

management program. FEMA regional offices use this information as a means to know which communities need support and guidance. In addition, the NFIP Biennial Report is one of the tools used to assist FEMA in meeting its regulatory requirement under Section 575 of the NFIRA. A "yes" answer to Items A–D in Section I of the report will provide the basis for FEMA to follow-up by contacting the community for clarification and/or elaboration

regarding changes and activities occurring in a community's flood hazard area. This information will be used in ranking and prioritizing one community's mapping needs against all other communities in the NFIP and for determining how the limited flood hazard mapping funds are allocated for map updates.

Affected Public: The respondents are the estimated 20,500 United States and United States territorial communities

that are participating members of the National Flood Insurance Program (NFIP). The NFIP requires that communities participating in the NFIP submit an annual or biennial report describing the progress made during the year in the implementation and enforcement of floodplain management regulations.

Estimated Total Annual Burden Hours: 11,375 burden hours.

ANNUAL BURDEN HOURS

Project/activity (survey, form(s), focus group, worksheet, etc.)	Number of respondents (A)	Frequency of responses (B)	Burden hours per respondent (C)	Annual responses (A × B)	Total annual burden hours (A × B × C)
FF 81–28	5,930	0.5	0.75	2,965	2,223
FF 81–29	12,224	0.5	1.44	6,112	8,801
FF 81–29A	2,346	0.5	0.3	1,173	351
Total	20,500	0.5	10,250	11,375

Estimated Cost: The estimated annual cost of the collection of the Biennial Report forms is estimated to be \$180,520.

Comments: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

ADDRESSES: Interested persons should submit written comments to Chief, Records Management Section, Information Resources Management Branch, Information Technology Services Division, Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security, 500 C Street, SW., Room 316, Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: Contact William Lesser, Lead Program Specialist at (202) 646–2807 for additional information. You may

contact the Records Management Section for copies of the proposed collection of information at facsimile number (202) 646–3347 or e-mail address: *FEMA-Information-Collections@dhs.gov*.
