Chromated Copper Arsenate (CCA); Amendment to Terminate a Use

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's cancellation order granting amendments to terminate uses, voluntarily requested by the registrant(s) and accepted by the Agency, of products containing the pesticide Chromated Copper Arsenate (CCA), pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a September 8, 2004 **Federal Register** Notice of Receipt of Requests (69 FR 54278) from the CCA registrants to voluntarily amend their affected product registrations to terminate the use "members out of water and not subject to salt water [or brackish water] splash, and not in soil use," as currently stated under American Wood Preservers' Association (AWPA) Standard C18 (Wood for Marine Construction). The registrants requested that these use terminations become effective December 31, 2004. For further information, please refer to the CCA guidance document at http://www.epa.gov/pesticides/factsheets/chemicals/cca_awpa_june.pdf. In the September 8, 2004 Notice, EPA indicated that it intended to issue a cancellation order implementing the amendments to terminate the use. All affected CCA registrants waived the 180-day comment period (i.e., any comment period in excess of 30 days). Accordingly, EPA hereby issues in this notice a cancellation order granting the requested amendments to terminate the

uses. Any distribution, sale, or use of the CCA products subject to this cancellation order is permitted only in accordance with the terms of this cancellation order, including any existing stocks provisions.

DATES: The cancellations are effective September 7, 2005.

V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The cancellation order issued in this Notice includes the following existing stocks provisions.

The registrants of affected CCA products requested that the voluntary

use terminations become effective December 31, 2004, with no provisions for existing stocks. Consequently, the Agency is not allowing for any existing stocks provisions for those affected products in the hands of the registrant on or after the effective date of the use terminations. Any sale, distribution, or use of those affected products on or after the effective date of this cancellation order is prohibited. This refers to CCA product labels that bear the C18 Marine Use, "members out of water and not subject to saltwater [or brackish water] splash and not in soil use," and which do not bear labeling consistent with that set forth in Unit IV. above. Sale, distribution or use of the stocks in the channels of trade by persons other than the registrant may continue until depleted, provided any sale, distribution or use is in accordance with the existing label of that product.
