BILLING CODE 4210-29-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Privacy Act of 1974, As Amended; Addition of a New System of Records

AGENCY: Office of the Secretary, U.S. Department of the Interior.

ACTION: Proposed addition of a new system of records.

SUMMARY: The Office of the Secretary, Department of the Interior is issuing public notice of its intent to add a new Privacy Act system of records to its inventory of records systems subject to the Privacy Act of 1974 (5 U.S.C. 552a). This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records systems maintained by the agency (5 U.S.C. 552a(e)(4)). The new system of records is called the Box Index Search System (BISS)—Interior, OS-3.

EFFECTIVE DATE: 5 U.S.C. 552a (e) (11) requires that the public be provided a 30-day period in which to comment on the agency's intended use of the information in the system of records. The Office of Management and Budget, in its Circular A-130, requires an additional 10-day period (for a total of 40 days) in which to make these comments. Any persons interested in commenting on this proposed amendment may do so by submitting comments in writing to the Department of the Interior, Office of the Secretary Privacy Act Officer, Sue Ellen Sloca, U.S. Department of the Interior, Mail Stop (MS)-1413, Main Interior Building (MIB), 1849 C Street, NW., Washington, DC 20240. Comments received within 40 days of publication in the **Federal Register** will be considered. The system will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination. The Department will publish a revised notice if changes are made based upon a review of comments received.

FOR FURTHER INFORMATION CONTACT: For information on the BISS—Interior, OS-3, please contact Ethel Abeita, Director, Office of Trust Records, 4400 Masthead NE, Albuquerque, NM, 87109, (505) 816-1600.

SUPPLEMENTARY INFORMATION: The purpose of the Box Index Search System (BISS) is to create a file-level listing of the contents of boxes of inactive records as a quick finding aid when records are retired, and to provide authorized parties with a tool to search all inactive records at the file-level that are stored at the American Indian Records Repository (AIRR) in Lenexa, KS. The BISS will provide an enhanced research capability over the existing paper Standard Form 135s, and other multiple partial inventory databases that currently exist. This improvement will enable DOI to centrally manage access to records and allow BIA and OST staff direct access to information about records that have been retired.
