## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

[Docket No. ICR 1218-0230(2005)]

#### Vehicle-Mounted Elevating and Rotating Work Platforms Standard; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Request for public comment.

**SUMMARY:** OSHA solicits public comment concerning its request for an extension of the information collection requirements specified for aerial lifts by its Vehicle-Mounted Elevating and Rotating Work Platforms Standard (29 CFR 1910.67). The paperwork provision of the Vehicle-Mounted Elevating and Rotating Work Platforms Standard specifies a requirement for maintaining and disclosing the manufacturers'

certification records for modified aerial lifts. The purpose of the requirement is to reduce employees' risk of death or serious injury by ensuring that aerial lifts are inspected and/or tested after modification to ensure they are in safe operating condition.

**DATES:** Comments must be submitted by the following dates:

Hard copy: Your comments must be submitted (postmarked or received) by October 31, 2005.

Facsimile and electronic transmission: Your comments must be received by October 31, 2005.

**ADDRESSES:** You may submit comments, identified by OSHA Docket No. ICR-1218-0230(2005), by any of the following methods:

Regular mail, express delivery, hand delivery, and messenger service: Submit your comments and attachments to the OSHA Docket Office, Room N-2625, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693-2350 (OSHA's TTY number is (877) 889-5627). OSHA Docket Office and Department of Labor hours are 8:15 a.m. to 4:45 p.m., ET.

Facsimile: If your comments are 10 pages or fewer in length, including attachments, you may fax them to the OSHA Docket Office at (202) 693-1648.

Electronic: You may submit comments through the Internet at <http://ecomments.osha.gov>. Follow instructions on the OSHA Webpage for submitting comments.

**Docket:** For access to the docket to read or download comments or background materials, such as the complete Information Collection Request (ICR) (containing the Supporting Statement, OMB-83-I Form, and attachments), go to OSHA's Webpage at <http://www.OSHA.gov>. In addition, the ICR, comments, and submissions are available for inspection and copying at the OSHA Docket Office at the address above. You may also contact Theda Kenney at the address below to obtain a copy of the ICR. For additional information on submitting comments, please see the "Public Participation" heading in the **SUPPLEMENTARY INFORMATION** section of this document.

**FOR FURTHER INFORMATION CONTACT:** Theda Kenney or Todd Owen, Directorate of Standards and Guidance, OSHA, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210, telephone: (202) 693-2222.

**SUPPLEMENTARY INFORMATION:**

### I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)).

This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

OSHA's Vehicle-Mounted Elevating and Rotating Work Platforms Standard (29 CFR 1910.67) (the "Standard") specifies one paperwork requirement.

**Manufacturer's Certification of Modification (paragraph (b)(2)).** The Standard requires that when aerial lifts are "field modified" for uses other than those intended by the manufacturer, the manufacturer or other equivalent entity, such as a nationally recognized testing laboratory, must certify in writing that the modification is in conformity with all applicable provisions of ANSI A92.2-1969 and the OSHA Standard and that the modified aerial lift is at least as safe as the equipment was before modification. Employers are to maintain the certification record and make it available to OSHA compliance officers. This record provides assurance to employers, employees, and compliance officers that the aerial lift is safe for use, thereby preventing failure while employees are being elevated. The certification record also provides the most efficient means for the compliance officers to determine that an employer is complying with the Standard.

### II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;

- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

### III. Proposed Actions

OSHA proposes to extend the Office of Management and Budget's (OMB) approval of the collection-of-information (paperwork) requirements necessitated by the Standard on Vehicle-Mounted Elevating and Rotating Work Platforms (29 CFR 1910.67(b)(2)). The Agency will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of the information collection requirement.

**Type of Review:** Extension of currently approved information collection requirement.

**Title:** Vehicle-Mounted Elevating and Rotating Work Platforms (29 CFR 1910.67(b)(2)).

**OMB Number:** 1218-0230.

**Affected Public:** Business or other for-profits; Not-for-profit organizations; Federal Government; State, Local or Tribal Government.

**Number of Respondents:** 1,000.

**Frequency:** On occasion.

**Average Time Per Response:** 1 minute (.02) to maintain the manufacturer's certification record to 2 minutes (.03 hour) to disclose it to an OSHA Compliance Officer.

**Estimated Total Burden Hours:** 21.

**Estimated Cost (Operation and Maintenance):** \$0.

### IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments and supporting materials in response to this notice by (1) hard copy, (2) FAX transmission (facsimile), or (3) electronically through the OSHA Webpage. Because of security-related problems, there may be a significant delay in the receipt of comments by regular mail. Please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for information about security procedures concerning the delivery of submissions by express delivery, hand delivery and courier service.

All comments, submissions and background documents are available for inspection and copying at the OSHA Docket Office at the above address. Comments and submissions posted on OSHA's Webpage are available at <http://www.OSHA.gov>. Contact the

OSHA Docket Office for information about materials not available through the OSHA Webpage and for assistance using the Webpage to locate docket submissions.

Electronic copies of this **Federal Register** notice as well as other relevant documents are available on OSHA's Webpage. Since all submissions become public, private information such as social security numbers should not be submitted.

#### V. Authority and Signature

Jonathan L. Snare, Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 5-2002 (67 FR 65008).

Signed at Washington, DC, on August 24, 2005.

**Jonathan L. Snare,**

*Deputy Assistant Secretary of Labor.*

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

[Docket No. NRTL1-88]

#### MET Laboratories, Inc., Application for Expansion of Recognition

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Notice.

**SUMMARY:** This notice announces the application of MET Laboratories, Inc., (MET) for expansion of its recognition to use additional test standards, and presents the Agency's preliminary finding to grant MET's requested expansion of recognition. This preliminary finding does not constitute an interim or temporary approval of this application.

**DATES:** You must submit information or comments, or any request for extension of the time to comment, by the following dates:

- *Hard copy:* Your information or comments must be submitted (postmarked or sent) by September 14, 2005.

- *Electronic transmission or facsimile:* Your comments must be sent by September 14, 2005.

**ADDRESSES:** You may submit information or comments to this notice—identified by docket number NRTL1-88—by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

- OSHA Web site: <http://ecomments.osha.gov>. Follow the instructions for submitting comments on OSHA's Web page.

- Fax: If your written comments are 10 pages or fewer, you may fax them to the OSHA Docket Office at (202) 693-1648.

- Regular mail, express delivery, hand delivery and courier service: Submit three copies to the OSHA Docket Office, Docket No. NRTL1-88, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-2625, Washington, DC 20210; telephone (202) 693-2350. (OSHA's TTY number is (877) 889-5627). OSHA Docket Office hours of operation are 8:15 a.m. to 4:45 p.m., e.s.t.

*Instructions:* All comments received will be posted without change to <http://dockets.osha.gov>, including any personal information provided. OSHA cautions you about submitting personal information such as social security numbers and birth dates.

*Docket:* For access to the docket to read background documents or comments received, go to <http://dockets.osha.gov>. Contact the OSHA Docket Office for information about materials not available through the OSHA Web page and for assistance in using the Web page to locate docket submissions.

*Extension of Comment Period:* Submit requests for extensions concerning this notice to: Office of Technical Programs and Coordination Activities, NRTL Program, Occupational Safety and Health Administration, U.S. Department of Labor, Room N-3653, 200 Constitution Avenue, NW., Washington, DC 20210. Or fax to (202) 693-1644.

**FOR FURTHER INFORMATION CONTACT:** Office of Technical Programs and Coordination Activities, NRTL Program, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-3653, Washington, DC 20210, or phone (202) 693-2110.

**SUPPLEMENTARY INFORMATION:**

**Notice of Application**

The Occupational Safety and Health Administration (OSHA) hereby gives notice that MET Laboratories, Inc., (MET) has applied for expansion of its current recognition as a Nationally Recognized Testing Laboratory (NRTL). MET's expansion request covers the use of additional test standards. OSHA's current scope of recognition for MET may be found in the following

informational Web page: <http://www.osha-slc.gov/dts/otpca/nrtl/met.html>.

OSHA recognition of an NRTL signifies that the organization has met the legal requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products "properly certified" by the NRTL to meet OSHA standards that require testing and certification.

The Agency processes applications by an NRTL for initial recognition or for expansion or renewal of this recognition following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. We maintain an informational Web page for each NRTL, which details its scope of recognition. These pages can be accessed from our Web site at <http://www.osha-slc.gov/dts/otpca/nrtl/index.html>.

The most recent notice published by OSHA for MET's recognition covered an expansion of recognition, which became effective on August 26, 2003 (68 FR 51304).

The current address of the MET facility already recognized by OSHA is: MET Laboratories, Inc., 914 West Patapsco Avenue, Baltimore, Maryland 21230.

**General Background on the Application**

MET has submitted an application, dated November 1, 2004 (see Exhibit 35-1) to expand its recognition to include 12 additional test standards. The NRTL Program staff has determined that each of these standards is an "appropriate test standard" within the meaning of 29 CFR 1910.7(c). However, one standard was already included in MET's scope. Therefore, OSHA would approve eleven test standards for the expansion.

MET seeks recognition for testing and certification of products for demonstration of conformance to the following eleven test standards:  
UL 5A Nonmetallic Surface Raceways and Fittings
