report contains findings on the red snapper stock status and possible and appropriate management for the stock in accordance with the red snapper rebuilding plan. The SSC previously reviewed the red snapper stock assessment and the SEDAR Assessment Review Workshop's Consensus Report at a meeting held July 5–8, 2005, and found those reports to constitute the best available scientific information, in accordance with national standard two of the Magnuson-Stevens Fishery Conservation and Management Act (M-SFCMA).

Although other non-emergency issues not on the agendas may come before the Council and Committees for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the Council and Committees will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the M-SFCMA, provided the public has been notified of the Council's intent to take action to address the emergency.

The established times for addressing items on the agenda may be adjusted as necessary to accommodate the timely completion of discussion relevant to the agenda items. In order to further allow for such adjustments and completion of all items on the agenda, the meeting may be extended from, or completed prior to the date established in this notice.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language

interpretation or other auxiliary aids should be directed to Dawn Aring at the Council (see **ADDRESSES**) by July 25, 2005.

Dated: July 15, 2005.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

[I.D. 071505A]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Administrator, Northeast Region, NMFS (Regional Administrator) has made a preliminary determination that the subject Exempted Fishing Permit (EFP) application contains all the required information and warrants further consideration. The Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Atlantic Herring and Northeast (NE) Multispecies Fishery Management Plans (FMPs). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, NMFS announces that the Regional Administrator proposes to issue an EFP that would allow up to four vessels at any given time to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP would allow for exemptions from certain regulations that implement the emergency action to address haddock bycatch in the 2005 herring fishery for the period August 1 - October 30, 2005. The EFP would exempt vessels from requirements specified at 50 CFR 648.86(a)(3) that restrict Category 1 herring vessels from possessing more than 1,000 lb (0.45 mt) of haddock per trip. The vessels would be part of a study entitled, "Modifications to Herring Midwater Trawls to Increase Escapement of Non-Target Species (Haddock)," which is being coordinated by the Gulf of Maine
