[Docket No. 050715188–5188–01]

RIN: 0605–AA20

Disclosure of Government Information; Change in Designated Official

AGENCY: Department of Commerce.

ACTION: Final rule.

SUMMARY: This rule amends the Department of Commerce's (Department) Freedom of Information Act (FOIA) regulations by changing the official authorized to deny requests for records under the Freedom of Information Act, and requests for correction or amendment under the Privacy Act (PA), for the Bureau of the Census.

DATES: Effective August 15, 2005.

FOR FURTHER INFORMATION CONTACT:

Rochelle Wilkie Martinez, Acting Chief, Policy Office, U.S. Census Bureau, 301–763–3461.

SUPPLEMENTARY INFORMATION: Appendix B to 15 CFR part 4 designates the officials authorized to deny requests for records under the FOIA, and requests for records and requests for correction or amendment under the PA. In order to change the designated official for the Bureau of the Census, we are amending the regulations.

Classification

It has been determined that this notice is not significant for purposes of E.O. 12866.

It has been determined that this notice does not contain policies with Federalism implications as that term is defined in EO 13132.

Prior notice and an opportunity for public comment are not required by the Administrative Procedure Act for rules concerning agency organization, procedure, or practice (5 U.S.C. 553(b)(A)). The Department finds good cause to waive the 30-day delay in effectiveness because it is unnecessary. This rule merely changes the name of the official who is authorized to deny requests for records under the Freedom of Information Act, and requests for correction or amendment under the Privacy Act. 5 U.S.C. (d)(3).

Because notice and opportunity for comment are not required pursuant to 5 U.S.C. 553 or any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are inapplicable. Therefore, a regulatory flexibility analysis is not required and has not been prepared.

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest assumptions for valuing and paying benefits under terminating single-employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in September 2005. Interest assumptions are also published on the PBGC's Web site (<http://www.pbgc.gov>).

DATES: Effective September 1, 2005.

FOR FURTHER INFORMATION CONTACT: Catherine B. Klion, Attorney, Legislative and Regulatory Department, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202–326–4024. (TTY/TDD users may call the Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4024.)

SUPPLEMENTARY INFORMATION: The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) A set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to Part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to Part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to Part 4022).

Accordingly, this amendment (1) adds to Appendix B to Part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during September 2005,

(2) adds to Appendix B to Part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during September 2005, and (3) adds to Appendix C to Part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during September 2005.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 3.60 percent for the first 20 years following the valuation date and 4.75 percent thereafter. These interest assumptions represent an increase (from those in effect for August 2005) of 0.20 percent for the first 20 years following the valuation date and are otherwise unchanged.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 2.50 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. These interest assumptions represent an increase (from those in

effect for August 2005) of 0.25 percent for the period during which a benefit is in pay status and are otherwise unchanged.

For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during September 2005, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility

Act of 1980 does not apply. See 5 U.S.C. 601(2).

SUPPLEMENTARY INFORMATION: The NMFS Regional Administrator (RA) has adjusted the recreational fishery from Cape Alava, WA, to Cape Falcon, OR, with two regulatory modifications. Effective Friday, July 29, 2005, the La Push, Westport, and Columbia River Subarea’s will be open seven days per week, with a modified daily bag limit as follows: “All salmon, two fish per day, and all retained coho must have a healed adipose fin clip.” All other restrictions remain in effect as announced for 2005 Ocean Salmon Fisheries. On July 25, 2005, the Regional Administrator had determined that the catch was less than anticipated pre-season and that provisions designed to slow the catch of Chinook could be modified.

All other restrictions remained in effect as announced for 2005 Ocean Salmon Fisheries. These actions were necessary to conform to the 2005 management goals, and the intended effect is to allow the fishery to operate within the seasons and quotas specified

in the 2005 annual management measures. Modification in recreational bag limits and recreational fishing days per calendar week is authorized by regulations at 50 CFR 660.409(b)(1)(iii).

In the 2005 annual management measures for ocean salmon fisheries (70 FR 23054, May 4, 2005), NMFS announced the recreational fisheries: the area from the U.S.-Canada Border to Cape Alava, WA (Neah Bay Subarea) opened July 1 through the earlier of September 18 or a 12,667 marked coho subarea quota with a subarea guideline of 4,300 Chinook; the area from Cape Alava to Queets River, WA (La Push Subarea) opened July 1 through the earlier of September 18 or a 3,067 marked coho subarea quota with a subarea guideline of 1,900 Chinook; the area from Queets River to Leadbetter Point, WA (Westport Subarea) opened June 26 through the earlier of September 18 or a 45,066 marked coho subarea quota with a subarea guideline of 28,750 Chinook; the area from Leadbetter Point, WA to Cape Falcon, OR (Columbia River Subarea) opened July 3 through the earlier of September 30 or a 60,900–marked coho subarea quota with a subarea guideline of 8,200 Chinook. The Neah Bay and La Push Subareas were opened Tuesday through Saturday, and the Westport and Columbia River Subareas were opened Sunday through Thursday. All subareas had a provision that there may be a conference call no later than July 27 to consider opening seven days per week. All subareas were restricted to a Chinook minimum size limit of 24 inches (61.0 cm) total length. In addition, all of the subarea bag limits were for all salmon, two fish per day, no more than one of which may be a Chinook, with all retained coho required to have a healed adipose fin clip.

On July 25, 2005, the RA consulted with representatives of the Pacific Fishery Management Council, Washington Department of Fish and Wildlife, and Oregon Department of Fish and Wildlife by conference call. Information related to catch to date, the Chinook and coho catch rates, and effort data indicated that the catch was less than anticipated pre-season and that provisions designed to slow the catch of Chinook could be modified, by relaxing the bag limits and fishing days per
