

material into wetlands to facilitate the construction and operation of an open pit taconite mine at the former Butler Taconite site near Nashwauk, Minnesota, and the construction of new facilities—a crusher, a concentrator, a pellet plant, a plant for producing direct reduced iron (DRI), and a steel mill consisting of two electric arc furnaces, two idle furnaces, two thin slab casters, and a sheet rolling mill. The former Butler Taconite Stage 1 tailings basin would be reactivated for the disposal of concentrator tailings. The mining process would require the construction of overburden, waste rock, and lean ore stockpiles just north of the proposed mine site. Ore would be hauled via truck from the mine to the adjacent ore concentrator. Concentrating the ore would involve crushing, grinding, magnetic separation, and flotation processes. Concentrator tailings would be pumped as slurry to the former Butler Taconite Stage 1 tailings basin approximately two miles southeast of the proposed mine site. The concentrate would be mixed with a binder and limestone, and converted to unfired pellets in balling drums or disks. The unfired pellets would be hardened in an indurating furnace. The DRI plant would convert the iron oxide pellets to nearly pure iron pellets (DRI pellets) in a 300- to 425-foot-high vertical shaft reactor. The DRI pellets would be fed to steel mill, which would produce hot rolled sheet steel. Project plans call for the mining of approximately 12.8 million long tons of crude ore per year at a stripping ratio of approximately 0.50:1. Approximately 2.4 million short tons per year of hot rolled sheet steel would be produced. The project would employ approximately 700 people for production, support, and administration. Economic feasibility of the project is based on a 20-year project life. Minnesota Steel at this time cannot predict whether investments for further operations would be economically desirable. Therefore, mine planning and detailed design are being prepared for 20 years of operation and environmental permits are being requested for a 20-year project life. If the project is permitted, and if Minnesota Steel proposes to extend the project life beyond the 20-year period, then modifications to the Section 404 permit and supplemental environmental review would be required.

The project would require dredging or discharging fill material into approximately 1,014 acres of wetlands. While some of the wetlands may be isolated, the majority of the wetlands are adjacent to Oxhide Creek, Snowball

Creek, Pickerel Creek, or O'Brien Creek, which are tributaries to the Swan River, or they are adjacent to an unnamed tributary to the Prairie River or to an unnamed tributary to Sucker Brook, which is a tributary to the Prairie River. The Swan River and the Prairie River are tributaries to the Mississippi River, which is a navigable water of the United States. A specific compensatory wetland mitigation plan has not been developed for the project. Minnesota Steel intends to work with interested Federal and state agencies to develop an acceptable plan that would meet Federal and state compensatory mitigation requirements. The discharge of dredged or fill material into waters of the United States requires a permit issued by the Corps under Section 404 of the Clean Water Act. The final environmental impact statement will be used as a basis for the permit decision and to ensure compliance with the National Environmental Policy Act (NEPA).

FOR FURTHER INFORMATION CONTACT: Questions concerning the Draft Environmental Impact Statement (DEIS) can be addressed to Mr. Jon K. Ahlness, Regulatory Branch by letter at U.S. Army Corps of Engineers, 190 Fifth Street East, St. Paul, MN 55101-1638, by telephone at (651) 290-5381, or by e-mail at jon.k.ahlness@mvp02.usace.army.mil.

SUPPLEMENTARY INFORMATION: The Corps and the State of Minnesota will jointly prepare the DEIS. The Corps is the lead federal agency and the Minnesota Department of Natural Resources (MnDNR) is the lead state agency. The Corps and the MnDNR will prepare and release to the public a Scoping Environmental Assessment Worksheet (EAW) and a Draft Scoping Decision Document. The public will have 30 days to provide comments on those two documents. The Corps and the MnDNR will conduct a public scoping meeting in Nashwauk, Minnesota during the 30-day public comment period. A notice will be published or aired in local media once the meeting has been scheduled. Additional meetings will be conducted as needed. In accordance with 40 CFR 1506.5(c) and Corps policy, a third party contractor will be selected to prepare the DEIS. We anticipate that the DEIS will be available to the public in late 2006.

The DEIS will assess impacts of the proposed action and reasonable alternatives, identify and evaluate mitigation alternatives, and discuss potential environmental monitoring. Significant issues and resources to be identified in the DEIS will be determined through coordination with

responsible Federal, state, and local agencies; the general public; interested private organizations and parties; and affected Native American Tribes. Anyone who has an interest in participating in the development of the DEIS is invited to contact the St. Paul District, Corps of Engineers. Major issues identified to date for discussion in the DEIS are the impacts of the projected project on:

1. Natural resources including: fishery, wildlife, vegetation, riparian areas, and waters of the U.S., including wetlands.
2. Water quality, water quantity, groundwater, erosion, and sedimentation.
3. Air quality.
4. Social and economic resources.
5. Downstream resources.

Additional issues of interest may be identified through the public scoping meeting and agency meetings.

Issuing a permit for the development of an open pit taconite mine and associated ore processing, steel making, and tailings facilities is considered to be a major Federal action having a significant impact on the quality of the human environment. The project: (1) Would have a significant adverse effect on wetlands (which are special aquatic sites), and (2) has the potential to significantly affect air quality, water quality, groundwater, plankton, fish, and wildlife. Our environmental review will be conducted to the requirements of the National Environmental Policy Act of 1969, National Historic Preservation Act of 1966, Council of Environmental Quality Regulations, Endangered Species Act of 1973, Section 404 of the Clean Water Act, and other applicable laws and regulations.

Dated: August 5, 2005.

Michael F. Pfennig,
Colonel, Corps of Engineers, District Engineer.

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before September 14, 2005.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Rachel Potter, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10235, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: August 10, 2005.

Angela C. Arrington,

Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer.

Office of Vocational and Adult Education

Type of Review: Reinstatement.

Title: Adult Education Annual Performance and Financial Reports.

Frequency: Annually.

Affected Public: State, local, or tribal gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden: Responses: 57. Burden Hours: 5,700.

Abstract: The information contained in the Annual Performance Reports for Adult Education is needed to monitor the performance of the activities and

services funded under the Adult Education and Family Literacy Act of 1998, Report to Congress on the Levels of Performance Achieved on the core indicators of performance, provide necessary outcome information to meet OVAE's Government Performance and Results Act (GPRA) goals for adult education, and provide documentation for incentive awards under Title V of the Workforce Investment Act. The respondents include eligible agencies in 59 states and insular areas.

Requests for copies of the information collection submission for OMB review may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2794. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to the Internet address OCIO_RIMG@ed.gov or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Sheila Carey at her e-mail address Sheila.Carey@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

Office of Elementary and Secondary Education; Overview Information, Striving Readers; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2005

Catalog of Federal Domestic Assistance (CFDA) Number: 84.371A

Dates:

Applications Available: August 15, 2005.

Deadline for Notice of Intent to Apply: September 14, 2005.

Deadline for Transmittal of Applications: November 14, 2005.

Deadline for Intergovernmental Review: December 13, 2005.

Dates of Pre-Application Meetings:

The Department will conduct a series of briefings on this competition via conference call to clarify the purposes of the program, the selection criteria, and the competition process. Consult the

Striving Readers Web site at <http://www.ed.gov/programs/strivingreaders> for dates and times of the pre-application meetings.

Eligible Applicants: Local educational agencies (LEAs) that have schools that—

1. Are eligible to receive funds under Part A of Title I of the Elementary and Secondary Education Act of 1965, as amended (ESEA), pursuant to section 1113 of the ESEA, and

2. Serve students in one or more grades in grades 6 through 12.

Eligible LEAs may apply individually, with other eligible LEAs, or in partnership with one or more of the following entities:

- State educational agencies (SEAs),
- Intermediate service agencies,
- Public or private institutions of higher education, and
- Public or private organizations with expertise in adolescent literacy and/or rigorous evaluation.

In any partnership, the fiscal agent must be an eligible LEA.

Estimated Available Funds: \$24,000,000. Contingent upon the availability of funds and quality of applications we may make additional awards in subsequent years from the list of unfunded applicants from this competition.

Estimated Range of Awards:

\$1,000,000–5,000,000 per year.

Estimated Average Size of Awards:

\$3,000,000 per year.

Maximum Award Amount: We do not intend to make any awards exceeding \$5,000,000 per year.

Estimated Number of Awards: 8.

Note: The Department is not bound by any estimates in this notice.

Project Period: Up to 60 months. Continuation awards are contingent on a grantee's progress and future Congressional appropriations.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the Striving Readers program is to raise the reading achievement levels of middle and high school-aged students in Title I-eligible schools with significant numbers of students reading below grade level. The program supports new comprehensive reading initiatives or expansion of existing initiatives that improve the quality of literacy instruction across the curriculum, provide intensive literacy interventions to struggling adolescent readers, and help to build a strong, scientific research base for identifying and replicating strategies that improve adolescent literacy skills.

Priorities: We are establishing these priorities in accordance with section
