## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA-2005-21707; Airspace Docket No. 05-ACE-22]

#### Modification of Class E Airspace; Lincoln, NE

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Direct final rule; correction.

**SUMMARY:** This action corrects a direct final rule; request for comments that was published in the **Federal Register** on Friday, July 29, 2005 (70 FR 43741) (FR Doc. 05-21707). It removes the reference to Class C Airspace at Lincoln, NE.

**DATES:** This direct final rule is effective on 0901 UTC, October 27, 2005.

**FOR FURTHER INFORMATION CONTACT:**

Brenda Mumper, Air Traffic Division, Airspace Branch, ACE-520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329-2524.

**SUPPLEMENTARY INFORMATION:**

#### History

**Federal Register** document 05-21707, published on Friday, July 29, 2005 (70 FR 43741), corrected the airport name and removed references to "effective dates and times established in advance by a Notice to Airmen" from the legal descriptions for Class C and Class E airspace at Lincoln, NE. However, changes to the Class C airspace were incorrectly included in the direct final rule; request for comments.

■ Accordingly, pursuant to the authority delegated to me, the legal description of the Class E airspace area at Lincoln, NE, as published in the **Federal Register** on Friday, October 29, 2005 (70 FR 43741) (FR Doc. 05-21707), is corrected as follows:

■ On page 43741, Column 2, Docket Title, delete the words "Class C and". On page 43741, Column 3, under **SUMMARY**, delete the words "Class C and". On page 43741 Column 3, under **SUPPLEMENTARY INFORMATION**, delete the words "Class C airspace". On page 43742, Column 2,

under Adoption of the Amendment, delete the legal description of Class C airspace.

Issued in Kansas City, MO on August 2, 2005.

Elizabeth S. Wallis,

Acting Area Director, Western Flight Services Operations.

#### Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; Framework Adjustment 17

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule.

**SUMMARY:** This final rule implements Framework 17 to the Atlantic Sea Scallop Fishery Management Plan (Framework 17), which was developed and submitted by the New England Fishery Management Council (Council) and approved by NMFS. Framework 17 requires that vessels issued a general category scallop permit and that intend to land over 40 lb (18.14 kg) of shucked, or 5 bu (176.2 L) of in-shell scallops, install and operate vessel monitoring systems (VMS). Framework 17 also allows general category scallop vessels with VMS units to turn off (power-down) their VMS units after they have offloaded scallops and while they are tied to a fixed dock or mooring. Finally, Framework 17 revises the broken trip adjustment provision for limited access scallop vessels fishing in the Sea Scallop Area Access Program. The intent of this action is to provide more complete monitoring of the general category scallop fleet, to reduce VMS operating costs, and to eliminate a provision that may have a negative influence on vessel operator decisions at sea and facilitate safety.

**DATES:** All provisions in this final rule are effective October 21, 2005, except 50 CFR 648.60(c)(5), which is effective August 22, 2005.

**ADDRESSES:** Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in this rule should be submitted to Patricia A. Kurkul, Regional Administrator (RA), NMFS, Northeast Regional Office, One Blackburn Drive, Gloucester, MA 01930; and to the Office of Management and Budget (OMB), by e-mail at [David\\_Rostker@omb.eop.gov](mailto:David_Rostker@omb.eop.gov) or fax to (202) 395-7285.

Copies of Framework 17, its Regulatory Impact Review (RIR), including the Initial Regulatory Flexibility Analysis (IRFA), and the Environmental Assessment (EA) are available on request from Paul J. Howard, Executive Director, New England Fishery Management Council, 50 Water Street, Newburyport, MA 01950. These documents are also available online at <http://www.nefmc.org>.

**FOR FURTHER INFORMATION CONTACT:**

Peter W. Christopher, Fishery Policy Analyst, (978) 281-9288; fax (978) 281-9135.

**SUPPLEMENTARY INFORMATION:**

#### Background

Framework 17 was adopted by the Council on February 1, 2005, and was submitted to NMFS by the Council on March 11, 2005, with a supplement submitted on April 4, 2005. A proposed rule for Framework 17 was published in the **Federal Register** on June 2, 2005 (70 FR 32282), with a comment period ending on June 17, 2005. The issues that led to the development of Framework 17 are discussed in detail in the preamble of the proposed rule, and are summarized briefly in this final rule. Framework 17 was developed by the Council to address concerns resulting from reports that vessels issued Atlantic scallop open access general category permits were making undocumented scallop landings and violating the 400-lb (181.44-kg)/50-bu (17.62-hL) possession limit restriction. In addition, the Council made a modification to the procedure that authorizes limited access scallop vessels to terminate Area Access trips prior to fully harvesting the allowed amount of scallops (the broken trip provision).

Framework 17 requires all general category vessels that land, or intend to land, more than 40 lb (18.14 kg) of shucked, or 5 bu (176.2 L) unshucked scallops, to install and operate a VMS onboard the vessel. The use of VMS is expected to assist with monitoring of general category vessel activity and facilitate the enforcement of the possession limit regulations. Because of
