SUPPLEMENTARY INFORMATION:

Title of Collection: Evaluation of the National Science Foundation's Math and Science Partnership (MSP) Program. *OMB Control No.:* 3145-New.

Expiration Date of Approval: Not applicable.

Abstract: The National Science Foundation (NSF) requests a three-year clearance for an evaluation of the Math and Science Partnership (MSP) program. After three years in existence, MSP as a program in its entirety has not been evaluated regarding whether it is achieving its goals or purposes. The MSP program is a research and development (R&D) effort funded by the NSF to integrate the work of higher education, especially disciplinary faculty in math, sciences, and engineering, with that of K-12 communities in order to strengthen and reform math and science education. The program is authorized under the NSF Authorization Act of 2002 (P.L. 107-368), December 19, 2002 (to authorize appropriations for FY 2003-07 and "for other purposes"). MSP is among 11 programs specifically authorized by the legislation (Sec. 11 authorizes a 12th program, the Centers for Research on Mathematics and Science Learning and Education Improvement).

The NSF's MSP program portfolio consists of about 80 awards or projects (e.g. design grants, standard or continuing grants or cooperative agreements) that initially were funded between 2002 and 2004. The type of awards subject to study and data collection, however, include only the comprehensive MSPs, targeted MSPs, teacher institute partnerships, and
