SUPPLEMENTARY INFORMATION: We published in the Federal Register on July 22, 2005 (70 FR 42259–42261, Docket No. 04–068–1), an interim rule that amended the bovine tuberculosis regulations (9 CFR part 77) by removing New Mexico from the list of modified accredited advanced States in § 77.9(a) and adding part of New Mexico to the list of modified accredited advanced zones in § 77.9(b) and the remainder of New Mexico to the list of accredited free zones in § 77.9(b).

There is one error in that document. In § 77.9, paragraph (a) lists the States which meet the criteria for modified accredited advanced States. When we set out the revised § 77.9(a), we inadvertently included California on the list of modified accredited advanced States. California was designated as an accredited free State in an interim rule published in the Federal Register on April 15, 2005 (70 FR 19877–19878, Docket No. 05–010–1). This document corrects that error by removing California from the list in § 77.9(a).

Brucellosis in Swine; Add Florida to List of Validated Brucellosis-Free States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Affirmation of interim rule as final rule.

SUMMARY: We are adopting as a final rule, without change, an interim rule that amended the brucellosis regulations concerning the interstate movement of swine by adding Florida to the list of validated brucellosis-free States. The interim rule was based on our determination that Florida meets the criteria for classification as a validated brucellosis-free State. That action relieved certain restrictions on the interstate movement of breeding swine from Florida.

DATES: The interim rule became effective on May 2, 2005.
