SUPPLEMENTARY INFORMATION: Devon Energy Corporation (Devon) is the primary applicant and has proposed drilling and developing up to 1,250 conventional natural gas and coal bed natural gas wells from up to 1000 well pad locations. Associated project facilities would include roads, well pads, gas and water collection pipelines, compressor stations, water disposal systems, and a power supply system. During the preparation of the EIS, any interim development on public lands will require a detailed environmental review by the BLM. Such a review will determine what, if any, development could and/or would be authorized based on the analysis of the environmental impacts without having an adverse environmental impact and/or potential to limit selection within the range of reasonable alternatives for this proposed Creston/Blue Gap II Project and/or the range of reasonable within alternatives pending Rawlins RMP revision/EIS.

The Creston Blue/Gap II Natural Gas Project is located in Townships 14, 15, 16, 17, 18, and 19 North, Ranges 91, 92, 93, and 94 West, Sixth Principal Meridian, Carbon and Sweetwater Counties, Wyoming. The project area is located approximately 40 air miles southwest of Rawlins along the east and west sides of Wyoming State Highway 789. The project area is approximately 184,000 acres in size and involves a mixture of mostly Federal (71%) and private (26%) surface with some State land (3%). The BLM Rawlins Field Office manages the Federal surface lands and the Federal mineral estate.

The purpose of the natural gas development is to extract and recover natural gas from the Creston/Blue Gap II area and to provide more natural gas for distribution to consumers. This project confirms with the goals and objectives of the President's National Energy Plan, through proposing to increase domestic energy supplies and strengthen America's energy security. The proposed action may add up to 200 million cubic feet of natural gas per day into the market to help meet this growing national demand.

The EIS will address cumulative impacts and will include consideration of the effects of the project. Potential issues to be addressed in the EIS include but are not limited to: surface and ground water resources, air quality, wildlife populations and their habitats, private and public land access concerns,

road development and transportation, reclamation, noxious weeds livestock grazing, cultural and paleontological resources, threatened and endangered wildlife and plant species, and socioeconomic impacts.

The project area is managed under the Great Divide Resource Management Plan (RMP) (1990). This RMP is currently being revised under the title of Rawlins Resource Management Plan. A Draft EIS for the Rawlins RMP was released in December 2004. A decision for the Creston/Blue Gap II Natural Gas Project (C/BG2 Project) will not be made nor implemented until after a Record of Decision is issued for the Rawlins RMP revision FEIS.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on January 6, 2005, based on a complaint filed on behalf of BIAx Corporation ("BIAx"), of Boulder, Colorado (70 FR 1277). The complaint alleged violations of section 337 in the importation into the United States, sale for importation, and sale within the United States after importation of certain digital processors, digital processing systems, components thereof, and products containing same by reason of infringement of certain claims of U.S. Patent Nos. 4,487,755 ("the '755 patent"); 5,021,954 ("the '954

patent"); 5,517,628; 6,253,313; and 5,765,037. The notice of investigation named Texas Instruments, Inc. ("TI"), of Dallas, Texas; iBiquity Digital Corporation, of Columbia, Maryland; Kenwood Corporation, of Japan; and Kenwood U.S.A. Corporation, of Long Beach, California as respondents.

On April 12, 2005, respondent TI filed a motion for summary determination of non-infringement of the asserted claims of the '755 and '945 patents. On May 20, 2005, complainant BIAx filed its opposition to TI's motion for summary determination. On May 23, 2005, the Commission's investigative attorney filed an opposition to TI's motion for summary determination.

On July 12, 2005, the administrative law judge ("ALJ") issued an ID, Order No. 18, granting respondent TI's motion for summary determination of non-infringement of the asserted claims of the '755 and '945 patents. On July 19, 2005, complainant BIAx filed a petition for review of Order No. 18.

On July 20, 2005, the parties filed a joint motion to extend the deadline for filing responses to BIAx's petition for review of Order No. 18 until August 10, 2005, and to extend the deadline for the Commission to determine whether to review Order No. 18 until August 30, 2005. On July 22, 2005, the Chairman extended the deadline for filing responses to the BIAx's petition for review of Order No. 18 until August 10, 2005.

On August 1, 2005, the Commission determined to extend the deadline for determining whether to review the Order No. 18, granting respondent TI's motion for summary determination of non-infringement of the asserted claims of the '755 and '945 patents, by 30 days, *i.e.*, until September 12, 2005.

On August 3, 2004, complainant BIAx and respondents filed a joint motion to terminate the investigation based on a license agreement between BIAx and respondent TI. The Commission investigative attorney supported the joint motion.

On August 8, 2005, the presiding ALJ issued the subject ID (Order No. 23) granting the joint motion to terminate the investigation based on a license agreement between BIAx and respondent TI. No party filed a petition to review the subject ID. The Commission has determined not to review ALJ Order No. 23.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and § 210.42 of Rules of Practice and Procedure, 19 CFR 210.42.
