## II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the PCX included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The PCX has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

As part of its continuing efforts to enhance participation on the ArcaEx facility, the Exchange proposes to add a new order type for use by Users.<sup>5</sup> The new order type, the PL Order, is an order to buy or sell a stated amount of a security at a specified, undisplayed price.

#### PL Order Type Features

A PL Order would be an order to buy or sell a stated amount of a security at a specified, undisplayed price. PL Orders must be entered with a volume

<sup>5</sup> See PCXE Rule 1.1(yy) for the definition of “User.”

of at least 200 shares and will only be permitted in round lot denominations. ArcaEx pegging, reserve, and discretionary functionality will not be available to modify PL Orders.<sup>6</sup> PL Orders will not route out of ArcaEx to other market centers and will not execute against incoming orders sent via the Intermarket Trading System.

#### PL Order Execution Priority in ArcaEx

ArcaEx maintains an electronic file of orders called the Arca book.<sup>7</sup> The Arca book is divided into three components: the Display Order Process, the Working Order Process and the Tracking Order Process.<sup>8</sup> Arca ranks and maintains limit orders in the Arca book according to price/time priority and generally affords priority to displayed orders in the Display Process and prices over undisplayed orders in the Working Order Process, sizes and prices.

PL Orders would be executed in the Working Order Process after all other orders including reserve orders and the display portion of discretionary orders at a particular price level. PL Orders would, however, take precedence over undisplayed discretionary order interest. PL Orders with a price superior to that of Directed Fills would have price priority and would execute ahead of inferior priced Directed Fills in the Directed Order Process. Also, PL Orders with a price superior to that of displayed orders would have price priority and would execute ahead of inferior priced displayed orders in the Display Order Process.

The Exchange believes that the implementation of the aforementioned rule changes relating to ArcaEx order processing would enhance order execution opportunities on ArcaEx. The Exchange believes that the proposed order type would allow for additional opportunities for liquidity providers to passively interact with interest in the Arca book.

#### 2. Statutory Basis

The Exchange believes that the proposed rule change, as amended, is consistent with Section 6(b) of the Act,<sup>9</sup> in general, and furthers the objectives of

<sup>6</sup> More specifically, the pegging functionality will not be available for PL Orders in that the Passive Liquidity Order price will not automatically track the NBBO. See PCXE Rule 7.31(cc). Further, reserve functionality, meaning undisplayed size, and discretionary functionality, meaning undisplayed prices, will not be available for PL Orders since the Passive Liquidity Order price and size are undisplayed by definition.

<sup>7</sup> See PCXE Rule 1.1(a).

<sup>8</sup> The Directed Order Process, as set forth in PCXE Rule 7.37, precedes the Display, Working, and Tracking Order Processes, but is not operable at this time on ArcaEx. ArcaEx intends to implement a new Directed Process in a future filing.

<sup>9</sup> 15 U.S.C. 78f(b).

Section 6(b)(1) of the Act,<sup>10</sup> in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others*

Written comments on the proposed rule change were neither solicited nor received.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The Exchange requested that the proposed rule change be given expedited review and accelerated approval pursuant to Section 19(b)(2) of the Act. The Exchange believes that the proposed rule proposal is consistent with the requirements of Section 6(b)(5) of the Act and the rules and regulations thereunder applicable to a national securities exchange. In particular, the Exchange believes that its proposal to implement the PL Order adds significant value to investors and Users, will enhance available order interaction opportunities, and does not raise any new regulatory issues. Accordingly, the Exchange believes that its proposal will facilitate transactions in securities, remove impediments to and perfect the mechanism of a free and open market and a national system, and, in general, protect investors and the public interest.

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will:

(A) By order approve such proposed rule change, as amended, or

(B) Institute proceedings to determine whether the proposed rule change, as amended, should be disapproved.
