

Dated: September 9, 2005.

Bentley M. Roberts, Jr.,

Clerk of the Board.

[FR Doc. 05-18256 Filed 9-13-05; 8:45 am]

BILLING CODE 7400-01-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (05-134)]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Mr. Walter Kit, Office of the Chief Information Officer, Mail Suite 6M70, National Aeronautics and Space Administration, Washington, DC 20546-0001.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Mr. Walter Kit, Office of the Chief Information Officer, NASA Headquarters, 300 E Street SW., Mail Suite 6M70, Washington, DC 20546, (202) 358-1350, walter.kit-1@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The information will be used by the Headquarters Office of Security and Program Protection (OSPP) to help fulfill its responsibilities for facilitating business visits and assignments that support U.S. national interests and NASA's international program interests and operational requirements, and by the Office of External Relations for export control oversight. This information is collected and stored in the NASA Foreign National Management System (NFMMS) and will be used by OSPP to determine acceptability for a foreign national, or U.S. citizen representing a foreign entity, to access NASA installations or facilities for business or high level protocol visit purposes.

II. Method of Collection

Respondents provide unformatted information for specific data fields. Data are provided orally, via a hard copy, or e-mailed to a NASA representative who transfers the information into a database (attached is a printout of the NASA Foreign Nationals Management System data entry form). To ensure data security, access to the electronic data entry form is limited to approved NASA employees or contractors. Direct data entry by respondents is not permitted.

III. Data

Title: NASA Foreign National Access Information.

OMB Number: 2700-XXXX.

Type of Review: New collection.

Affected Public: Foreign nationals and NASA contractors.

Estimated Number of Respondents: 9,900 annually.

Estimated Time Per Response: 0.5 hour.

Estimated Total Annual Burden Hours: 4,950.

Estimated Total Annual Cost: \$9,715/year.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Dated: September 7, 2005.

Patricia L. Dunnington,

Chief Information Officer.

BILLING CODE 7510-13-P

NUCLEAR REGULATORY COMMISSION

Agency Information Collection

Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 9, Public Records.

3. *The form number if applicable:* NRC-509 and NRC-509A.

4. *How often the collection is required:* On occasion.

5. *Who will be required or asked to report:* Individuals requesting access to records under the Freedom of Information or Privacy Acts, or to records that are already publicly available in the NRC's Public Document Room. Submitters of information containing trade secrets or confidential commercial or financial information who have been notified that the NRC has made an initial determination that the information should be disclosed.

6. *An estimate of the number of annual responses:* 7,987.

7. *The estimated number of annual respondents:* 7,987.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 2,120 (.3 hours per response).

9. *An indication of whether Section 3507(d), Public Law 104-13 applies:* N/A.

10. *Abstract:* 10 CFR part 9 establishes information collection requirements for individuals making requests for records under the Freedom of Information Act (FOIA) or Privacy Act (PA). It also contains requests to waive or reduce fees for searching for and reproducing records in response to FOIA requests; and requests for expedited processing of requests. The information required from the public is necessary to identify the records they are requesting; to justify requests for waivers or reductions in searching or copying fees; or to justify expedited processing. Section 9.28(b) provides that if the submitter of information designated to be trade secrets or confidential commercial or financial information objects to the disclosure, he must provide a written statement within 30 days that specifies all grounds why the information is a trade secret or commercial or financial information that is privileged or confidential.

Submit, by November 14, 2005, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC World Wide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by October 14, 2005. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date. John A. Asalone, Office of Information and Regulatory Affairs (3150-0043), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to John_A._Asalone@omb.eop.gov or submitted by telephone at (202) 395-4650.

The NRC Clearance Officer is Brenda Jo. Shelton, 301-415-7233.

Dated at Rockville, Maryland, this 8th day of September, 2005.

For the Nuclear Regulatory Commission.

Beth St. Mary,

Acting NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-317 and 50-318]

Calvert Cliffs Nuclear Power Plant, Inc., Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2; Exemption

1.0 Background

The Calvert Cliffs Nuclear Power Plant, Inc. (the licensee) is the holder of Renewed Facility Operating License

Nos. DPR-53 and DPR-69, which authorize operation of Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 (CCNPP), respectively. The licenses provide, among other things, that the facility is subject to all rules, regulations, and orders of the Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect.

The facility consists of two pressurized-water reactors located in Calvert County in Maryland.

2.0 Request/Action

Title 10 of the Code of Federal Regulations (10 CFR), Part 50, Section 50.68, "Criticality accident requirements," sets forth requirements for which a licensee shall comply in lieu of maintaining a monitoring system capable of detecting a criticality as described in 10 CFR 70.24. In particular, subsection (b)(1) of 10 CFR 50.68 requires that plant procedures shall prohibit the handling and storage at any one time of more fuel assemblies than have been determined to be safely subcritical under the most adverse moderation conditions feasible by unborated water.

By letter dated December 21, 2004, as supplemented on May 31, 2005, the licensee submitted a request for an exemption from the requirements of 10 CFR 50.68(b)(1) during the spent fuel pool (SFP) activities related to the underwater handling, loading, and unloading of the Transnuclear NUHOMS-32P® dry shielded canister (DSC), as described in its proposed Amendment to Materials License No. SNM-2505, dated December 12, 2003, for the plant-specific independent spent fuel storage installation (ISFSI) at CCNPP.

In summary, the licensee is unable to satisfy the above requirement for handling of the Transnuclear NUHOMS-32P® DSC authorized by 10 CFR Part 72 at CCNPP. Section 50.12(a) allows licensees to apply for an exemption from the requirements of 10 CFR Part 50 if the application of the regulation is not necessary to achieve the underlying purpose of the rule and special conditions are met. The licensee stated in its application that compliance with 10 CFR 50.68(b)(1) is not necessary for handling the Transnuclear NUHOMS-32P® DSC system to achieve the underlying purpose of the rule.

3.0 Discussion

Pursuant to 10 CFR 50.12, the Commission may, upon application by any interested person or upon its own initiative, grant exemptions from the requirements of 10 CFR Part 50 when:

- (1) The exemptions are authorized by

law, will not present an undue risk to public health or safety, and are consistent with the common defense and security; and (2) when special circumstances are present. Therefore, in determining the acceptability of the licensee's exemption request, the NRC staff has performed the following regulatory, technical, and legal evaluations to satisfy the requirements of 10 CFR 50.12 for granting the exemption.

3.1 Regulatory Evaluation

The CCNPP Technical Specifications (TSs) currently permit the licensee to store spent fuel assemblies in high-density storage racks in its SFP. In accordance with the provisions of 10 CFR 50.68(b)(4), the licensee takes credit for soluble boron for criticality control and ensures that the effective neutron multiplication factor (k_{eff}) of the SFP does not exceed 0.95, if flooded with borated water. Subsection 50.68(b)(4) also requires that if credit is taken for soluble boron, the k_{eff} must remain below 1.0 (subcritical) if flooded with unborated water. However, the licensee is unable to satisfy the requirement to maintain the k_{eff} below 1.0 (subcritical) with unborated water, which is also the requirement of 10 CFR 50.68(b)(1), during cask handling operations in the SFP. Therefore, the licensee proposed an exemption from 10 CFR 50.68(b)(1) to permit the performance of spent fuel loading, unloading, and handling operations related to dry cask storage without being analyzed to be subcritical under the most adverse moderation conditions feasible by unborated water.

Appendix A, "General Design Criteria (GDC) for Nuclear Power Plants," to 10 CFR Part 50 provides a list of the minimum design requirements for nuclear power plants. According to GDC 62, "Prevention of criticality in fuel storage and handling," the licensee must limit the potential for criticality in the fuel handling and storage system by physical systems or processes. Since CCNPP was licensed prior to the issuance of the Appendix A to 10 CFR Part 50, GDC 62 is not directly applicable. However, CCNPP was licensed to the 1967 draft GDC, as discussed in Appendix 1C of the CCNPP Updated Final Safety Analysis Report (UFSAR). The comparable draft GDC is Criterion 66, "Prevention of Fuel Storage Criticality," that states: "Criticality in new and spent fuel storage shall be prevented by physical systems or processes. Such means as geometrically safe configurations shall be emphasized over procedural controls."
