

**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission**

[Docket No. CP05-392-000]

**Texas Eastern Transmission, LP;  
Notice of Application**

July 18, 2005.

On July 6, 2005, Texas Eastern Transmission, LP, (Texas Eastern) filed an application pursuant to section 7(c) of the Natural Gas Act and part 157 of the regulations of the Federal Energy Regulatory Commission (Commission) requesting a certificate of public convenience and necessity authorizing Texas Eastern to enhance the reliability and flexibility of its Accident Storage Field located in Garrett County, Maryland, by improving deliverability at lower inventory levels, expanding the working gas capacity by 3.0 Bcf, and increasing the injection capability, thereby increasing the overall performance capabilities of the field. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "e-Library" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (866) 208-3676, or for TTY, (202) 502-8659.

Any questions regarding this application should be directed to Steven E. Tillman, General Manager, Regulatory Affairs, Texas Eastern Transmission, LP, P.O. Box 1642, Houston, Texas 77251-1642; phone (713) 627-5113.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the

proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Protests and interventions may be filed electronically via the Internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

*Comment Date:* 5 p.m. Eastern Time on August 8, 2005.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-7943-2]

### National Drinking Water Advisory Council Request for Nominations for the Working Group on Public Education Requirements of the Lead and Copper Rule

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA or Agency) is announcing the formation of a Working Group of the National Drinking Water Advisory Council on the Public Education Requirements of the Lead and Copper Rule (WGPE) and soliciting all interested persons to nominate qualified individuals to serve a one-year term. Any interested person or organization may nominate qualified individuals for membership on the working group.

*Background:* The Lead and Copper Rule requires systems that exceed the action level to complete a number of steps, which include delivering public education to alert the public of the problem and provide information on steps customers can take to reduce their risk. In order to ensure “at risk populations” are receiving the necessary information to protect themselves from exposure to lead, EPA is reviewing the public education requirements of the Lead and Copper Rule. EPA believes that public information is an important component of drinking water protection because it allows consumers to make informed public health decisions.

The National Drinking Water Advisory Council (NDWAC), established under the Safe Drinking Water Act, as amended (42 U.S.C. 300f *et seq.*), provides practical and independent advice, consultation, and recommendations to the Agency on the activities, functions, and policies related to the implementation of the Safe Drinking Water Act. On June 1, 2005, the NDWAC voted on and approved the formation of a Working Group (WGPE) to provide recommendations on the Public Education Requirements of the Lead and Copper Rule. After WGPE completes their charge, they will make recommendations to the full NDWAC. The full NDWAC will, in turn, make appropriate recommendations to EPA. For a general description of the WGPE charge, the criteria for selecting WGPE members, and the specific directions for submitting WGPE member nominations, please see the **SUPPLEMENTARY INFORMATION** section.

**DATES:** Submit nominations via U.S. mail on or before August 22, 2005.

**ADDRESSES:** Address all nominations to Elizabeth McDermott, Designated Federal Officer, National Drinking Water Advisory Council Working Group on Public Education, U.S. Environmental Protection Agency, Office of Ground Water and Drinking Water, Drinking Water Protection Division (Mail Code 4606M), 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

**FOR FURTHER INFORMATION CONTACT:** E-mail your questions to Elizabeth McDermott, Designated Federal Officer, at [mcdermott.elizabeth@epa.gov](mailto:mcdermott.elizabeth@epa.gov), or call (202) 564-1603.

**SUPPLEMENTARY INFORMATION:** *Working Group Charge:* The charge for the Working Group on the Public Education Requirements of the Lead and Copper Rule (WGPE) is to (1) review the current public education requirements to find and define the need for improvements and make recommendations to the full NDWAC accordingly; (2) develop language for communicating the risk and a suggested response to the public; and (3) define the delivery means to the public. The NDWAC established a target date of May 2006 to complete these tasks.

*Selection Criteria:* The criteria for selecting WGPE members are as follows: the members are recognized experts in their fields; the members are as impartial and objective as possible; the members collectively represent an array of backgrounds and perspectives within the water sector and related disciplines (e.g., public health); and the members are available to fully participate in the WGPE. The schedule remains flexible, however, it is estimated that the first WGPE meeting will be convened in the Fall of 2005, and subsequent meetings will be conducted over a relatively short time frame of approximately one (1) year. Over the course of this period, WGPE members will be asked to attend a maximum of four (4) in-person meetings, participate in conference calls and video conferencing as necessary, participate in the discussion of key issues at all meetings, and review and finalize the products and outputs of the WGPE. The EPA is looking to create a diverse working group. Potential nominations could include individuals from the drinking water industries, stakeholder organizations, state and local officials, public health officials, environmental organizations, and risk communication experts. The Agency is looking for a range of industry representation in terms of the size of the population served, as well as investor
