

hours; .5–6 hours average response time per respondent.

Needs and Uses: On May 23, 2001, the Commission adopted rules for determining high-cost universal service support for rural telephone companies for the next five years based upon proposals made by the Rural Task Force. The commission also addressed certain proposals made by the Multi-Association Group for reforming universal services applicable to rural carriers. FCC form 525 will be used to gather some of the information needed in a standardized format to help eliminate duplication of information collected. The information collected will be used to determine whether and to what extent rural telecommunications carriers providing the data are eligible to receive universal service support.

OMB Control No.: 3060–0804.

OMB Approval date: 6/28/2005.

Expiration Date: 06/30/2008.

Title: Universal Service—Health Care Providers Universal Service Program.

Form No.: FCC Forms 465, 466, 466–A and 467.

Estimated Annual Burden: 12,840 responses; 17,720 total annual burden hours; .5–3 hours average response time per respondent.

Needs and Uses: In the Second Report and Order, Order on Recon., and FNPRM (FCC 04–289), the Commission changed its definition of rural for purposes of the rural health care universal service support mechanism. The Commission also revised its rules to expand funding for mobile rural health care services and established a fixed deadline for filing FCC Forms 466 and 466–A. On reconsideration, the Commission permits states that are entirely rural to receive support for advanced telecom. and information services. The FNPRM seeks comment on whether to increase the percentage discount that rural health care providers receive for Internet access support and whether infrastructure development should be funded, and also whether to modify its rules to allow mobile rural health care providers to use services other than satellite.
