[Project No. 1962-113]

Pacific Gas and Electric Company; Notice Dismissing Complaint

July 25, 2005.

1. On May 31, 2005, the Anglers Committee (Anglers) filed a complaint against Pacific Gas and Electric Company (PG&E), licensee for the Rock Creek-Cresta Project No. 1962, located on the North Fork Feather River in Butte and Plumas Counties, California.¹ On June 21, 2005, PG&E filed an answer to the complaint. On July 13, 2005, Anglers filed a rebuttal to PG&E's answer.

2. The Anglers contend that the Ecological Resource Committee (Committee), created by the licensee,² will not allow the public to participate in the meetings (other than to attend and listen) and to have access to Committee documents. The Anglers request that the Commission require PG&E to establish requirements and proceedings for Committee meetings to provide public participation in all matters and access to Committee documents.

3. The Commission's regulations provide that a complaint may be filed seeking Commission action against any person alleged to be "in contravention or violation of any statute, rule, order, or other law administered by the Commission or for any other alleged wrong over which the Commission may have jurisdiction."³ The regulations further provide that the complaint must [c]learly identify the action or inaction which is alleged to violate applicable statutory standards or regulatory requirements."⁴

¹ The Commission issued PG&E a new license for the Rock Creek-Cresta Project and approved a settlement agreement resolving various project-related issues on October 24, 2001. 97 FERC ¶ 61,084 (2001).

² Appendix Condition No. 22 of the license required PG&E to establish the Committee in coordination with the parties to the Settlement Agreement for the purpose of assisting the licensee in the design of monitoring plans, review and evaluation of data, and preparation of adaptive management measures for implementation by the licensee as provided in the Settlement Agreement.

The Anglers previously participated in settlement discussions regarding the relicensing of the project but, as stated in their complaint, they chose not to become signatories to the Settlement Agreement because of their disagreement with certain terms and conditions in the agreement. Members of the Committee are limited to the Settlement Agreement signatories.

³ See 18 CFR 385.206(a)(2005).

⁴ *Id.*

4. The license does not establish Committee procedures. Nor does it require public participation in Committee matters.⁵ Since the complainants do not allege that PG&E is in violation of its license, the Federal Power Act, or the Commission's regulations, the complaint is dismissed.

If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the

⁵ However, any material changes in project operations during the term of the license will require a license amendment application, public notice, and a proceeding in which interested entities will have an opportunity to participate.

Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 2630 is issued to PacifiCorp for a period effective July 2, 2005 through July 1, 2006, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If the project is not subject to section 15 of the FPA, notice is hereby given that PacifiCorp is authorized to continue operation of the Prospect Nos. 1, 2, and 4 Project No. 2630 until such time as the Commission acts on its application for subsequent license.
