Expiration Date of Approval: December 31, 2005.

Type of Request: Extension for a currently approved information collection.

Abstract: The Andean Trade Preference Act (the "Act") (19 U.S.C. 3201 *et seq.*) was retitled the "Andean Trade Promotion and Drug Eradication Act" under section 3101 of H.R. 3009, the "Trade Act of 2002". The Act authorized the President to proclaim duty-free treatment for imports from Bolivia, Colombia, Ecuador and Peru, except for specifically excluded products. Section 3104 of H.R. 3009 amended the Act to extend the expiration date from December 4, 2001 to December 31, 2006, and made the Act retroactive to December 4, 2001. Section 3103(a) of H.R. 3009 renumbered section 204(e) of the Act as section 204(d). Section 204(d) provides for emergency relief from duty-free imports of certain perishable agricultural products from the beneficiary Andean countries. Section 204(d) provides, in part, that a petition for emergency import relief may be filed with the Secretary of Agriculture at the same time a petition for import relief is filed with the United States International Trade Commission (ITC) pursuant to the provisions of section 201 of the Trade Act of 1974, as amended (19 U.S.C. 2251). Emergency import relief is limited to restoration of MFN tariffs during the period of the ITC's investigation. Under 7 CFR 1540 Subpart C, a procedure is provided for an entity to submit a petition for emergency relief to the Administrator of the Foreign Agricultural Service. Section 150.43 requests that the following information, to the extent possible, be included in a petition: A description of the imported perishable product concerned; country of origin of imports; data indicating increased imports are a substantial cause of serious injury (or threat of injury) to the domestic industry producing a like or directly competitive product; evidence of serious injury, and a statement indicating why emergency action would be warranted. The information collected provides essential data for the Secretary regarding specific market conditions with respect to the industry requesting emergency relief. Within 14 days of the filing of a petition, the Secretary shall advise the President if there is reason to believe that emergency action is warranted, or to publish a notice of a

determination not to recommend emergency action and advise the petitioner.

Comments on issues covered by the Paperwork Reduction Act are most useful to OMB if received within 30 days or the publication of the Notice and Request for Comments, but must be submitted no later than 60 days from the date of publication to be assured consideration. DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Annual Retail Trade Report.
Form Number(s): SA-44, SA-44A, SA-44C, SA-44E, SA-44N, SA-44S, SA-45, SA-45C, SA-721A and SA-721E.

Agency Approval Number: 0607-0013.

Type of Request: Extension of a currently approved collection.

Burden: 11,095 hours.

Number of Respondents: 21,570.

Avg Hours Per Response: 31 minutes.

Needs and Uses: The U.S. Census Bureau requests continued OMB approval of the Annual Retail Trade Survey (ARTS). The ARTS provides the only continuing official measure of annual total retail sales, e-commerce sales, end-of-year inventories, sales/inventory ratios, purchases, inventory valuation methods, gross margin, and end-of-year accounts receivables for retailers and annual sales and e-commerce sales for accommodation and food services firms in the United States.

The data collected in the ARTS provide a current statistical picture of the retail and food services and accommodations portions of consumer activity. Also, the estimates compiled from this survey provide valuable information for economic policy decisions and actions by government and are widely used by private businesses, trade organizations, professional associations, and others for market research and analysis. The sales and receipts are used by the Bureau of Economic Analysis (BEA) in determining the consumption portion of the Gross Domestic Product (GDP).

The BEA is the primary Federal user of the data collected in the ARTS and the information collected is critical to the quality of several of BEA's key programs. The data on retail sales are used to prepare detailed annual personal consumption expenditures estimates; merchandise inventories, valuation methods and merchandise purchases are used to prepare annual estimates of change in the business inventory component of GDP. Sales, merchandise purchases, inventories, inventory valuation and sales tax data are used to prepare estimates of GDP by industry and to derive industry output for the input-output accounts.

In addition, the results of the ARTS are used to benchmark estimates of monthly retail sales, e-commerce sales, and inventories from the Current Retail Sales and Inventory Survey (OMB Approval #0607-0717), which are key economic indicators that provide timely input for computation of the national accounts. Accounts receivable balances are used by the Federal Reserve Board in measuring consumer credit.
