## DEPARTMENT OF DEFENSE

### Department of the Army; Corps of Engineers

#### Intent To Prepare a Draft Environmental Impact Statement, Programmatic Sediment Management Plan, Lower Snake River Reservoirs, in the States of Washington and Idaho

**AGENCY:** Department of the Army, U.S. Army Corps of Engineers, DoD.

**ACTION:** Notice of intent.

**SUMMARY:** The U.S. Army Corps of Engineers (Corps) intends to prepare an Environmental Impact Statement (EIS) for a Programmatic Sediment Management Plan that will address sediment management within the four lower Snake River reservoirs and that portion of McNary reservoir contained within the lower Snake River. The plan will identify and evaluate ways the Corps can manage sediment within these reservoirs and examine the sediment input (sources) on a programmatic basis in the near-term, mid-term, and long-term. The reservoirs extend from the mouth of the Snake River upstream to the communities of Lewiston, Idaho, and Clarkston,

Washington; and include the lower 2 miles of the Clearwater River from its confluence with the Snake River at Lewiston upstream to the U.S. Highway 12 Bridge. In the plan the Corps will also include all tributaries that could significantly contribute sediment to the lower Snake River. The Corps is preparing this plan because sediment management has been an ongoing maintenance issue since the completion of Ice Harbor Dam, the first dam and reservoir on the lower Snake River, in 1961. Rather than addressing sediment-related problems on a case-by-case basis, the Corps has determined that it would be more effective to evaluate sediment management as a whole and on a watershed basis. The intent of the plan is to identify ways to reduce the amount of sediment entering the reservoirs, identify how to manage the sediment once it enters the reservoirs, and identify possible changes to structures or operations to reduce maintenance and associated impacts while still providing for authorized project purposes, including navigation. **FOR FURTHER INFORMATION CONTACT:** Mr. Carl Christianson, Project Manager, Walla Walla District, Corps of Engineers, CENWW-PM-PD, 201 North Third Avenue, Walla Walla, WA 99362, phone (509) 527-7260, or Ms. Sandra Simmons, NEPA Coordinator, Walla Walla District, Corps of Engineers, CENWW-PD-EC, 201 North Third Avenue, Walla Walla, WA 99362, phone (509) 527-7265.

**SUPPLEMENTARY INFORMATION:** Since construction of its first dam on the lower Snake River, the Corps has recognized that sediment management would be an ongoing maintenance issue within the reservoirs. Historically the Corps has used dredging as the primary means of managing sediment that deposited in areas that interfere with man's use of the river. Most of these maintenance dredging actions have been conducted on a case-by-case basis without a long-term look at more effective ways of managing sediment. The Corps has now determined it would be more effective to evaluate sediment management within the lower Snake River on a watershed scale, and evaluate the potential for reducing sediment input, rather than focusing only on the reservoirs themselves. Although the Corps does not have the authority to manage land outside of the reservoir project boundaries, the Corps can identify and evaluate management strategies that could be implemented on non-Corps property.

The Corps is considering a variety of sediment management measures that

could be used individually or in combination. Measures identified to date for evaluation include:

#### Sediment Reduction Measures

##### Structural Sediment Reduction Measures

- Aquatic ecosystem restoration projects under current authorities (Section 206 Water Resources Development Act of 1996 and Section 1135 of the Water Resources Development Act of 1986)
- Shoreline vegetated filter strips
- Streambank erosion control
- Improved logging road placement and design

##### Non-Structural Sediment Reduction Measures

- Natural Resource Conservation Service conservation programs
- Land use planning
- Public education
- Watershed planning
- Forest management practices
- Timber harvest planning

#### Sediment Management Measures

In-water systems to control sediment deposition.

- Agitation to prevent settling
- Bendway weirs
- Dikes and dike fields
- Air curtains to prevent settling of material at specific locations

##### Sediment Removal and Management

- Agitation to re-suspend sediment
- Dredging to remove sediment
- Beneficial use of dredged material
- In-water disposal of dredged material
- Upland disposal of dredged material

#### System Management Measures

##### Modify Navigation System Infrastructure

- Relocate affected commercial navigation, recreational boating and water intake facilities
- Build sediment retention dams upstream of Lower Granite reservoir and/or in tributaries

##### Modify Reservoir Operations

- Raise pool levels to increase water depth
- Modify flows to flush sediment
- Draw down Lower Granite reservoir to add flow conveyance capacity

##### Provide Flow Conveyance at Snake/Clearwater Rivers Confluence

The Corps has also initially identified several key resource areas that may be affected by the sediment management

measures and will be analyzed in the EIS. These include water quality, anadromous fish, cultural resources, and socio-economics. The Corps expects other resource concerns to be identified during the scoping process.

The EIS will address measures, alternatives, and impacts on a programmatic level, but will not address site-specific actions. However, the EIS will present the coordination and environmental review steps the Corps will take with regard to subsequent site-specific actions.

The Corps currently anticipates conducting public scoping for this EIS in early 2006. The exact dates, times, and locations of these meetings have not yet been set. The Corps will publicize this information once the meeting arrangements have been made. The Corps invites affected Federal, state, and local agencies, affected Native American tribes, and other interested organizations and persons to participate in the development of the EIS. The Corps will also invite input from the local, interagency sediment management group formed under the Northwest Regional Dredging Team.

The draft EIS is currently scheduled to be available for public review in fall 2008. The final EIS is currently scheduled to be available for public review in fall 2009.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: September 27, 2005.

**Angela C. Arrington,**

*Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer.*

#### Office of Vocational and Adult Education

*Type of Review:* Extension.

*Title:* The State Scholars Initiative.

*Frequency:* Annually.

*Affected Public:* Not-for-profit institutions.

*Reporting and Recordkeeping Hour Burden:*

Responses: 20.

Burden Hours: 1,000.

*Abstract:* The purpose of the State Scholars Initiative is to support a non-profit entity that will fund state business-education partnerships that promote rigorous course work among high school students in their states, by encouraging and motivating high school students to select rigorous courses of study that will benefit them in their future careers, postsecondary education, or training. The State Scholars cooperative agreement application package includes information for applicants with selection criteria, program requirements, application requirements, and eligibility

requirements, along with relevant ED forms.

This information collection is being submitted under the Streamlined Clearance Process for Discretionary Grant Information Collections (1890-0001). Therefore, the 30-day public comment period notice will be the only public comment notice published for this information collection.

Requests for copies of the information collection submission for OMB review may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2868. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to the Internet address [OCIO\\_RIMG@ed.gov](mailto:OCIO_RIMG@ed.gov) or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Sheila Carey at her e-mail address [Sheila.Carey@ed.gov](mailto:Sheila.Carey@ed.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

## DEPARTMENT OF EDUCATION

### Submission for OMB Review; Comment Request

**AGENCY:** Department of Education.

**SUMMARY:** The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before November 2, 2005.

**ADDRESSES:** Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Rachel Potter, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10222, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

## DEPARTMENT OF EDUCATION

### National Advisory Committee on Institutional Quality and Integrity (National Advisory Committee); Meeting

**AGENCY:** National Advisory Committee on Institutional Quality and Integrity, Department of Education.

#### What Is the Purpose of This Notice?

The purpose of this notice is to announce the public meeting of the National Advisory Committee and invite third-party oral presentations before the Committee. This notice also presents the proposed agenda and informs the public of its opportunity to attend this meeting. The notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act.

#### When and Where Will the Meeting Take Place?

We will hold the public meeting on Wednesday, December 7, 2005, from 9:30 a.m. until approximately 5:15 p.m.;
