

the orders (57 FR 57420 (December 4, 1992)). Moreover, as a result of a changed circumstances review, the Department revoked the orders in part with respect to certain stainless steel camping ware: (1) made of single-ply stainless steel having a thickness no greater than 6.0 millimeters; and (2) consisting of 1.0, 1.5, and 2.0 quart saucepans without handles and with lids that also serve as fry pans (62 FR 3662 (January 24, 1997)).

Analysis of Comments Received

All issues raised in these reviews are addressed in the "Issues and Decision Memorandum for the Expedited Sunset Reviews of the Antidumping Duty Orders on Top-of-the-Stove Stainless Steel Cooking Ware from the Republic of Korea and Taiwan ("Decision Memorandum") from Barbara E. Tillman, Acting Deputy Assistant Secretary for Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated September 27, 2005, which is hereby adopted by this notice. The issues discussed in the Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the orders were to be revoked. Parties can find a complete discussion of all issues raised in these reviews and the corresponding recommendations in this public memorandum which is on file in room B-099 of the main Commerce building.

In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov/frn/index.html>. The paper copy and electronic version of the Decision Memorandum are identical in content.

Final Results of Reviews

We determine that revocation of the antidumping duty orders on cooking ware from Korea and Taiwan would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Manufacturers/Exporters/Producers	Weighted-Average Margin (percent)
Korea.	
Bum Koo Industrial Co., Ltd.	*31.23
Dae Sung Industrial Co., Ltd.	6.11
Hai Dong Stainless Industries, Co.	12.14
Kyung Dong Industrial Co., Ltd.	8.36
Namil Metal Co. Ltd.	0.75
All Others	8.10
Taiwan.	

Manufacturers/Exporters/Producers	Weighted-Average Margin (percent)
Golden Lion Metal Industry Co., Ltd.	15.08
Lyi Mean Industrial Co., Ltd.	26.10
Song Far Industry Co., Ltd.	25.90
All Others	22.61

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: September 20, 2005.

Department of the Army

Notice of Availability (NOA) for the Record of Decision (ROD) for Activities Associated With Future Programs at the U.S. Army Dugway Proving Ground (DPG), Utah

AGENCY: Department of the Army, DOD.

ACTION: Record of decision.

SUMMARY: The Department of the Army announces the availability of its Record of Decision (ROD) for Activities Associated with Future Programs at the U.S. Army DPG. The ROD describes the Army's decisions with respect to the Proposed Action (implementation of DPG's planned mission for a 7-year time frame) and alternatives considered in the Environmental Impact Statement (EIS) and its rationale for the decision. Based on the EIS and other relevant factors, the Army has decided to implement its Proposed Action. The Proposed Action is the alternative that best fulfills DPG's statutory mission and responsibilities, giving consideration to economic, environmental, technical, and other factors. DPG will continue to implement its existing mitigation

measures as well as measures described in the ROD to mitigate potential environmental and socioeconomic impacts caused by the Proposed Action.

ADDRESSES: Requests for copies of the ROD may be submitted to: U.S. Army Dugway Proving Ground, ATTN: CSTE-DTC-DP-PA (Paula Nicholson), Dugway, UT 84022-5000.

FOR FURTHER INFORMATION CONTACT: Ms. Paula Nicholson at (435) 831-3409 or by e-mail at nicholsn@dpg.army.mil.

SUPPLEMENTARY INFORMATION: The EIS was prepared to address the planned mission at DPG, the reasonable alternatives to the planned mission, and potential environmental impacts of DPG's future operations.

DPG is one of the few Army installations large and remote enough to permit comprehensive and realistic testing of biological and chemical defense systems, munitions and smokes, obscurants, and illuminants with a commitment to environmental protection and personal and public safety. Both DoD and non-DOD customers are posing challenges for DPG to support greater numbers of test and training events related to new enemy threats, next generation materiel, advanced conventional weapon systems, environmental concern, and demilitarization technologies.

The Proposed Action described and evaluated in the EIS is the implementation of DPG's planned mission. It includes continuation of existing DPG activities (including, but not limited to, chemical and biological defense testing, other testing programs, training, real property management, and environmental management) with future increases in most testing and training operating areas. Additionally, the Proposed Action includes diversification of DPG's operations and implementation of a Summary Development Plan identifying real property planning recommendations for DPG. The Proposed Action will enable DPG to effectively respond to the challenges of a growing and diversified mission.

In making its decision, the Army considered the results of the analysis in the EIS, including the evaluation of the other alternatives. The EIS considered the following two alternatives to the Proposed Action and the No Action Alternative: (1) Decreased mission with a major reduction in operations at DPG and (2) a maximum expanded mission with major increases in most operating areas compared to current operations. The No Action Alternative represents the status quo and assumes that existing DPG operations would continue at

approximately their current rates into the foreseeable future. All comments provided during the formal public review and comment periods were also considered, as well as national security and mission requirements.

The consideration of future programs ensures that the general type and intensity of most of DPG's future activities were addressed. A range of factors such as future technology developments, available budgets, and changing defense threats often alter test plans. The Proposed Action within the Future Programs EIS includes only those activities that are reasonably foreseeable and for which DPG is the proponent or can make a decision about the activity. Specific program designations and equipment/materials to be tested may change between the time that the EIS was prepared and the actual test date. Accordingly, the EIS identifies the general characteristics of reasonably foreseeable test programs, rather than providing definitive and specific test information.

DPG will continue to implement its existing mitigation measures, as well as measures described in the ROD, to mitigate potential environmental and socioeconomic impacts caused by the Proposed Action. DPG and the Army are committed to protecting human health, sustaining their environments, and maintaining regulatory compliance.

Copies of the ROD and the Final EIS are available for review purposes only (no extra copies of the documents will be available at these locations) at the following libraries: Whitmore Library, 2197 East 7000 South (Ft. Union Blvd.), Salt Lake City; University of Utah, J. Willard Marriott Library, 15th East and South Campus Drive, Salt Lake City; Dugway Public Library, 5124 Kister Avenue, Dugway; Tooele City Public Library, 128 W. Vine Street, Tooele.

Dated: September 22, 2005.

Acting Deputy Assistant Secretary of the Army, (Environment, Safety and Occupational Health), OASA(I&E).
