Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m. (eastern time) Monday through Friday. You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton.

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* Grantee Reporting Requirements for Science and Technology Centers (STC): Integrative Partnerships.

*OMB Number:* 3145-0194.

*Expiration Date of Approval:* January 31, 2006.

*Type of Request:* Intent to seek approval to extend an information collection.

*Abstract:* The National Science Foundation (NSF) requests extension of data collection (annual reports) called "Grantee Reporting Requirements for Science and Technology Centers (STC): Integrative Partnerships". The current data collection, designed to measure the Science and Technology Centers' progress and plans, had been approved for use through January 2006. The annual reports have proven an effective means for efficiently gathering data from Centers. The data gathered through the annual reports under the current OMB approval has been used in making decisions about continued funding of individual Centers. In addition, a database of Centers' characteristics, activities, and outcomes has been created using data from these annual reports.

The Science and Technology Centers (STC): Integrative Partnerships Program supports innovation in the integrative conduct of research, education and knowledge transfer. Science and Technology Centers build intellectual and physical infrastructure within and between disciplines, weaving together knowledge creation, knowledge integration, and knowledge transfer. STCs conduct world-class research through partnerships of academic institutions, national laboratories, industrial organizations, and/or other public/private entities. Thus, new knowledge created is meaningfully linked to society.

In addition, STCs enable and foster excellence in education, the integration of research and education, and the creation of bonds between learning and inquiry so that discovery and creativity more fully support the learning process. STCs capitalize on diversity through participation in Center activities and demonstrate leadership in the involvement of groups

underrepresented in science and engineering.

All Centers will be required to submit annual reports on progress and plans that are used as a basis for performance review and determining the level of continued funding. This continues the practice established under the previously approved data collection. To support this review and the management of a Center, new STCs are required to develop a set of management and performance indicators (continuing Centers have already developed these indicators). These indicators are submitted annually to NSF via FastLane. These indicators are both quantitative and descriptive and include, for example, the characteristics of Center personnel and students; sources of financial support and in-kind support; expenditures by operational component; characteristics of industrial and/or other sector participation; research activities; education activities; knowledge transfer activities; patents and licenses; publications; degrees granted to students involved in Center activities; descriptions of significant advances and other outcomes of the STCs' efforts. The reporting will be added to the STC program database that has been compiled by an NSF evaluation technical assistance contractor to support decisions for continued funding of the Centers and will be made available for the 2007 program evaluation. This database captures specific information that demonstrates progress towards achieving the goals of the individual Centers and the goals of the program. Such reporting requirements are included in the cooperative agreement that is binding between the academic institution and the NSF.

Each Center's annual report provides information about the following categories of activities: (1) Research, (2) education, (3) knowledge transfer, (4) partnerships, (5) diversity, (6) management, and (7) budget issues.

For each of the categories the report describes overall objectives for the year, problems the Center has encountered in making progress towards goals for the year, specific outputs and outcomes for the year, and expected accomplishments and anticipated problems in the coming year.

*Use of the Information:* NSF will use the information to make decisions on continued funding for the Centers, to evaluate the yearly progress of the program and to inform the upcoming 2007 Program Evaluation. The data will be analyzed to evaluate progress towards specific goals of the STC program.

*Estimate of Burden:* For the first year of this data collection, the time estimate for the 11 continuing Centers is a total of 550 hours. The time estimate for the 2 newly funded Centers and the anticipated 4 additional Centers is a total of 600 hours. In subsequent years of the data collection, the time estimate is a total of 850 hours for the 17 Centers (the 11 established Centers, the 2 newly funded Centers, and the anticipated 4 additional Centers).

*Respondents:* Non-profit institutions; Federal Government.

*Estimated Number of Responses per Report:* One from each of the 13 funded Centers and 4 anticipated Centers.

*Comments:* Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: September 15, 2005.

**BILLING CODE 7555-01-M**

## **NUCLEAR REGULATORY COMMISSION**

**[Docket No. 50-331]**

### **Nuclear Management Company, Duane Arnold Energy Center; Notice of Consideration of Approval of Transfer of Facility Operating License and Opportunity for a Hearing**

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating License No. DPR-49 for the Duane Arnold Energy Center (DAEC) to the extent currently held by Interstate Power and Light Company (IPL) as owner, and Nuclear Management Company, LLC (NMC) as licensed operator of DAEC. The transfer would be to FPL Energy

Duane Arnold, LLC (FPLE Duane Arnold). The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by DAEC, FPLE Duane Arnold, an indirect, wholly owned subsidiary of FPL Group, Inc., would assume title to IPL's 70 percent ownership of the facility following approval of the proposed license transfer, and would be responsible for the operation, maintenance, and eventual decommissioning of DAEC. FPLE Duane Arnold will also take title to the general license for the independent spent fuel storage installation. No physical changes to the DAEC facility or operational changes are being proposed in the application.

The proposed amendment would replace references to IPL and NMC in the license with references to FPLE Duane Arnold, to reflect the proposed transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the

license transfer application, are discussed below.

Within 20 days from the date of publication of this notice, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart C "Rules of General Applicability: Hearing Requests, Petitions to Intervene, Availability of Documents, Selection of Specific Hearing Procedures, Presiding Officer Powers, and General Hearing Management for NRC Adjudicatory Hearings," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.309. Untimely requests and petitions may be denied, as provided in 10 CFR 2.309(c)(1), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.309(c)(1)(i)-(viii).

Requests for a hearing and petitions for leave to intervene should be served upon Robert E. Helfrich, Senior Attorney, FPL Energy, LLC, 700 Universe Blvd., Juno Beach, Florida 33408, (561) 304-5288, facsimile: (561) 691-7135, e-mail:

[robert\\_helfrich@fpl.com](mailto:robert_helfrich@fpl.com), Sam Behrends, LeBoeuf, Lamb, Greene & MacRae, 1875 Connecticut Ave., NW, Suite 1200, Washington, DC 20009, (202) 986-8108, facsimile: (202) 986-8102, e-mail:

[Sbehrend@llgm.com](mailto:Sbehrend@llgm.com), Kent M. Ragsdale, Managing Attorney—Regulatory Alliant Energy Corporate Services, Inc., PO Box 351, 2100 First Street, SE., Cedar Rapids, IA 52406-0351, 319-786-7765, facsimile: (319) 786-4533, e-mail:

[kentragsdale@alliantenergy.com](mailto:kentragsdale@alliantenergy.com), Jonathan Rogoff, Vice President, General Counsel and Secretary, Nuclear Management Company, LLC, 700 First Street, Hudson, WI 54016, (715) 377-3316, facsimile: (715) 386-1013, e-mail: [jonathan.rogoff@nmcco.com](mailto:jonathan.rogoff@nmcco.com); the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001 (e-mail address for filings regarding license transfer cases only: [OGCLT@NRC.gov](mailto:OGCLT@NRC.gov)); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.302 and 2.305.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, within 30 days from the date of publication of this notice, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated August 1, 2005, available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, (301) 415-4737 or by e-mail to [pdrr@nrc.gov](mailto:pdrr@nrc.gov).

Dated at Rockville, Maryland this 12th day of September 2005.

For the Nuclear Regulatory Commission.
