

to continue selection of cases for these tests beyond this date, we will publish another notice in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Phil Landis, Office of Disability Determinations, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235-6401, 410-965-5388.

**SUPPLEMENTARY INFORMATION:** Current regulations at 20 CFR 404.906 and 416.1406 authorize us to test, individually, or in any combination, different modifications to the disability determination procedures. We have conducted several tests under the authority of these rules, including a prototype that incorporates a number of modifications to the disability determination procedures that the State agencies use. The prototype included three redesign features, and we previously extended the tests of two of those features: the use of a single decisionmaker, in which a disability examiner may make the initial disability determination in most cases without requiring the signature of a medical consultant; and elimination of the reconsideration level of review. We are now announcing a further extension of the testing of these two features.

We also have conducted another test involving the use of a single decisionmaker who may make the initial disability determination in most cases without requiring the signature of a medical consultant. We are also extending the period during which we will select cases to be included in this test of the single decisionmaker feature.

#### **Extension of Testing of Some Disability Redesign Features**

On August 30, 1999, we published in the **Federal Register** a notice announcing a prototype that would test a new disability claims process in 10 States, also called the prototype process (64 FR 47218). On December 23, 1999, we published a notice in the **Federal Register** (65 FR 72134) extending the period during which we would select cases to be included in a separate test of the single decisionmaker feature. In these notices, we stated that selection of cases was expected to be concluded on or about December 31, 2001. We also stated that, if we decided to continue the tests beyond that date, we would publish another notice in the **Federal Register**. We subsequently published notices in the **Federal Register** extending selection of cases for these tests. Most recently, on December 10, 2003, we published a notice extending selection of cases for the tests until no later than September 30, 2005 (68 FR

68963). We also stated that, if we decided to continue selection of cases for these tests beyond that date, we would publish another notice in the **Federal Register**. We have decided to extend selection of cases for two features of the prototype process (single decisionmaker and elimination of the reconsideration step), and the separate test of single decisionmaker beyond September 30, 2005. We expect that our selection of cases for these tests will end on or before September 30, 2006.

This extension also applies to the locations in the State of New York that we added to the prototype test in a notice published in the **Federal Register** on December 26, 2000 (65 FR 81553).

Dated: September 16, 2005.
