14 CFR Part 71

[Docket No. FAA-2005-20895; Airspace Docket No. 05-ASO-6]

Establishment of Class D Airspace; Pascagoula, MS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class D airspace at Pascagoula, MS. A Federal contract tower with a weather reporting system is being constructed at the Trent Lott International Airport. Therefore, the airport will meet the criteria for establishment of Class D airspace. Class D surface area airspace is required when the control tower is open to contain existing Standard Instrument Approach Procedures (SIAPs) and other Instrument Flight Rules (IFR) operations at the airport. This action will establish Class D airspace extending upward from the surface, to and including 2,500 feet MSL, within a 4.1-mile radius of the airport.

EFFECTIVE DATES: 0901 UTC, October 27, 2005.

FOR FURTHER INFORMATION CONTACT:

Mark D. Ward, Manager, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-5627.

SUPPLEMENTARY INFORMATION:

History

On April 27, 2005, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by establishing Class D airspace at Pascagoula, MS, (70 FR 21694). This action provides adequate Class D airspace for IFR operations at Trent Lott International Airport. Designations for Class D Airspace are published in paragraph 5000 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designation listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposals to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR Part 71) establishes Class D airspace at Pascagoula, MS.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to kept them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

NASA Grant and Cooperative Agreement Handbook—Intellectual Property Required Reports and Publications

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: This final rule amends the NASA Grant and Cooperative Agreement Handbook (Handbook) to clarify intellectual property provisions. Provision § 1260.28, "Patent rights" is amended to refer to NASA contractors as "Contractors" and not "Recipients". Provision § 1260.30, "Rights in data" is amended to clarify the definition of the word "data". Provision § 1260.75, "Summary of report requirements", is amended to correct the cross-references to the intellectual property provisions of the Handbook. These changes are administrative in nature. No change is being made to the actual reporting requirements.

DATES: Effective August 9, 2005.

FOR FURTHER INFORMATION CONTACT: Monique Sullivan, NASA Headquarters, Code HK, Washington, DC, (703-553-2560) e-mail: monique.sullivan-1@nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

This final rule amends the NASA Grant and Cooperative Agreement Handbook (Handbook) to make three clarifications to intellectual property provisions: (1) Provision § 1260.28, "Patent rights" currently refers to NASA

Contractors as "Recipients". This final rule amends § 1260.28 to refer to NASA contractors as "Contractors" and not "Recipients"; (2) Paragraph (a)(1) of Provision § 1260.30, "Rights in data" is amended to correct previous revisions of the definition of the word "data" to include copyrightable work in which the recipient asserts copyright, or for which copyright ownership was purchased. The words "created under the grant or cooperative agreement" are added to the Provision for clarification; and (3) Intellectual Property provisions are reflected in Provisions § 1260.28, § 1260.30, § 1260.50, § 1260.57, and § 1260.59 of the Handbook. Provision § 1260.75 of the Handbook summarizes the reporting responsibilities of the recipient as are stated in the intellectual property provisions. This final rule amends § 1260.75 to correct the cross-references between the intellectual property provisions and the reporting requirements of § 1260.75.

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This final rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

NASA certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because the changes are for clarification only and do not impose additional requirements.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because this final rule does not impose any new recordkeeping or information collection requirements, or collection of information from offerors, contractors, or members of the public that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

§ 1260.28 Patent rights.

(h) In the event NASA contractors are tasked to perform work in support of specified activities under a cooperative agreement and inventions are made by Contractor employees, the Contractor will normally retain title to its employee inventions in accordance with 35 U.S.C. 202, 14 CFR Part 1245, and Executive Order 12591. In the event the Contractor decides not to pursue rights to title in any such invention and NASA obtains title to such inventions, NASA will use reasonable efforts to report such inventions and, upon timely request, will use reasonable efforts to grant the Recipient an exclusive, or partially exclusive, revocable, royalty-bearing license, subject to the retention of a royalty-free right of the Government to practice or have practiced the invention by or on behalf of the Government.

■ 3. Amend § 1260.30 by revising the date of the provision to read "August 2005", and revising paragraph (a)(1) to read as follows:
