

for Reconsideration was issued. The Department's Notice of Dismissal was published in the **Federal Register** on March 22, 2005 (70 FR 14483).

On May 3, 2005, the petitioner filed an appeal with the USCIT. In the appeal, the petitioner suggested that the workers were engaged in production during their employment with Bourns and alleged that they were separated from Bourns in May 2004 when the facility closed due to the shift of production to China, Taiwan and Costa Rica.

In its June 29, 2005 Order, the USCIT granted the Department's motion for a voluntary remand for further investigation and directed the Department to determine whether the subject worker group met the criteria set forth in the Trade Act of 1974 for TAA and ATAA certification.

During the remand investigation, the Department contacted a Bourns official to ascertain whether the workers were employees of Bourns Microelectronics Modules, Inc., (BMMI), whether the workers were engaged in production of computer modules during their employment with BMMI and if so, whether computer module production shifted abroad, and whether there were increased imports of computer modules during the relevant period.

The remand investigation revealed that the subject company did not acquire the subject facility until December 3, 2003 and that the subject workers were separated from BMMI, a subsidiary of Bourns, Inc., when the subject company shifted a meaningful portion of computer module production from the subject facility to Costa Rica.

Under Section 113 of the Trade Adjustment Assistance Reform Act of 2002 (PL 107-210), workers may be eligible to apply for TAA services if they were laid off as a result of increased imports or if their companies shifted production out of the United States to certain foreign countries. Workers laid off as a result of a shift in production to a country that is party to a free trade agreement with the United States, or a country that is named as a beneficiary under the Andean Trade Preference Act, the African Growth and Opportunity Act or the Caribbean Basin Economic Recovery Act, may satisfy TAA certification criteria. Since Costa Rica is a named beneficiary under the Caribbean Basin Economic Recovery Act, the shift of computer module production from the subject facility to Costa Rica satisfies the criteria for TAA certification.

A careful review of the record revealed that all criteria regarding ATAA for the subject worker group have

been met. A significant number or proportion of the worker group are age fifty years or over, the workers possess skills that are not easily transferable and competitive conditions within the industry are adverse.

Conclusion

After careful review of the facts obtained in the remand investigation, I conclude that there was a shift in production from the workers' firm or subdivision to Costa Rica of articles that are like or directly competitive with those produced by the subject firm or subdivision. In accordance with the provisions of the Act, I make the following certification:

All workers of Bourns Microelectronics Modules, Inc., A Subsidiary of Bourns, Inc., New Berlin, Wisconsin, who became totally or partially separated from employment on or after December 3, 2003, through two years from the issuance of this revised determination, are eligible to apply for Trade Adjustment Assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for Alternative Trade Adjustment Assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC, this 16th day of August, 2005.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended, (19 U.S.C. 2273), the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) number and alternative trade adjustment assistance (ATAA) by (TA-W) number issued during the periods of July 2005.

In order for an affirmative determination to be made and a certification of eligibility to apply for directly-impacted (primary) worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222(a) of the Act must be met.

I. Section (a)(2)(A) all of the following must be satisfied:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm,

have become totally or partially separated, or are threatened to become totally or partially separated;

B. The sales or production, or both, of such firm or subdivision have decreased absolutely; and

C. Increased imports of articles like or directly competitive with articles produced by such firm or subdivision have contributed importantly to such workers' separation or threat of separation and to the decline in sales or production of such firm or subdivision; or

II. Section (a)(2)(B) both of the following must be satisfied:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. There has been a shift in production by such workers' firm or subdivision to a foreign country of articles like or directly competitive with articles which are produced by such firm or subdivision; and

C. One of the following must be satisfied:

1. The country to which the workers' firm has shifted production of the articles is a party to a free trade agreement with the United States;

2. The country to which the workers' firm has shifted production of the articles to a beneficiary country under the Andean Trade Preference Act, African Growth and Opportunity Act, or the Caribbean Basin Economic Recovery Act; or

3. There has been or is likely to be an increase in imports of articles that are like or directly competitive with articles which are or were produced by such firm or subdivision.

Also, in order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance as an adversely affected secondary group to be issued, each of the group eligibility requirements of Section 222(b) of the Act must be met.

(1) Significant number or proportion of the workers in the workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) The workers' firm (or subdivision) is a supplier or downstream producer to a firm (or subdivision) that employed a group of workers who received a certification of eligibility to apply for trade adjustment assistance benefits and such supply or production is related to the article that was the basis for such certification; and

(3) Either—

(A) The workers' firm is a supplier and the component parts it supplied for the firm (or subdivision) described in paragraph (2) accounted for at least 20 percent of the production or sales of the workers' firm; or

(B) A loss of business by the workers' firm with the firm (or subdivision) described in paragraph (2) contributed importantly to the workers' separation or threat of separation.

Negative Determinations for Worker Adjustment Assistance

In the following cases, the investigation revealed that the criteria for eligibility have not been met for the reasons specified.

The investigation revealed that criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.B) (No shift in production to a foreign country) have not been met.

The following certification has been issued. The requirement of downstream producer to a trade certified firm has been met.

None

Negative Determinations for Alternative Trade Adjustment Assistance

In order for the Division of Trade Adjustment Assistance to issue a certification of eligibility to apply for Alternative Trade Adjustment Assistance (ATAA) for older workers, the group eligibility requirements of Section 246(a)(3)(A)(ii) of the Trade Act must be met.

In the following cases, it has been determined that the requirements of Section 246(a)(3)(ii) have not been met for the reasons specified.

The Department as determined that criterion (2) of Section 246 has not been met. Workers at the firm possess skills that are easily transferable.

Affirmative Determinations for Alternative Trade Adjustment Assistance

In order for the Division of Trade Adjustment Assistance to issue a certification of eligibility to apply for Alternative Trade Adjustment Assistance (ATAA) for older workers, the group eligibility requirements of Section 246(a)(3)(A)(ii) of the Trade Act must be met.

The following certifications have been issued; the date following the company name and location of each determination references the impact date for all workers of such determinations.

In the following cases, it has been determined that the requirements of Section 246(a)(3)(ii) have been met.

I. Whether a significant number of workers in the workers' firm are 50 years of age or older.

II. Whether the workers in the workers' firm possess skills that are not easily transferable.

III. The competitive conditions within the workers' industry (i.e., conditions within the industry are adverse).

Dorr-Oliver Eimco USA Inc., Salt Lake City, UT; Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, as amended, an investigation was initiated on July 21, 2005, in response to a petition filed by a company official on behalf of workers of Dorr-Oliver Eimco USA Inc., Salt Lake City, Utah.

The TAA petition form used to file on behalf of the workers is deemed invalid because it did not have a valid OMB control number. Consequently, further investigation would serve no purpose and the investigation is terminated.

Signed in Washington, DC, this 9th day of August, 2005.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-57,322]

Holo-Krome Company/Danaher Tool Group, Division of Easco Hand Tools, West Hartford, CT; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974, (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on June 22, 2005, applicable to workers of Danaher Tool Group, Division of Easco Hand Tools, West Hartford, Connecticut. The notice will be published soon in the **Federal Register**.

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of hex keys.

New information shows that that some workers separated from employment at the subject firm had their wages reported under a separate unemployment insurance (UI) tax account for Holo-Krome Company/Danaher Tool Group.

Accordingly, the Department is amending the certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of Danaher Tool Group, a Division of Easco Hand Tools, West Hartford, Connecticut who were adversely affected increased imports.

The amended notice applicable to TA-W-57,322 is hereby issued as follows:

"All workers of Holo-Krome Company/Danaher Tool Group, a Division of Easco Hand Tool, West Hartford, Connecticut, who became totally or partially separated from employment on or after June 7, 2004 through July 22, 2007, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible
