Special Local Regulations for Marine Events; Wrightsville Channel, Wrightsville Beach, NC

AGENCY: Coast Guard, DHS.

ACTION: Notice of enforcement of regulation.

SUMMARY: The Coast Guard is implementing the special local regulations at 33 CFR 100.513 during the Wilmington YMCA Triathlon to be held September 24, 2005, on the waters of Wrightsville Channel, Wrightsville Beach, North Carolina. This action is necessary to provide for the safety of life on navigable waters during the event. The effect will be to restrict general navigation in the regulated area for the safety of participants and vessels transiting the event area.

Enforcement Dates: 33 CFR 100.513 will be enforced from 6:30 a.m. to 8:30 a.m. on September 24, 2005.

FOR FURTHER INFORMATION CONTACT: D.M. Sens, Project Manager, Fifth Coast

Guard District, Operations Division, Auxiliary and Boating Safety Branch, at (757) 398-6204.

SUPPLEMENTARY INFORMATION: The Wilmington YMCA will sponsor the Wilmington YMCA Triathlon on September 24, 2005 on the waters of Wrightsville Channel, Wrightsville Beach, North Carolina. The event will involve approximately 1100 swimmers competing along a course within the regulated area. In order to ensure the safety of the swimmers and transiting vessels, 33 CFR 100.513 will be enforced for the duration of the event. Under provisions of 33 CFR 100.513, a vessel may not enter the regulated area unless it receives permission from the Coast Guard Patrol Commander.

In addition to this notice, the maritime community will be provided extensive advance notification via the Local Notice to Mariners, marine information broadcasts, local radio stations and area newspapers, so mariners can adjust their plans accordingly.

Dated: August 31, 2005.

L.L. Hereth,

*Rear Admiral, U.S. Coast Guard, Commander,
Fifth Coast Guard District.*

Safety Zone; Manasquan Inlet

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone in the Manasquan Inlet, to encompass all waters east of the Bascule Span Bridge in Manasquan, NJ. This temporary safety zone is needed to conduct an oil spill protective strategy test. This action is necessary to provide for the safety of the boating public, oil spill response workers and equipment during the strategic oil spill protective strategy test.

DATES: This rule is effective from 7 a.m. to 1 p.m. on September 22, 2005. If the event is cancelled due to weather, this section is effective either September 21 or 23. The Coast Guard Patrol Commander will announce by Broadcast Notice to Mariners the specific time this regulation will be enforced.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket CGD05-05-113 and are available for inspection or copying at Coast Guard Sector Delaware Bay, One Washington Avenue, Philadelphia, Pennsylvania, 19147, between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Carmen McKinstry or Lieutenant Junior Grade Antoinett Scott, Coast Guard Sector Delaware Bay, at (215) 271-4889.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B) and (d)(3), the Coast Guard finds that good cause exists for not publishing a NPRM and for making this regulation effective less than 30 days after publication in the **Federal Register**. Publishing a NPRM and delaying its effective date would be contrary to public interest, since immediate action is needed to protect mariners against potential hazards associated with the protective strategy exercise.

Background and Purpose

The New Jersey Department of Environmental Protection commissioned a project to develop potential protection strategies for each tidal inlet along the Atlantic Coast of New Jersey. There are thirteen tidal inlets or channels along the New Jersey coastline that divide the barrier islands into segments. The inlets are subject to reversing tidal currents, and are conduits for the volume of water that flows in and out of the bay and estuarine system during tidal cycles. It is through these inlets that oil spilled on open ocean waters could reach environmentally sensitive resources, such as salt marshes, that occur along the bay and estuarine shorelines. Coastal tidal inlets are therefore focal points for designing oil spill response strategies to protect these vital resources from an oil spill. Exercises are conducted at NJ inlets and channels to develop strategic plans and to evaluate equipment. On September 22, 2005 an oil spill protective strategy exercise will be conducted at Manasquan Inlet.

Regulatory Evaluation

This temporary rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not

reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Homeland Security (DHS).

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary.

The primary impact of this temporary rule will be on vessels wishing to transit the affected waterway during the oil spill protective strategy test on September 22, 2005. Although this temporary rule restricts vessel traffic from transiting Manasquan Inlet during the exercise, that restriction is limited in duration, affects only a limited area, and will be well publicized to allow mariners to make alternative plans.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

This will have virtually no impact on any small entities. This rule does not require a general notice of proposed rulemaking and, therefore, it is exempt from the requirement of the Regulatory Flexibility Act. Although this rule is exempt, we have reviewed it for potential economic impact on small entities.

Therefore, the Coast Guard certifies under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 605(b)) that this will not have a significant impact on a substantial number of small entities.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this rule so that they can better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce or otherwise determine compliance with Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by
