**Fisheries of the Exclusive Economic Zone Off Alaska; Yellowfin Sole in the Bering Sea and Aleutian Islands Management Area**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; apportionment of reserves; request for comments.

**SUMMARY:** NMFS apportions amounts of the non-specified reserve of groundfish to the yellowfin sole initial total allowable catch (ITAC) in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to allow the fishery to continue operating. It is intended to promote the goals and objectives of the fishery management plan for the BSAI.

**DATES:** Effective July 28, 2005, through 2400 hrs, Alaska local time (A.l.t.), December 31, 2005. Comments must be received at the following address no later than 4:30 p.m., A.l.t., August 9, 2005.

**FOR FURTHER INFORMATION CONTACT:** Josh Keaton, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under

authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2005 ITAC of yellowfin sole in the BSAI was established as 77,083 metric tons by the 2005 and 2006 final harvest specifications for groundfish in the BSAI (70 FR 8979, February 24, 2005). The Administrator, Alaska Region, NMFS, has determined that the ITAC for yellowfin sole in the BSAI needs to be supplemented from the non-specified reserve in order to continue operations.

Therefore, in accordance with § 679.20(b)(3), NMFS apportions 6,800 metric tons from the non-specified reserve of groundfish to the yellowfin sole ITAC in the BSAI. This apportionment is consistent with § 679.20(b)(1)(ii) and does not result in overfishing of a target species because the revised ITAC is equal to or less than the specification of the acceptable biological catch (70 FR 8979, February 24, 2005).

**Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA) finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) and § 679.20(b)(3)(iii)(A) as such a requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the apportionment of the non-specified reserves of groundfish to the yellowfin sole fishery. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of July 9, 2005.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Under § 679.20(b)(3)(iii), interested persons are invited to submit written comments on this action (see **ADDRESSES**) until August 9, 2005.

This action is required by 50 CFR 679.20 and is exempt from review under Executive Order 12866.
