SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed continuing information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning Write Your Own Companies requirements to submit financial data to FEMA on a monthly basis.

To facilitate the marketing of flood insurance, the Federal Government will be a guarantor of flood insurance coverage for WYO Company policies issued under the WYO arrangement. Federal Emergency Management Agency

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, U.S. Department of Homeland Security.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) is submitting a request for reinstatement of a previously approved collection of information under the emergency processing procedures in Office of Management and Budget (OMB) regulation 5 CFR 1320.13. FEMA is requesting that this information collection be approved by August 26, 2005. The approval will authorize FEMA to use the collection through February 26, 2006. To help us with the timely processing of the emergency clearance submission to OMB, FEMA invites the general public to comment on the proposed collection of information.

SUPPLEMENTARY INFORMATION: Public Law 106-398, Fire Investment and Response Enhancement (FIRE) Act, Title XVII—Assistance to Firefighters, recognized that America's fire departments provide service and protection with impact far beyond the borders of the communities that support them. In order to provide this service and protection with the effectiveness, speed, and safety that their home communities and the nation as a whole demand, many fire departments, local community and state entities will need to increase their resources, in any of several categories. PL 106-398 created a fund to support worthy proposals to address these needs. But PL 106-398 also recognized that our current understanding of the magnitude and nature of fire department needs is not well defined. Furthermore, the rationale for Federal government assistance to meet these needs is also in need of greater definition, given the normal presumption that routine fire protection is a local function, set to meet locally defined goals and supported by local resources. Accordingly, PL 106-398, Section 1701, Sec. 33 (b) required that the Director of the Federal Emergency Management Agency (FEMA) conduct a study to define the current role and activities associated with the fire services; determine the adequacy of current levels of funding; and provide a needs assessment to identify shortfalls.

Collection of Information:

Title: U.S. Fire Service Needs Assessment Survey.

Type of Information Collection: Reinstatement, with change, of a previously approved collection.

OMB Number: 3067-0294.

Abstract: The Assistance to Firefighters Grant Program Reauthorization Act of 2004 includes a
